WILL TAFT EMBARK ON A
TARIFF WAR WITH CANADA

He Finds Dominion Discriminates
Against United States He Will Apply
Maximum Tariff—How About Prefer-
ence?—Tariff Board at Work—Presi-
dent Friendly

WASHINGTON, D. C., Nov. 15.—
It is stated today on high authority
that President Taft, who has just re-
turned to the White House after a
tour lasting many weeks, has not given
the slightest consideration to the
question whether he will apply the
maximum tariff to Canadian goods
coming into this country.

Not only has the President not been
able to take up this question yet, but
he will not do so at all until the tar-
iff board recently appointed by him
reports to him the facts in connection
with Canada's treatment of American
goods going into that country. The
President will depend entirely upon
this board for the facts upon which
to act in issuing executive orders
dealing with the application of the
maximum and minimum features of
the Payne tariff law.

It is known today that the Cana-
dian problem is the first that will be
taken up by the board, which is just
now settling down to real work. It is
claimed that Canada discriminates

against America products in favor of
other countries, and if this can be
shown to be true President Taft will
probably apply the maximum tariff.
If it is not true, or if the discrimina-
tion is one that can be avoided, he
will give to Canada the same privi-
leges as are enjoyed by other countries
that against American products in
favor of question, of course, arisen
whether Canada's preferential tariff
in Britain's favor is to be classed as
a discrimination against the United
States.

The board already has agents in the
field digging into the data that will go
before the President at the proper
time.

As the maximum and minimum sec-
tions of the law are not effective un-
til next March the board will have
plenty of time in which to act, and it
will not be necessary for the Presi-
dent to do anything before that time.
Personally the President feels most
friendly to Canada and her people.

WASHINGTON, D. C., Nov. 15.—
The speech of Count von Bernstorff,
German Ambassador to the United States,
made at Philadelphia on November 6,
in which he said that Germany is not
seeking land in her world policy, is by
no means received with unqualified
approval in Germany. The German
Nachtlichter devotes a page
editorial to condemnation of the Am-
bassador's speech. The article de-
clared that it seems to be the mis-
sion of the German Ambassador at
Washington to explain to the United States
the German policy, but on the con-
trary that Germany knows no
higher aim than to inspire fear and
awe and give every satisfaction to the
Yanks.

Such a policy, the paper says, has
been followed toward the United States
since Prince Bismarck's dismissal as
Chancellor by Emperor William, and
Count Bernstorff follows in the foot-
steps of the late Baron von Stern-
berg as a talking Ambassador.

"We do not believe," says the Nach-
richten, "that this sort of self-abasement
further German interests. It is espe-
cially before the Americans and
English. We shall do much better if

we refrain entirely from flatter-
ing foreigners and instead defend our
interests with the utmost energy, and
if necessary, regardless of conse-
quences. It is better that we should
be feared abroad than have it be-
lieved that we are going about beg-
ging people to be good to us. It is
true that this is not the modern ten-
dency of politics, but it has an ad-
vantage; it has been tested and found
to hold good in the past."

The Nachrichten is especially severe
in its comments on Count von Bern-
storff's "disavowal before the Monro-
e Doctrine." It recalls Prince Bis-
marck's qualification of the doctrine
as "most incredible American impertin-
ence and insolence." No German states-
man ought ever to be allowed to ac-
knowledge the Monroe Doctrine in a
public speech on American soil. But
that is just what Count von Bernstorff
did when he said that the Germans are
well aware of the Monroe Doctrine
position and did not in the least wish
for territory in the Western Hemis-
phere.

Why this superfluous assurance
and recognition of the Monroe Doc-
trine which it implies? If irresponsi-
ble papers talk about German inten-
tions in Brazil because the German
element happens to be strongly rep-
resented there, that is no good reason
why the German Ambassador should
make obeisance to the Monroe Doc-
trine and solemnly declare that Ger-
many would not violate it for the world.

