Shediac, May 9, lat 49, lon 14.

REPORTS.

Boston, May 23—Capt Uribellarea of the Spanish steamer Gaditero, which arrived at this port yesterday from Cuba, reported to his consignees that he was unable to find the Nantucket sheals light vessel 66 hast Thursday night, and believes that it has either drifted off its station or that the electric light plant with which it is lighted failed to work at the time. This light vessel was placed in a new position last October about 14 miles southeast from her previous station. To satisfy himself Captain Uribellarea circled the locality for a distance of 20 miles and was unable to find any trace of it. The weather was clear at the time, and the captain thinks it must have drifted off the station. This lightship is a very important guide to shipping.

St Johns, NF, May 23—The Hamburg-American liner Arcadia was puled off the rocks near Cape Ray at 3 o'clock this morning by the British warships Cordelia, Pelican and Puzzard, assisted by five tugs. She is now safely anchored at Port Aux Basques harbor. Her extra steam pumps are sufficient to skeep the leaks under control. Today divers have been examining her bottom in order to effect temporary repairs by means of beams and cement before she attempts to reach her port of destination. It is thought that she will come to St Johns, as there are many safe harbors along the coast in which she could find shelter. Arrangements are being made for the transhipment of such cargo as has been saved.

City Island, NY, May 24—Sch Mildred E, from Eastport, Me, for New York, which arrived here last evering, reports while off Cape Cod about 6 a m May 19th, vessel struck and ran over what was supoposed, to be a submerged wreek, causing the Mildred E fo spring a leak. Pumps were kept going and vessel put in here and went alongside dock for repairs. She is leaking about five hundred strokes per hour. She has a cargo of salt fish.

Portsmouth, NH, May 24—Sch Helen G King, Capt Britt, bound from Eastport to Calais, went ashore on Deer Island Friday

NOTICE TO SUBSCRIBERS.

Births, Marriages and Deaths occurring in the families of subscribers will pe published FREE in THE SUN. In all cases, however, the name of the sender must accompany the notice.

KING CAPTURED.

Farmington, Me., May 23.—After the unusual excitement of yesterday, caused by the arrest of Albert M. King, he messenger of the Boylston Na-ional Bank of Boston, who ran away with \$30,000 of the bank's funds, to-lay assumed the ordinary quiet of aunday. King is thoroughly penitent.

It is a fortunate day for a man when he first discovers the value of Ayer's Sarsaparilla as a blood-purifier. With this medicine, he knows he has found a remedy upon which he may rely, and that his life-long malady is at last conquered. Has cured others, will THE MARKETS.

Revised Every Monday for the Weekly Sun.

COUNTRY MARKET. COUNTRY MARKET.

There is no important change to note. Supplies are ample, and the only changes are the slight fluctuations from day to day. There have been large receipts of rhubarb, and while Saturday's wholesale price was 2c., there will no doubt be a decline this week. Asparagus, cucumbers and tomatoes are more freely offered. In meats and poultry there is no change, except that turkeys have a lower range as to quality. Maple sugar is 6 to 8c. wholesale. Bggs sold last week at 3 doz, for 20c.

VICEROY OF INDIA TO GOVER-NOR GENERAL Government House, Riverside, N. B.,

21st May, 1897. To the Editor of The Sun: Sir-His excellency has advised the publication of the enclosed letter from the viceroy of India. I send it with the hope that you may find it of sufficient public interest to admit of publication.

I remain, yours truly, A. R. McCLELAN,

Copy of Letter to His Excellency the Governor General from His Excel-lency the Viceroy of India: Viceregal Lodge, Simla,

April 8th, 1897. Mr. Dear Aberdeen-I have often thought of writing to you to let you know from myself how much we all have appreciated the sympathy and generosity of Canada. We have been taking stock of our position on pass-ing the grand total of a crore of ru-

pees, and though our grateful thanks are due to friends all over the world, still, outside Great Britain, Canada stands first in the aid which has been sent us. Perhaps you will pardon me if, as a Canadian-born, I mingle little pride with my gratitude. I have no doubt that we owe much to your own kindness, for I know how a calamity like ours would appeal to you; but from papers I have seen, it seems clear that the movement in our favor has been a popular one in every sense of the word, and that cannot fail to enhance the value of the gift.

I think I am entirely justified in saying that so far as government is concerned, we are fully prepared for all present possibilities. Indeed in many districts the worst strain is probably over. They have had a fair spring crop, and by the end of next

onth they will be busy preparing for the summer crop. These agricultural operations at once relieve the situation; for, as I heard it put the other day, what we have had to deal with has been more of a labour famine than a food famine. The small pro-prictors and occupiers of the land have, generally speaking, been able to subsist, though hard pressed by high prices; but they have been unable to employ or feed their laborers, and it has been for this class that in most works. Except in the districts which have suffered most severely, e. g., from the failure of more than one crop, there seems to be no apprehension

condition. But one of the chief ad-vantages of the large charitable fund that has been raised will be that we shall be able to put the poorer cultivators, whose credit is exhausted, into a position to take full advantage of a favorable season, by providing plough cattle, seed, and other necessaries of that sort.

