If your Indigestion has turned to Dyspepsia and become chronic that is no reason you should despair. Others just as bad as you have been cured by Dodd's Dyspepsia Tablets, Take the case of Mrs. James Bradley, of Smith's Cove, Digby Co., N. S. Here's what she says about it hereself:

here's what she says about it hersolf:

"I had Dyspepsia for nine years. I
tried the best doctors in the place
and never found relief. I had to
sturve myself from eating. No
tongue can tell what I suffered.

"I bought six boxes of Dodd's Dyspepsia Tablets and six boxes of Dodd's
Kidney Pills, and before I had finished taking them I could eat most
anything and sleep comfortably."

There is no need to comment on a
statement like this, It's true. What

The Buildog's Ness.
Froude told Dr. Boyd an interesting little anecdote of an Oxford under graduate who was asked in an examination in Paley's "Evidence" if he could mention a solitary instance of the divine goodness which he had discovered for himself. "Yes," he replied, "the conformation of the nose of the buildog. Its nose is so retracted that it can hang on to the bull and yet breathe freely. But for this it would soon have

Bood does you no good. You can't digest—consequently you're afraid to est; tongue is coated, mouth tastes and stomach is bloated. Pretty soon sa'll be overcome by weakness and sous prostration.

The prescription for your condition is Dr. Hamilton's Pills of Mandacke and Butternut. For dyspepsia and indigestion it is doubtful if a better remedy will ever be devised. Phose pills bring new strength and ritality to the stomach and digestive.

These pills bring new strength and vitality to the stomach and digestive organs; they build up the general health and instill such vim and resisting power into the system that sickness is impossible; try Dr. Hamilton's Pills.

The ideal.

It is in making encless additions to self, in the encless expansion of its powers, is encless growth in wisdom and beauty, that the spirit of the human race finds its ideal. To reach this ideal entrys to a reduce the ideal culture is an indispensable aid, and that is the true value of culture.

CHARMING FEMINITY.

Famous beauties pay particular attention to the purity of their blood, knowing that autritious blood means soft, delicate ekin, bright eyes and enduring nerves. Those whose lucks are so delightful, use Ferrozone, fecause it's the exact food needed to tone and stimulate the blood. What a splendid type of tireless activity is the sun as the psalmist describes it issuing like "a bridegroom from his chamber and rejoicing like as a mag man to ran a race." Every, man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely this is so, Most brople rise still currefreshed, and dreading the strain of the day's labors. The cause of this is deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Flerce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation as it contains no alcohol, whiskey or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.

RECORD OF A LIFE-SAVER. Late Charles Nurse of Toronto Said to Have Averaged One Rescue a

Vear For Forty Years.

Charles Nurse, life-saver and 36 years age ene of Canada's most prominent athletes, died the other day at his hotel, Humber Bay, Toronto, 50 rupture of the muscles of the heart, which commenced to bother him one day when he went to the assistance of a man named Morrison and a team of horses. The team was hauling sand, and it got into the river just near the bridge. Nurse ran across the bridge with a heavy coll of rope, when he was attacked with very sever pains. At the beginning of December, he was sent to the hospital, where he stayed till the middle of February. He was around for a week or two, and then had to take to his bed again. He has been sinking for the past three weeks. There are probably a score or more of people living in the vicinity of Toronte now who owe their lives to the ability of Charles Nurse as a life-saver. During the 40 years Mr. Nurse has been resident at the Humber he has been the here of many thrilling adventures in the uncertain waters of Humber Bay, and has averted many tragedies. His friends estimate that he has saved on an average one life a year. He used to say he couldn't understand the foolbardiness of some of the Humber Bay pleasure-seekers, and he could spot people who seemed to be going to get into trouble. It was the good fortune of many that his watchful eye had been working.

Mr. Nurse was an eyewitness of several tragedies, and has recovered many bodies. His services were always sought after a drowning accident in Year For Forty Years.

several tragedies, and has recovered many bodies. His services were always sought after a drowning accident in the Humber vicinity, and if he could not find the body on the unfortunate no one could.

not find the body on the unfortunate neone could.

Although many of Mr. Nurse's acts
of valor were unrecognized, he has
many valuable mementoes from people he rescued. For years he has
proudly carried a handsome gold watch
which was presented to him by Dr.
Ellis and Barristers Delamere and
Black, whom he rescued during a gale
seon after he was established at the
Humber. Mr. Nurse also has the Royal
Humane Society medal and a bronse
medal for life-saving, which was presented to him by Lord Dufferin. sented to him by Lord Dufferin.

Among Mr. Nurse's valued presents

Among Mr. Nurse's valued presents is a watch charm, which he has worn for many years. It was presented to him in gratitude by William Fitzgerald and R. Crothers, for his gallant services to them at the great Humber disaster 20 years are, when by a collision of a freight and passenger train 50 flyes, were liest. The services rendered by Mr. Nurse in this lamentable disaster in assisting the injured out of the burning carriages, and alleviating their suffering was highly complimented.

out of the burning carriages and alleviating their suffering was highly compilmented.

Referring to the Humber diaaster, will Fitzgerald said: "Charley Nurse was the only cool man there that morning."