Cured by Lydia E. Pinkham's
Vegetable Compound

Canifton, Ont.—"I had been a great
sufferer for five years. One doctor
told me it was ulcers of the uterus,
and another told me it was a fibroid
tumor. No one
knew what I suf-
fered. I would
always be worse
at certain periods,
and never was
regular, and the
bearing-down
pains were terrible.
I was very ill in
bed, and the doctor
told me I would
have to have an
operation, and
that I might die
during the operation. I wrote to my
sister about it and she advised me to
take Lydia E. Pinkham's Vegetable
Compound. Through personal expe-
rience I have found it the best medi-
cine in the world for female troubles,
for it has cured me, and I did not have
to have the operation after all. The
Compound also helped me while pass-
ing through Change of Life."—Mrs.
LETTIE BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Com-
pound, made from roots and herbs,
has proved to be the most successful
remedy for curing the worst forms of
female ills, including displacements,
inflammation, fibroid tumors, irregu-
larities, periodic pains, backache, bear-
ing-down feeling, dizziness, indiges-
tion, and nervous prostration. It costs
but a trifle to try it, and the result has
been worth millions to suffering women.

MAKING TESTS
IN SECRET NOW

German Empire
Aerial Mad

HAS CONQUERED AIR

Manoeuvres to Determine the
Value of Aeroplanes in
Warfare

BERLIN, Nov. 15.—Most important
results are anticipated by military
experts from the ship maneuvers
which are now being carried out in
Germany with the utmost secrecy.

All results of the experiments in
aerial wireless telegraphy, ship
chasing, attacks by night and bomb
dropping will be kept a profound secret,
for Germany does not desire
other nations to reap the fruit of her
labors.

The announcement made that the
floating balloons shot at Friedrichshafen,
which has for long been the home
of the Zeppelin airships, has been
sold is also full significance to
those who are following the rapid
advance of Germany in aerial navigation.

When Count Zeppelin constructed
his first airships difficulty was experi-
enced in landing, and he built a bal-
loon shed on the lake, so that the air-
ships might descend on water and
thus avoid the shock of contact with
the earth. Two years' experience has
enabled him to overcome the difficulty
of landing, and his balloons now come
to ground as gracefully as birds.

Improvements of equal importance
have been carried out with regard
to the Gross and Farnes types. Ger-
many has, in fact, conquered the air,
and every new airship built is better
than the last.

But she is not content with her
magnificent fleet of aerial cruisers,
and she is straining every nerve to
keep ahead of other nations with re-
gard to the use of aeroplanes for war.
The Wright machine now in Berlin is the
property of the German War Office, and
before the American aviator left Ber-
lin he had taught representatives of
the German army aerial corps the
secrets of its management.

The whole nation is enthusiastic
over all that pertains to aerial naviga-
tion, and money can be had for the
asking. It is better that we should
be feared abroad than have it be-
lieved that we are going about beg-
ging people to be good to us. It is
true that this is not the modern ten-
dency of politics, but it has an ad-
vantage; it has been tested and found
to hold good in the past."

The Nachrichten is especially severe

MAKE PROPOSAL
FOR DRY DOCK
AT THIS PORT

British Syndicate Said to
Have Selected Part-
ridge Island

Mr. Robertson Says Its
a Scheme to Get Rid
of Imperial Co'y

Not a Fair Deal—Dock
for Levis a Certainty

Now

LONDON, Nov. 15.—Arrangements
have just been completed here for the
erection of a dry dock at Levis. The
interests involved are the Canadian
Pacific, the Allan, Harland and
Wolff, the Belfast shipbuilders; Sir
Charles MacLaren, representing John
Burs Company of Sheffield; Davis, of
Levis, who conducted the present
salvage and dry dock business there,
and the McArthur Perkins Company, of
Canada.

The same interests have made a de-
finitive proposal to the Canadian Gov-
ernment which they expect will be
accepted for a dry dock in St. John.
The contractors have decided not to
erect this dry dock at the Canadian
Pacific wharf in St. John, but some-
where around Partidge Island.

OTTAWA, Ont., Nov. 15.—New pro-
posals in regard to a scheme for a
dry dock at St. John have been re-
ceived by the government, and so far
as can be ascertained from authori-
tative sources here there has been no
change in the situation since the re-
quest for a four per cent. subsidy for
twenty years was turned down.

