Dorchester, N. B., Jan. 21—At this morning's session of the county council considerable discussion took place between a number of the councillors as to the revising of the Westmorland county bye-laws at this session. Coun. Siddall thought as a good many of the councillors wished to return to their homes as soon as possible that the matter might be left over until the July session. He also raised the point of whether the laws were in force at present. Coun Hickman stated that the bye-laws wer revised in 1901 and were certainly still in force.

The report of the building committees the laws were the state of the building committees.

THE WCMAN'S CORNER

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL (Domestic Science Lectures.)

Basket Weaving

Sensible women are delighted with the latest fad, that of basket weaving, for no home ever contained enough baskets for the many uses they are wanted for daily. So the new craft of hand woven willow ware is welcome indeed. Market baskets, darning baskets, sewing baskets, willow trays and bassinets can be made and tinted most beautifully at home at a very low cost.

Willow is inexpensive and no teacher is needed to show one how to work the straws, or twigs, in and out. If you are not original enough to plan your own weave you will find the stores running over with handmade baskets, willow flower holders and other willow novelties that will serve as models and you can fix their patterns in your mind with a single glance.

When you examine your pattern basket you will notice heavier willow sticks are used to form a spoke shaped base and that the lighter willow is worked around this foundation. All the material you will need can be had from any art store and the only implements you will want are a coarse knitting needle or an awl to punch holes through the heavy willow with and a sheet of emery, paper with which to smooth down the rough spots, or splinters, on the material.

shopping gowns and now there is no more fascinating handicraft than weaving them known.

A sandwich platter is a good thing to make first. Then you can make a similar one, only larger, put a high handle o nit and call it a fruit dish. These last are very fashionable just now and their popularity will be enduring for they are appropriate for any dining or living room.

Don't forget that whole hominy is a delicious and inexpensive and nourishing dish for these cold days.

HOUSEHOLD HINTS.

If potatoes are being cooked for salad, boil them with the skins on. They will be less soggy.

If you want to keep fruit cake moist for a long time, put a piece of bread in the tin box with it.

When winding a skein of wool, try starting the winding on the tag which comes attached to each skein. Then when the ball is used up, you have the tag, giving the maker's name, quality, etc., and there will be no difficulty in finding out where and how to match the wool.

If convenient, the waffle batter may be
