**Stick Out YOUR TONGUE!**

What for? Because it may save your life! How? It is the barometer that indicates the state of your health by its shape, coatings and colors. For example? Well, a pointed tongue indicates irritation and disorder in the stomach and bowels. The full broad tongue shows want of proper digestive action. The dry, pinched tongue is the tongue of acute disease. The fissure tongue proves inflammatory action of the kidneys. A dry tongue is evidence that the stomach and intestines cannot do much digestive work. Coating of the tongue is the result of immoderate eating and drinking. The Liver is deranged. The broad, pallid tongue shows a want of alkaline elements in the blood. It is a danger signal. The deep red tongue, generally dry, shows acid. Dryness always indicates nervousness, and diseases of the nerve centres. Extreme moisture shows the reverse. Be your own doctor. Examine your tongue. It will show you whether or not you are in condition to stand spring weather changes. If you are not almost any disease may strike you down. Get in condition at once by using the latest and best spring medicine

Spasms Lasted for Hours at a Time—Left Great Aching and Soreness—Dr. Chase's Kidney-Liver Pills Proved His Deliverer.

I was for over six months troubled with very sharp pains in the region of my kidneys, the spasms lasted for half an hour at a time, and left me with great aching, soreness and pain. I tried many remedies, but they did me no good. I commenced taking Dr. Chase's Kidney-Liver Pills according to directions. I had not much faith that they would cure me, but after taking one box I noticed a change for the better. It may seem incredible, but after taking the second box the pains all left me entirely, and I have not had them since.—Amos Carter, Melbourne.
