Fifty Years Ago.

This is the way it was bound to look when grandfather had his "pictor took." These were the shadows cast before the coming of Conjaquer Daguerre. And his art, like a girl in a pinafore, some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

Ayer's Sarsaparilla

began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record.

PRO AND CON OF IT

Evangelists and the Work They Do.

One Correspondent Agrees With Dr. Battisby—Another Takes

Film to Task.

To the Editor of The Planet.

Dear Sir,—I heartily agree with Rev. Dr. Battisby's estimate of sensational evangelists. If anything disgusts me it is to hear a cheap spouter get up and speak of his Saviour and his Saviour's disciples with a vulgar familiarity which would lead you to imagine they had been in the habit of attending horse races or knocking round fair grounds, playing wheels of fortune or participating in bicycle meet parades together. Reverence in my estimation is the foundation of true Christianity.

Yours,

T. G.

DISAGREES WITH DR. BATTISBY.

To the Editor of The Planet.

Sir,—It seems almost incredible that Dr. Battisby, pastor of St. Andrew's church, should so far forget himself as to inveigh against evangelists in the way he is reported to have done on Monday evening in the Victoria Ave. Methodist church.

It almost passes belief that any man enjoying the reputation for fair-mindedness that Dr. Battisby does could bring himself to such utterances.

Why, Mr. Editor, it strikes me that I can recall instances when even the exclusive Dr. Battisby threw open his church to the people he now so roundly denounces as a means of bringing the church into disrepute. By a slightly increased stretch of memory there are those among us who might recollect Rev. Dr. Battisby aiding and abetting with his presence and his influence these very men whom he now so severely censures.

Perhaps, though, the worthy Doctor is not alive to the full benefits that accrued from the visits of the evangelists whom he aided, and helped entertain. But the Doctor should not think too harshly of these good men, though their best efforts did fail to move his congregation. It might possibly require an earthquake to do that.

ONE OF THE CONVERTED.

IN OUT OF THE WET.

Editor of The Planet.

Sir,—I, the undersigned, hereby wish to let the worthy readers of The Planet know that the reason of the Misses Leart, Cable and Filby, being arrested by P. C. Deziel, on the night of the 11th inst., in my stable was on account of their taking shelter from the heavy rain. I believe that the public will not mistake this, because as far as I think these young ladies are of good reputation and I cannot believe that they are worthy of the name which is now being placed upon them.

Yours truly,

A. JAMIESON.

THE MARKETS.

(Via L. J. Atwater's Private Wire)

Chicago, Oct. 13.—Wheat opened steady and unchanged from yesterday's last prices. There was considerable selling of wheat at the close and prices declined 1-2c, from which point there was a gradual advance of 1-8c, and the market closed strong with the price of wheat 1-2c higher than yesterday.

Clearances were light, but there was a very large export demand, and it was reported that there had been half a million sold in New York for export.

Exporters say that the market is now on a shipping basis. There was a very good inquiry for wheat, but the market is not so strong as yesterday.

Argentine crop reports were more favorable, and it is estimated will show about 28 millions for export.

Corn was heavy most of the session. The local crowd was generally bearish. Later, on better demand for cash, the price rallied and the market closed firm and unchanged from yesterday.

The immense accumulation of corn at Chicago is a very depressing factor.

There is nothing to say of oats.

Receipts of hogs this morning were only 25,000 against an estimate of 30,000 yesterday. Prices were lower, however. Packers were free sellers at the start, but their offerings were quickly absorbed and a demand from the outside turned up, creating an advance, which was maintained to the close. A better demand for cash product is reported.

LATTER DAY SAINTS.

President Joseph Smith Addresses the Local Members of That Church.

A meeting of the local society of the Latter Day Saints was held in Soane's hall last evening. Elder R. C. Evans, of London, the missionary in charge, presiding.

An address was delivered by the head of the organization, Joseph Smith, upon the words, "Preach the Word."

He alluded to the uncertainty of reaching absolute understanding of religious obligation to God under the present system of teaching theology.

The contention of the speaker was that God, through Jesus Christ, His Son, had made it possible for man to know and to become conscious of the fact that the Gospel of the New Testament Scripture was true and that Jesus was the Christ. Mr. Smith cited Matt. 16, and John 6, in evidence.

The Ladies' Assisting Society met in St. Andrew's lecture hall yesterday afternoon. The following members were present: Mesdames Gardner, Geo. McKeough, Grigg, Stevens, Martin, Dunn, Bell, Garner, Oldershaw, Scane, Flister, Wm. Hadley, Wm. Taylor, T. K. Holmes, Campbell, Miss Scott, and Miss McCall, secretary.

The treasurer reported receipts from concert in St. Andrew's church, \$17.07; ward receipts for Sept., \$42.10; from hospital note box, \$4.25; pictures sold in ward 2, \$2.10.

Paid to trustees of Nurses' Home, \$10.00.

Bills paid for furnishing for the Home, \$23.70.

Several matters of importance were freely discussed, and in the near future will be made public. The Ladies' Assisting Society regret very much that Mrs. Grigg, the assisting treasurer
