May 23.-An ay cancels from laid on the ex-gust 10th, 1904. WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office, 17th to 23rd May, 1905.

During this week a much needed and heavy rainfall has taken place throughout the province, and in this vicinity it was exceptionally heavy and continuous and amounted to over two inches, which was more than the total rainfall at Victoria for either the months of April or March. On the Lower Mainland rain fell upon five days and in Cariboo upon four. This abnormal rainfall was due to the hovering over this province of a low barometer area from the Pacific, while to the southward the barometer remained high, which is usual during the rainy months of winter. No high winds have occurred either on the Straits or Sound, and little stormy weather has been reported on the Coast. The weather in the Territories and Manitoba has been for the most part fair and moderately warm,

ATLANTIC YACHT RACE

A resolution was passed at the last meeting of the council asking the Crow's Nest Pass Electric Light & Power Co. Close Contest Between the Atlantic and Hamburg—American Beat Be-lieved to Be Leading.

New York, May 25 .- A two-maste schooner yacht, hull-down to the northnot be established, was sighted at 5 o'clock on the afternoon of May 21st about 830 males east of Sandy Hook lightship by the British steamer Haver sham Grange, which arrived to-day from Barry. The exact location of the yacht was latitude 40.24, longitude 55.42. on Saturday and Sunday to administer confirmation to between 40 and 50 who When sighted by the Havers Grange she had two gaff topsails of equal height and an immense spinnaker set. The spinnaker had a peculiar square head with triangular top added. Some time after she came into sight of the steamer a squall swept down upon her and she took in the topsails. They were quickly re-set as soon as the squall pass-ed, however, and with the fair wind which prevailed she continued due east

at a great speed. It is believed from the description given above that the unknown yacht sighted was the German schooner Hamburg, which had not been sighted since 18th, when the steamer Oneida reported her 132 miles from Sandy Hook and leading the Atlantic, and it was supposed all the others.