The reading, president of Impe-
rial Dry Dock Company, when in-
formed last evening of the contents of
the above despatch, stated that there
was evidently an attempt on the part
of the promoters of the new dry dock
scheme to get clear of the Imperial
Dry Dock Company.

"I do not think that such an action
is fair to the Imperial Dry Dock Com-
pany," said Mr. Robertson. "We have
done all the work in connection with
the matter and have all the necessary
information as well as certain assur-
ances from the government of the
province. We should be given an op-
portunity to tender for the work. If
the new company is ignoring the Im-
perial Dry Dock Company, I do not be-
lieve that the government of Canada
will enter into a contract for the con-
struction of a dry dock without giving
us a chance to tender."

When asked concerning the suitabil-
ity of the Partidge Island site, men-
tioned above, Mr. Robertson said that
in his opinion it was not a desirable
place, his company, had declared
against Partidge Island as a site for
a dry dock, on the ground that it was
extremely vulnerable to an attack
from sea besides having tidal and cli-
matic disadvantages.

DOUBLE MURDER HAS
A WEDDING SEQUEL

Widow of Victim Refused to Marry Until
Assassin Was Dead—Romance
Born in Italy.

MIDDLETOWN, N. Y., Nov. 15.—A
romance has grown out of the double
murder of Vincent Manginelli and his
wife, which took place in the city of
Naples, Italy, for which John Bar-
buto was sentenced today to the elec-
tric chair by the court of appeals.

Mrs. Maddalena Finisio, the wife of one
of the murdered men, is the daughter
of well-to-do parents residing near
Naples. Her parents desired her to
marry Vincenzo Manginelli, the son
of a neighbor, but she refused and mar-
ried Gastasio Finisio and came to Am-
erica last January.

On the day following her arrival in
this country with her husband and
cousin, the party was lured to the out-
skirts of this city, the two men were
murdered and the bride of two weeks
was terribly ill treated.

After having been refused by Madal-
ena, Vincenzo Manginelli left Italy and
came to America, securing employment
at Garfield, N. J. He did not know that
Madalena was in the country until he
read in the newspapers that her hus-
band and cousin had been murdered,
and that she had been held a prisoner
by the murderers. Then he left Gar-
field and came to Middletown and of-
fered himself to Madalena. She refused,
saying she would devote her life to the
search for the murderers of her hus-
band.

When John Barbuto was captured in
New York last April, he pleaded guilty
and pleaded with Madalena to marry
him. She said she would not until the
man who had so ill treated her was
dead. Madalena was the principal wit-
ness at the murder trial and her sister
was constantly at her side. Manginelli
looked after her comfort and to-
day, when the news came that the
court of appeals had sentenced Barbu-
to to die the first week in Janu-
ary, Madalena agreed to marry Man-
ginelli.

The two went to Garfield today, where
the wedding will take place on Mon-
day next. Consent of the parents of
both has been secured from Italy, and
they will go there on their wedding
trip.

OLD PEOPLE SUFFER
TORTURES WITH THEIR BACKS

Here is a Case in Point

Of course you know a dull ache or
sharp pains in the back come from
sick kidneys. Old age expects its pen-
alty. The kidneys become weak or
strained through the hard work of a
lifetime. Plasters, ointments and lin-
iments only ease the pain—they can't
reach the kidneys as soon as the ef-
fects of such remedies wear off.

West Fort William Nov. 7th, 1908.
Back for the past twenty years and
have used plasters and ointment with-
out effect. At last I tried Gl'n Pills,
which proved just the thing, and I
pain returns worse than ever because
the kidneys are worse.

"I have been troubled with a lame
would highly recommend them to any-
one who has Strained or Lame Back."

Gl'n Pills, you see, act directly on the
kidneys—relieving the pain—giving
them new strength—and neutralizing
Uric Acid, which is generally formed
when there is kidney trouble.

Try Gl'n Pills, yourself, before buying
the regular 50c boxes. Write the Na-
tional Drug and Chemical Co. (Dept.
B. N.), Toronto, Ont., and they will
send you a free sample of Gl'n Pills
by return mail.

