EUCOZONE LABORATORIES, INC.

429 WAYNE STREET
DETROIT • MICHIGAN

September 12th 1938

Dear Mr. Meighen:-

You may perhaps remember the writer from his former association as General Insurance Counsel of the Brotherhood of Locomotive Engineers at Cleveland. We had in hand, at one time, the formation of a Canadian Corporation for the writing of automobile insurance for its members.

I am associated with a gentleman, an estimable gentleman, who is domiciled in Windsor and who is heading a corporation for the distribution, in addition to the manufacturing of medicinal preparations. His Company has had a series of unfortunate experiences in the financing in final form of its organization. In my talk with him today he expressed the hope that we might be able to reach a solution of the problem at the earliest practicable date. I, in turn, expressed the opinion that perhaps you and the Canadian General Securities might be able to be of assistance. At his suggestion I am writing to inquire if we may presume to have some of your time at the earliest possible moment for a discussion relative to the matter, and, I hope, to the mutual profit of all of us.

Will you be good enough to advise me when you might be able to see us at your office in Toronto, and with kind personal regards and best wishes, I am,

Yours very truly,

Howard F. Evans.

Rt. Hon. Arthur Meighen,
National Building,
Toronto, Canada.
