NEW AMERICAN WITH BEAN HARVESTER ATTACHMENT.

The Bean Harvester is an attachment which is easily put on to the New American Harrow and Cultivator after removing the sections. It pulls two rows of beans at once, leaving them in a perfect windrow, and harvesting from 18 to 18 acres in a day. This machine is indispensable to bean-growers, and is highly recommended by all who have seen it. As a harrow its work is perfect; the teeth have reversible points and can be locked down or allowed to float. It also has special points made expressly for killing thistles. As a cultivator the New American has no equal; it cultivates perfectly all crops planted in rows, and with the Extension Arms two rows of beans can be cultivated at once. We sell the New American, either as a harrow or bean harvester. If you have one of the machines you can obtain the attachments for making the other at a small expense.

can be Locked in any Desired Position.

E. F. CLARKE, PRESIDENT and MANAGING-DIRECTOR. AGENTS WANTED. 16-o

CHAMPION EVAPORATOR

For MAPLE, SORGHUM, CIDER, and FRUIT JELLIES. Has a corrugated gas over firebox, doubling boiling capacity; small interchangeable syrup pans (connected by siphons), easily handled for cleaning and storing; and a perfect automatic regulator. The Champion is as great an improvement over the Cook pan as the latter was over the old iron kettle hung on a fence rail. Catalogue Free.
