### COMMUTERS GET PROMISE OF BETTER TRAIN SERVICE

Benferth Outing Association Considered Proposition of L. R. G. at Meeting

suburban trains. The second section contained the following schedule for suburban trains:

Leave St. John—7 a.m., 9 a.m., 12.15 p.m., 5.15 p.m., 6.15 p.m., 6.15 p.m., 10.40 p.m. (On Saturdays a train will leave at 1.15 p.m., 1.30 p.m., 1.15 p.m., 2.20 p.m., 1.15 p.m., 1.20 p.m., 1.15 p.m., 2.20 p.m., 1.15 p

the railway. The only fault found with the schedule of suburban trains was the proposal that No. 9 train which resches St. John at 6.25 a.m. be not allowed to stop at suburban stations. The suburbanites claim that if this train does not stop at any station it will be necessary for those who live along the Kennebeccasis whe may want to travel on the Boston train which leaves St. John at 6.45 a.m., to spend the might in St. John in order to catch the train. This view of the matter is to be brought to the motice of the I. R. C. authorities and an effort made to have the train made available for suburbanites as in the past. The Association also discussed plans for improving Renforth. The building of a pavilion and boathouse will be undertaken in the spring, and additional tennis courts are to be laid out.

In the Far East

Beginn 1912, Gen. von der Beginn 1912, Gen. v

An Encouraging Message

## EAST IN TWO YEARS

German Expert Looks for War

Peace of Portsmouth Cannot Last Much

In the light of the report recently published by M. Glesmer, a member of the industrial delegation in the Russian council of empire, respecting the increase of Japanese armaments, a summary of which was cabled to the New York Sun at the time, an article in the Deutsche Revue by Gen. von der Boeck, one of Germany's most brilliant infantry commanders, possesses, great interest, inasmuch as both authorities believe that peace between Russia and Japan cannot be preserved beyond the close of the year 1912.

It is not Gen. von der Boeck's opinion that any immediate outbreak of hostilities need be feared, but in view of the persistent preparations of both powers he is inclined to think that the peace of Porthsmouth cannot last much longer than another two years.

The troops which Russia possessed in the Far East at the close of the war, he says, have been largely strengthened, so that at the present time they cannot be short of a peace footing of 200,000 men, a force which if war should break out could easily and speedily be raised to 300,000 without drawing a single soldier from European Russia.

Another important fact noted by Gen. von der Boeck is the strengthening of the defences of Vladivostok which has been raised to the rank of a first class fortress. But the weightiest item in the development of Russian power in the Far East, according to this writer, will be the decision to build the Amur railway.

The third Duma, in view of the im-

The third Duma, in view of the importance of this railway, has unhesitatingly devoted the necessary funds. The Russian government's decision to double the track of the Siberian line is a step the gravity of which cannot be over-rated.

step the gravity of which cannot be over-rated.

Japan, freed for the present from maritime cares, is similarly moded in strengthening her position on land. The 13 divisions of her active which war broke out have been raised to 19, so that at the present moment her army on a war footing would consist of 550,000 men and 120,000 horses. And as there is no lack of men in the Mikado's empire. Gen. von der Boack believes that were war to be declared a million Japanese soldiers could take the field within a few weeks.

A most important factor in the altering circumstances is the renaissance of the Chinese military power. Japanese sufftly building up a mighty military I have a message of hope and good cheer, of encouragement and inspiration to every suffering woman. I have endured the torture due to female troubles and the consequent despondency and mental agony almost to the point of despair, and I have been restored from this condition to a state of vigorous health, and to the happy, exhibitanting frame of mind which accompanies physical well being. This change has been brought about wholly by the use of ORANGE LILY.

In addition I have had the privilege and pleasure of inducing multitudes of other suffering women to give ORANGE LILY a trial, and have received thousands of enthusiastic acknowledgments of the blessings it has brought to them. The following is a sample:

Truro, N. S., April 5, 1909.

the Chinese military power. Japanese instructors swarm in Gaina and are swiftly building up a mighty military engine as their ally.

The original plan of the Chinese government was to form 36 divisions, each of 10,000 men and to have this entire love-ready to take the field before the year 1922, but it is perfectly evident from the feports which have fiftered through to Europe that the huge army will be ready by 1912, or ten years earlier than was originally intended. Gen von der Boeck is inclined to believe from the reports of German officers who have recently visited China that in 1912 the Chinese will possess a well equipped army of half a million men, the greater part armed with modern weapons and with a discipline and organization infinitely superior to anything which China has hitherto produced. Gen von der Boeck thinks that Japan's policy of Asia for the Asiatics, with Japan at the head of the coalition of the yellow races, will then be within measurable distance of realization.

He regards the situation as extremely serious and asserts that M. Stolypin, the Russian premier, and Gen. Suchomlinoff, the Minister of War, view it in a most pessimistic light.

### GIRL BRIDE LOST AFTER POLICE RAID

Abducted Mrs. Camelo Morato for Revenge.

Hand also had held Grisconzo Marato, the girl's husband, silent.

Behind the spiriting away of the girl is said to be a raid which was made by the authorities on an Italian resort at West Rye. West Rye is a settlement of some four hundred Italians, in which many of that race, when pushed by the course of events in New York, find a place of rest and safety. When the raid was made two women were taken. They were sent to the Bedford Reformatory. A man who was known as proprietor of the place disappeared after \$1,000 had been deposited as bail.

