Boycott of S.A. products sought

"Canadians Concerned About South Africa", with special assistance from the UN Special Committee Against Apartheid has put forward four recommended measures of protest; Write to your MPP (or MLA) to support the removal of South African wines from outlets; Write to your MP to support total isolation of South Africa through sanctions; Boycott all South African products and tell your friends to do the same. Join an anti-apartheid organization in your area.

The 'Apartheid Products For Sale in Canada' list has been prepared by this group. For further information concerning this issue, contact:

Canadians Concerned About South Africa (Toronto)
