

Dain Hay Tools Cut the Cost of Hay-making by One-half.

THERE'S money in Hay—if it does not cost too much to make it. The Dain Implements cut the cost of Hay-making to the lowest possible margin, because they are perfect in every detail. More than that they are built to endure—the farmers owning them declare that they are practically indestructible. It will pay you well to know all there is to know about *Dain Hay-making Helpers* before investing a dollar in any hay-making implement.

Here's the *Dain Vertical Lift Mower*—a machine that you couldn't smash under any sort of service. Before leaving our factories every *Dain mower* is subjected to a tremendous test—a test that would make a scrap iron of any ordinary implement. There's no lost motion about the Dain—the moment the horses move the knife begins cutting. The machine is built with surplus strength in every part, and so perfectly balanced that the draft is easy. Yet, we so build the Dain Mower that—in the rare event of an accident—an inexpensive part effects prompt repairs.

The *Dain All Steel Side Delivery Rake* is in a class by itself. Its triple set of teeth, turning slowly, put the hay in shape for curing without injuring leaves or stalks. It delivers the hay gently into a loose, fluffy, continuous windrow, so that the air and sun penetrate—it cures quickly and retains its full nutriment. Simply constructed and almost *break-proof*.

The *Dain Steel Frame Roller Bearing Loader* has always been considered the best and easiest loading machine on the market. Besides the many exclusive features which have made the Dain famous our new *Loader* is equipped with four sets of Roller Bearings, which decrease the draft to a minimum. But, get the details, they'll please you, and it will pay you to have them. Study the *Dain Line* before you outfit yourself with hay-making implements. You'll have better machinery and more money in the bank if you do so. Dain Implements are built to endure and to reduce friction—they are specially designed for simplicity, strength and money-making service.

N. B.—Write to-day and ask us to forward you complete details of any or all of the DAIN money-saving and money-making implements. Besides the implements mentioned, we manufacture the Success Roller, Bearing Manure Spreader, Hay Presses, Ensilage Cutters, etc.; and

"EVERY DAIN IS THE LEADER OF ITS KIND."

"Baker" Wind Engines

Are built for hard, steady work, and keep at it year in and year out.

It is the reputation which "BAKER" Wind Engines have fairly won and steadily held ever since their first appearance on the market, 30 years ago, that should be considered. They are famous for their durability, simplicity of construction and easy running. "BAKER" Wind Engines are so designed that the gears cannot wear out of mesh. The wheel is built on a hub revolved on a long stationary steel spindle, requiring no babbiting. It has a large number of small sails which develop the full power of the wind and enable them to pump in the lightest breeze. Has ball-bearing turn-table and self-aligning gears, and all the working parts are covered with a special oil, protecting same from ice and snow. The sails are made of a few of the many features that make the "BAKER" Mills in the lead. Let the High Quality of your complete information, write to-day for a copy of our literature. We manufacture all kinds of Galvanized Steel and Iron Pumps, Sprinkler Systems, Sprays, etc. Write to-day for a copy of our literature.

Write today for descriptive literature with full particulars.

GILSON MFG. CO., Ltd.
211 York Street
Toronto, Ontario

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him.

His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

WILSON'S FLY PADS

persistently, this peril will be tremendously reduced.

"Go North Young Man!"

WHY?

Because there are millions of acres of agricultural land in Northern Ontario in some cases free, and in others at 50 cents per acre, excelling in richness any other part of Canada, blessing and waiting to bless the strong, willing settler, especially the man of some capital.
