Business Education

Not long ago, the Principal of an Agricultural College in an address, advised every farmer's son to spend a winter at a Business College, recognizing the fact that one of the elements of success in farming is the capacity of the farmer to keep a proper set of accounts.

Farmers, send your sons and daughters to us and we will give them a thorough business training that will be of inestimable value to them through life. The cost is small, and it will be money well spent. Many of our most successful graduates are boys and girls from the farm.

Our school deserves your support and patronage because it has the most complete equipment, is the oldest and most reliable, uses the most up-to-date books and methods, employs the best teachers and obtains the best results. Write for catalogue and receive also Journal of Business Education. Fall Term from September 3rd. Enter any time.
