Dominion Cattle Breeders Convene

How to increase the sale of Ontar-io pure-bred stock, in the West, was the chief point discussed at the annual meeting of the Dominion Cattle Breed-ers' Association. in Toronto last week. Three ways were suggested by the executive, and put before the meeting for consideration. These meeting for consideration.

1. The advantage of having adver-1. The advantage of naving advertisements in agricultural and the larger provincial papers in the West, 2. To arrange for a prominent reprepresentative in the West to act as a commercial agent representing Ontagion.

To arrange for a carload of On-3. To arrange for a carload of Ontario stock, including horses, cattle, sheep and swine, to be placed on exhibition next summer at as many fairs as possible throughout the West, including, of course, the Dominion Exhibition at Calçary, in July.

These suggestions created considerable discussion, a motion being put finally that the first two suggestions be struck out, the third left for the consideration of the executive.

Several speakers opposed the first two suggestions. Mr. Robert Miller of Stouffville, felt that by advertising in Western papers, or having a rep-

of Stouliville, telt that by advertising in Western papers, or having a representative there, the Eastern breed-rs would be encroaching upon the triritory of the Western men. Ontario breeders, in order to get business in the less, should do so by the said that the standard of the best of the said Mr. Miller, "although composed almost entirely of Ontario breeders, is known as a national organization." known as a national organization and, consequently, the moneys of and, consequently, the moneys of that association should not be used in the interests of Ontario breeders and more than in the interests of the breeders from the other provinces. Mr. A. W. Smith, of Maple Lodge, and Mr. R. H. Harding, Thorndale, spoke along the same lines.

REPORT OF THE EXECUTIVE

According to the report of the exretary, Mr. A. P. Westervelt, two long palace cars and two short cars of palace cars and two short cars of pure bred stock, were sent to the West during 1907. This stock was collect-ed in Ontario, and was composed of 31 horses, 43 cattle, (10 of which were Shorthorns,) 15 sheep and 35

Statistics were given, showing the present status of the Provincial Winter Fair. In 1904, this fair had an exhibit of 120 animals. This number has decreased annually until last year the total exhibit of beef cattle was only 75. The exhibit of dairy cattle remained practically the same, there being 35 last year as compared with remained pros-being 35 last year as compared 33 in 1904, 42 in 1905, and 41 in 1906. At the Western Onario Stock and Poultry Show last ye-beef cattle were exhibited. Sin dred and rinety-sine dollars we fered in prizes, of which 8615 apaid. In dairy cattle, the appropria-tion was 850. Sixteen animals were tion was \$550. Sixteen animals were shown, and \$105 in prizes paid. The receipts of the association for the year ending December 31, 1907, are \$811.43, and the expenditure \$224.54, leaving a balance on hand of \$268.69. Mr. R. J. Mackie, of Oshawa, in discussing the Winter Fair problem, suggested that separate classes be discussing the Winter Fair problem, suggested that separate classes be made for Hereford and Aberdeen An-Aus, believing that were such done, the entries in each of these would be larger. This was endorsed by Mr. of the control of t

at the Guelph Winter Fair, in or-der to induce greater competition. He said that some counties had guaran-teed to put up prizes. Wellington was doing it now. Such would increase competition, and also help the

The matter of putting up an ama-teur class was also discussed, it be-ing moved that the matter of consider-ing the advantage of adding ama-teur classes at the Winter Fair be re-ferred to the Winter Fair Board. A motion was made also, opposing the extension of the National Exhibition.

THE WINTER FAIR

THE WINTER FAIR

In speaking of the Winter Fair at Guelph, Mr. Lloyd Jones, of Burford, referred to the great increase in interest and exhibits at the fair during the past few years. He intimated that it was time that something was done to improve the show. The cutty fee, he claimed, was too large and the prizes were too small to induce men to exhibit. Furthermore, the lack of accommodation in the duce men to exhibit. Furthermore, the lack of accommodation in the show building, and in the city of Guelph, was a great hindrance to the development of the fair. The the development of the fair. The matter of moving the show was under consideration by the press, and as this was a very important matter, he thought that it should be thor-oughly discused. Nothing further was done in the matter, however.

On the recommendation of the executive committee, the following reportsentatives to the fair boards were accepted: Ontario Agricultural College, G. C. Creelman, and G. E. Day; Teronto, John Gardhouse; Ottawa, Peter Christie, M. P., Manchester Ont., and Robert Ness, Howick, Que.; Provincial Winter Fair, John Bright, Mytle, Ont., W. Ballantyne, Stratford, R. S. Stephenson, Ancaster, and Arrbur Johnson, Greenwood; Eastern Ontario Live Stock and Poultry Show, J. H. Grisdale, Ottawa, Peter White, Pembroke, W. F. Stephen, Huntingdon, Que., and John Gardhouse, Weston. On the recommendation of the ex-

Annual Meeting of Sheep Breeders.

The annual meeting of the Domin-ion Sheep Breeders' Association was held in Toronto on Feb. 4. A most enthusiastic audience of about 75 enthusiastic audience of about 75 members, was present, including several besides from the North West provinces. The president, Mr. John Campbell, of Woodwille, gave a very pointed and timely address, referring to the marked prosperity that had accompanied the intelligent breeding of sheep, especially in Ontario. He stated that in Ontario, the work of the control of the control

vernment assistance that some asciations are receiving, and the mount that the sheep breeders are getting. They are not even getting good protection against dogs.

The importance of encouraging The importance of encouraging trade between Ontario and the West, was suggested by the executive in their report. This drew out a lively discussion from the Western members, who felt that such would be pitting Ontario breeders' interests against those of the Western breeders.

ers.

The nationalization of sheep cords promises to be a considerable source of revenue for the asociation. The pedigrees recorded since the y Mr 1 he pedigrees recorded since the sug-ted sat tawa, in 1906, are 5,865. This has acclass, swollen the revenue of the associa-d out tion by \$1,234.05. The total receipts he was are \$4,965.11; expenditures, \$400.510, ut was leaving a balance on hand of was \$4,497.52.