Word was given that any person

deposited as bail.

Word was given that any person who appeared as a witness against any of the defendants would be visited by the wrath of the Black Hand. The Italians, terrorized, held their tongues and Mrs. John Riccio, on Saturday, overcame the fear that held them silent. They called upon the police to aid them in finding their daughter and voived the belief that she had been spirited to New York, where she was being held captive. Dread of the Black

deposited as bail.

Word was given that any person who appeared as a witness against any of the defendants would be visited by the wrath of the Black Hand. The Italians, terrorized, held their tongues and knew nothing. This reticence has made it impossible to learn just what connection the disappearance of the girl has with the raid. Her parents were reputed to be substantial, quiet persons. Nothing in the record of any of the family can be found to indicate that any other theory than that of forcible abdurction can be applied to engines, a minor part being broken.

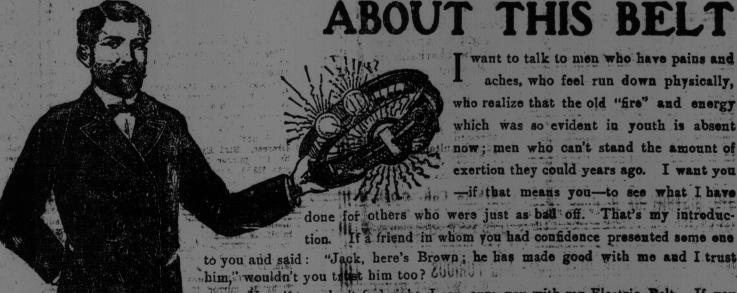

The injury was slight but sufficient to delay the steamer until 8 p. m.

As soon as the liner hove to a tus was summoned and word of the injury sent to Sand Point. Meanwhile the Hesperian dropped anchor off the Island and many who noticed her lying there wondered what was the cause of the delay. The tug Lord Kitchenen was used to convey materials and workmen to the steamer. The Union Foundry of West Side furnished both Repairs were made in a short time and the steamer got under way after a delay of about six hours.

The Hesperian is commanded by Capt. Main. She carried forty-five saloon, fifty-five second class and two hundred third class passengers.

one of the bright and attractive events of the week in a social line was held at the home of W. P. Bonnell, 40. Queen Square. On this occasion the parlors and hall were thrown into one large and elegant banquet hall, which was filled to its utmost capacity with guests assembled to hear the most pouplar lecture on Scotland by Rev. Dr. Campbell. Mr. Malcolm gave a Scotch selection which was most enthusiastically encored, plane and vocal solos by Misses Blederman and Nase.

## WANT TO TALK TO YOU ABOUT THIS BELT

I want to talk to men who have pains and aches, who feel run down physically, who realize that the old "fire" and energy which was so evident in youth is absent stinnow; men who can't stand the amount of exertion they could years ago. I want you if that means you—to see what I have

tion. If a friend in whom you had confidence presented seme one to you and said: "Jack, here's Brown; he has made good with me and I trust him," wouldn't you taket him too? Guille and I trust

Now if you don't feel right, I can cure you with my Electric Belt. If you are full of Rheumatic Pains, I can knock them out. I can pour oil into your joints and limber them up. I have often said that pain and electricity can't live in the same house, and I prove it every day.

Mr. A. S. Mace, Justice of the Peace and Police Magistrate for Kings county, N. B., withes me on Oct. 13th from Norton, N. B., as follows:

"Dear Sir—"Replying to your favor will say that your belt has given me good satisfaction. I might say further that I think mine was a case to help, being troubled with sick headache, and very bad pains in my head and not able to sleep more than half of the night. I am justice to say that after wearing your Belt for a while I slept better, and my sick spells grew longer between. The current generated by the better, was fine and soothing and gave me good satisfaction in a great many ways."

Mr. W. G. F. Frizzell writes from Municipal Home, St. John, N. B., on Nov. 22. Here are his words:

Dear Sir—"I wish to congratulate you on your success, in inventing such a blessing to mankind, as your exertic Belt. I should have written to you about my Belt before. I were it only three weeks, then all the soreness in my back and thigh left me, and my bowels became regular.

"Whing you continued success in your business."

If it were not for the prejudice, due to the great number of fakes in the land, I would not be able to handle the business that would come to me. The "Free Belt" fraud and the "Free Drug" scheme, which are not free at all, have a good thing, and I'll hammer away until you know it.

One thing every man ought to know is this: Your body is a machine. It is run by the steam in your blood and nerves. When you begin to break down in any way you apply out of steam. That's just what I want to give you back.

I have a cure in every town. Yell me where you live and I will give you the name of a man I've oured.

Tell me your trouble, and I will tell you honestly whether I can cure you or not. If I can't cure you I don't want your money. I have been in this business 24 years, and a m the biggest man in it today by long odds, and I am growing yet, because I give every man all he pays for. Now, wouldn't you rather wear my life-giving appliance while you sleep every night, and feel its glowing warmth pouring into you, and feel yourself taking on a new lease of life with such application, than to clog your intestines up with a lot of nauseous drugs? Surely! Try me. Those suffering from Rheumatism, Lame Back, Lumbago, Varico-cele, Nervous Debility, Constipation, Lost Energy, resulting from exposure and excesses in youth and mid die-aged men, write to me. Offer me reasonable security and I will make a Man of you, and you can
