Mr. L. L. L. Golden,
London Terrace,
410 West 24th Street,
New York, N. Y.

Dear Lou:

I am very grateful to you for sending me the article out of "Life." This, coming from Mr. Attlee, superimposed on an even more emphatic statement by Mr. Churchill, would seem to close the book on the powers of the King in dissolution, and the need of such powers. I am certainly sending it to Eugene Forsey and He will appreciate having it.

The Government set about to get rid of "Royal" and "Dominion" but did so with very little consideration--indeed, it might be said, after no serious thinking at all.

Eugene will be getting out something in the nature of a pamphlet on the subject and I will ask him to send you a copy when it comes. It will be just what you want. St. Laurent has been backtracking lately.

Yours sincerely,

AM/E.