YOUTHFUL FIRE BUGS
SENT UP FOR TRIAL

HOPWELL HILL, Albert Co., N. B.
Nov. 15.—Curry Blenheim, Stanley
Hopwood and Emerson Magre, the three
boys charged with the burning of the
West River school house, were com-
mitted for trial today by Magistrate Pack-
the examination being completed this
forenoon. The boys are held in bail
of \$200 each, furnished by their par-
ents.

In his address to the court, Mr. Bray,
the judge, said that the boys were
of the community very strongly ex-
pressing severe condemnation of the
act. The boys were given the village
in openly speaking in public places in
practical approval of the burning down
of the building. The boys will come
up for trial at the January session of
the Supreme Court.

Wholesale Agents: LYMAN BROS. & CO., LTD., TORONTO.

SUSSEX

SUSSEX, Nov. 15.—Mr. Robert Con-
nelly, manager of the Bay Shore Lum-
ber Company, shipped a magnificent
mounted moose head with well bal-
anced antlers today to Mr. D. S.
Covles, Rye, N. Y. The mounting
was done by Emack Bros., Frederic-
ton, N. B.

The four sixteen and the one thirty-
two candle power carbon electric
lamps in the reading room of the
Sussex Institute have been replaced
by two fifty candle power Tungsten
lamps with Edison shades. The
change is very much in favor of the
new lamps. Several of the local stores
and offices have also adopted them.

Mr. C. M. McDougall, the popular
provincial superintendent, is
ever on the move trying to advance
the interests of the farmers of New
Brunswick. Last spring he interested
about fifty prominent Kings County
farmers in the growing of Alfalfa. An
interesting meeting of farmers was
held at Sussex, and Mr. McDougall
went into a thoroughly practical dis-
cussion with them of the merits of
the plant and essentials for its suc-
cessful growing. He also gave them
first class seed and a quantity of ni-
tro-culture sufficient for inoculation.

Some of the nitro-culture did not
prove of any virtue and it is quite
probable that the Rev. Mr. Hand,
Yukon, to succeed the Rev. Mr. Hand
as rector of the church, the latter hav-
ing resigned a short time ago and re-
moved to Lina, Ohio.

The meeting was largely attended
and it was the unanimous desire that
Mr. Cody be invited to fill the vacancy.
A telegram was sent to him, but a
reply is not expected for several
days. It is stated, however, that Mr.
Cody had previously been approached
on the matter and that he had ex-
pressed a willingness to take up the
work at St. James. His acceptance is
a foregone conclusion.

Mr. Cody is a native of this province.
For some time he was stationed at
Gretna, Queens County, about four
or five years ago he went to the Yukon,
where he has remained ever since. He
is the author of a book entitled "The
Apostle of the North." The book deals
with the life of Bishop Pompas, called
"The Apostle of the North."

Alfred, called "The Apostle of the North,"
College and has many friends in this city.
He is about forty years of age. His
wife is also a native of this province.

CATHOLIC M. P. GIVES \$100
TO THE METHODIST CHURCH

KINGSTON, Nov. 14.—William
Harty, M. P., Kingston's Roman Cath-
olic Member of Parliament, presented a
check for \$100 to the St. Andrew's
Methodist church on the occasion of its
golden anniversary yesterday. His
wife was also present.

"Christianity is a big enough plat-
form to hold us all, and under that
banner you can always count upon my
readiness to aid you and your fellow
churchmen in their endeavor to im-
prove mankind. I order the wide prin-
ciples of the golden rule."

I hear you have had misad-
venture with your old political
friends."

"No," said Senator Sorghum; "the
worst of it is the impossibility of mis-
understanding. We have expressed
our opinions of each other in terms
so explicit as to be unmistakable."

By its antiseptic influence
Dr. A. W. Chase's Ointment
prevents all danger from blood
poisoning when applied to
scalds, burns, sores and wounds.

It is soothing and healing.
Takes out the fire and inflamma-
tion, heals up the sore, forms
new, soft skin.