Charles Nurse was horn in Maidstone, Kent, in 1842, so he was 68 years of age. In the old country he was a toolmaker, and was an athlete of some prominence. From his home he went to Brighton, where he received a nautical training that has been of great service to him and of benefit to many ethers when they were in perfit in Toronte waters. He lived in Brighton for eight waters, He lived in Brighton for eight years, during which time he got special recognition from the Royal Humans Society for demonstrating, the mans Society for demonstrating. The mans Society for demonstrating the mans Society for demonstrating. The mans of the saving life from drowning. This was in a contest open te all comers. A dummy man of about 160 pounds weight was provided. A strong ring made of ladis rubbers was tightly sewn on to the body of the dummy and the ring was attached to a hoop in a place of iron of sufficient weight to sink the dummy man, had to unhook it from the fron, otherwise, even if he brought if to the sufface, he could not hold it, the additional weight of the tron attached making the whole preternaturally heavy. The start was made from the short from which there was a swins of about 50 yards to where the dummy was moored; it then had to be dived for and brought to the sufface, and swam with to a buoy 75 yards distant, on which the swimmer the was to land it. Nurse saelly ontclass:

the dummy was moored; it then had to be dived for and brought to the surface, and swam with te a buoy 75 yards distant, on which the swimmer was to land it. Nurse saeily outclass, ed all other competitors, which included several old country experts, among them being Prof. Cavill, who had accomplished the feat of swimming the English Channel. From the start to the time of bringing the dummy to the surface, after the first dive, only occupied two minutes, and Nurse then carried the dummy to the landing buoy in 3 minutes and 25 seconds.

The winning of this recognition from the Royal Humane Society is considered a high honor to any natator.

For four years Nurse held the championship for swimming and diving in Brighton.

Mr. Nurse became expert as a foot runner before he came to Canada in 1871. In all his foot races from one to ten miles he was eminently successful. He defeated the running celebrities of the day with ease. In 1873 on the College street crickets rounds hadefeated the famed indian runner Kerronawa in distance of one, two and four miles. He was a popular athlete and in addition to his running prowess acquired a Colonial reputation as an expert diver, swimmer and carsman. Many indeed are his trophies, including several handsome pleces of sliverware won in England and many medals won in Canada.

Post Detroit's Surrender.

Two old letters written by Gen. William Hull of the United States Army in the war of 1812, before the surrender of the post of Detroit, have come into the possession of C. M. Burton, of Detroit, a collector of antique letters and documents. They are said to contain preliminary offers from Gen. Hull to surrender the post. If has been supposed that Gen. Hull's surrender only followed Gen. Brodk's 'show of force and demand for surrender. The letters were found in To.onte among a beap of ancient papers. At the courtmartial of Gen. Hull following his surrender of Detroit it was inflimated. Mr. Burton, says, that such letter existed but they were not produced.

TO STUP A CRYING BABY.

Babies cry because they are sick. It may be a pain in the stomach, collic, or oramps,—but in any case a few drops of Nerviline soothes away the distress and allows the baby to sleep peacefully. Where there are young children there should also be Nerviline. It cures all the minor allments just as promptly as the doctor and not so expensive. For nearly fifty years Polson's Nerviline has been the great household remedy of Canada. Sold everywhere in large 25 cent bottles.

Dirty Washing.

Natives of Morocco think that Europeans and Americans are dirty. The habit to which they object is that of washing the hands or face in a basin and, still more, taking a bath where the water is not running. The cleaner the bather becomes, they say, the dirtier the water he is washing with must necessarily become. And eventually the bather steps forth as cleaned from water which is no longer clean.

traordinary Changes in the Vatican's Foreign Relations.

can's Foreign Relations.

Plus X. has brought about such extraordinary and radical changes in the domestic and foreign policy of the Vatican since his accession to the papal throne that there is plenty of good ground for attaching importance to the report new current, both at Rome and at Vicino, to the effect that the Pontiff has intimated to Emperor Francis Joseph and to other Catholic sovereigns that they may come to Rome and visit the quirinal without any danger of finding the gates of the Vatican closed in their faces, writes Marcuise de Fontency. Pius IX., after the loss of his temporal power, and Leo XIII. throughout his entire reign declared that while they were quite ready to receive the visits of any non-Catholic sovereigns or royal personages they would not countenance any Catholic monarchs or princes or princesses of the blood holding communication with the royal family of Italy at Rome, that these illustrious personages must choose between the head of the church and the King of Italy, and that if they crossed the threshold of the quirinal during their stay in the Eternal city not only would the doors of the Vatican be closed in their faces but papal nunclos would be withdrawn from their courts.

It is for this reason that Emperor Francis Joseph has until now been prevented from returning at Rome to the King and Queen of Italy the visit paid to the court of Vienna in 1873 by the late Victor Emmanuel I., and nine years later by King Humbert and Queen Margherita, a delay which has foroundly affronted the Italian people and the Italian Government. It was for this reason, too, that the King of Portugal, devoted as he was to his uncle, King Humbert, was debarred from attending either his silver wedding or his funeral, and why the Italian court, in eac word, has been boycotted by all foreign reigning houses professing the Catholic faith.

Pius X. has been sagacious nough to realize that this policy was not only

the Catholic faith.

Deceased Wife's Sister Muddles.

Our refusal to recognize marriage with a deceased wife's sister—which is legal in the Australian commonwealth—has led to many complications in the inheritance of property, and very embarrassing social incidents have happened. One of the most unpleasant occurred during the reign of the late Queen Arrangements had been made by the Colonial-Office for the presentation of an Australian cabinet minister and his wife at court, but when it was found that the lady was a deceased wife's sister the proposed presentation was promptly overwiled. Such an episode is not likely to he repeated, for King Edward when Frince of Wales voted in the House of Lords for the legalization of marriage with a deceased wife's sister—London Caronicle.