There was a talk at one time of our having to import grain from America, but as yet the necessity has not arisen. There was a good rice crop in Burma, and it has been very useful; but though we have watched very closely, we have not as yet detected any sign of a general failure of food supplies. I have today a letter from Sandhurst, in which he gives a reassuring account in this respect of the worst districts in the Bombay presidency. If there was to be another failure of the monsoon over anything like the same area, we should have a very different state of things, and we should certainly have to take from you and everybody else all that could be spared; but in the meantime there is no reason to think that anything so dreadful is impending.

I am inflicting rather a long letter upon you: but I thought you might like to know a little of the view I take of the situation. I don't know how you get any news of Indian affairs— I suppose through London—and many of the accounts which appear are, to say the least, not distinguished for accuracy or impartiality. I think, however, that all are now beginning to recognize, what I have known for months, that the officers on the spot have been working throughout with a devotion and self-sacrifice that could not be exceeded.

Believe me, yours very truly ELGIN. (Signed)

SPRINGHILL MINES.

A Very Large Number of Men Have Been Thrown Out of Employment.

Attempt Made to Fire Manager Cowans' Stables-To Celebrate the Queen's Jubilee.

Springhill, May 24.-A very large of work during the past week, in addition to two large batches of employes who were discharged in the earlier part of the winter. The union has called special meetings to

consider the situation and things are beginning again to assume an unsettled state. An attempt was made during the week to set fire to Manager Cowan's stables, fortunately the fire was discovered and put out before any damage was done. It is also stated that dynamite was discovered beneath the north slope bank-head, the only slope now working. Threatening anony-

mous letters have been numerous and The town is making preparations to fittingly celebrate the diamond jubilee. A representative committee from the various local societies is hard at work arranging the details. A mon-

the field will form the basis of the celebration. A very large number of people have left the town owing to the slackness of work. Many of the men and

starting in business, advertised ex-tensively and sold articles at rock tensively and sold articles at rock bottom prices and some goods below, cost. The reason for his public generosity became apparent when, a day before his drafts became due, he had fiel the town, taking with him between fifteen hundred and two thousand dollars in cash. His creditors are

sand dollars in cash. His creditors are diligently searching after him.

At a recent meeting of the town council, the town's clerk's salary was increased ten dollors per month. The council is offering special inducements to factories to locate in the town. The report of the finance committee shows the following sums for which provision water he made:

etc
To pay for printing and stationery.
To pay for clerk's salary.
To pay for contingent account..... Total\$12.693 63

Two communications were read from interested persons concerning the floating of bonds for the waterworks, and both stated that the difficulties were the fire in the east slope, which were the fire in the east stope, which timid investors thought might spread to the other pits, and the constant friction between manager and men de-stroyed the credit of the town in the leves of capitalists. Both the objec-tions are really of littile weight. The town is all right and should be readily able to float the bonds if there is a settled determination to accomplish

that purpose.

Jubilee tree planting received quite an impetus and fully 200 trees have been planted during the past two weeks by public spirited citizens, much to the improvement of the town.

MARINE MATTERS.

Mail advices from Great Britain, up to Sth inst., reports the freight market for wood goods as steady and quiet. The following Canadian fixtures are reported: Montreal to London, 1,190 tons net register, cargo, f.o.b. and stowed, £1,469; Montreal to London, 1,631 tons net register, cargo f. o. b. and stowed, £1,900; Quebec to Cardiff, 1,200 net register, 17s. 6d.; St. John, N. B., to Cardiff or Newport, 1,268 tons net register, 40s.; Sheet Harbor to W. C. England or E. C. Ireland, 800 tons net register, 42s. 6d.; St. John to W. C. England, 1,764 tons net register 38s.; Bathurst to Liverpool, 800 tons net register, 43s. 6d.; St. John, N. B., to W. C. England, 1,760 tons net register, about 29s.; Montreal to Manchester, 42s 6d; West Bay to W. C. England, 1,500 tons net register, 40s; St. John, N. B., to Glasgow, 1,700 tons net register, 40s; St. John, N. B., to Bristol Chamnel, 1,788 tons net register, deals, 38s 9d, June.

Str. Gladestry gets 40s. on deals from Grindstone Island to W. C. England.

Str. Whitburn is chartered to carry deals

Str. Gladestry gets 40s. on deals from Grindstone Island to W. C. England.

Str. Whitburn is chartered to carry deals from Miramichi to W. C. England at 42s. 6d.

Bark Sayre is fixed to load deals for Londonderry at 43s. 9d. She will have to receive considerable repairs before leaving port.

Ship Annie E. Wright came into port yes-terday morning, and moored at McLeod's wharf. Her deckload will be discharged, and a survey held to ascertain the extent of her damages
