Tutela added to their chances becoming league champions when they took a couple of points from the Scots at Tutela Park yesterday by the score of three goals to one. There score of three goals to one. There was a vast attendance at the game, which was worthy of the reputation of

the clubs.

Tutela from the outset took up the running and they did not relinquis safe. They were mindful of their previous encounter and took no chances with the result that the Scots only made one tally during the entire game. For the Scots, it must be said their team was not at top strength, because of recent events. They put a fair team in the field and ventually meant to get there. Cockshutt's found P.S.A. lacking in

experience at Mohawk Park and took advantage of the fact by scoring three goals to no response. The Congrationalists were hearty and willing and played fair soccer, but they were

After a hot contest, in which both teams came near defeat, by the nar-rowest margin, the Duffs and Paris yesterday, made a tie game of their match at the French citadel. Every fair Parisian lured the Duffs

brigade on, but it was in vain for they were up against an iron defence which proved invincible. Try as they would the soldiers could not pierce their op-ponents citadel. Paris themselves, found the Duffs, even in their present weakened condition, a hard proposition, and they could not make nothing of them and had to give up at the half the honors. There was a large number of spectators at this game. Cockshutts 3, P.S.A. o.

The P.S.A. met the Cockshutt boys on Saturday. The plowmakers opened the scoring early in the game with a fine shot. Joe Bee did his best to save it for the Brotherhood, but fell down a little late and the ball just

About 5 minutes before time they again beat Joe Bee, this time with a plain off-side shot, which, owing to the darkness the referee did not see. Hhe game ended with the score 3-0 in favor of Cockshutts. This makes five offside goals scored against the P C. A., in two weeks, so they claim with the same referee on all occasions.

Tutela 3, Scots 1.

The return game of the above teams at Tutela Park on Saturday proved a good fast game despite the sodden grounds. "It had been intended to resume the retirement at daybreak on the 26th, but the German attack in which Lord Kitchener's statement which no less than five army corps were was issued through the medium of the official information bureau, follows:

"Although the despatches of Sir long the despatches of Sir long the lon "The battle on this day, the 26th, John French as to the recent battle have not yet been received, it is pos-

During the whole of this period the British, in conformity though with serious loss and under the heaviest artillery fire. No guns were taken by the enemy except those of the horses which had been killed or injured by high explosive shells.

A frightful panic ensued and it is estimated that 800 or 900 dead Germans were left in this street alone. Another instance which may be chosen from many like it. was the charge of the German Guard cavalry division upon the British Twelfth Cavalry Brigade, when the German cavalry were thrown back with great losses and in absolute disorder. These are notable examples of what has taken place over practically the whole front during these engagements and

News Favorable.
"To-day the news is again favor-ble. The British have not been engaged, but the French armies, acting vigorously on the right and left, have for the time beig brought the

"Sir John French reports that on the 28th the British Fifth Cavalry Briade fought in brilliant fashion with the German cavalry, in the course of which the Twelfth Lancers and Royal Scots Greys routed the enemy and speared a large number in flight.

"It must be remembered throughout that the operations in France are vast, and that we are only on one wing of the whole field of battle. The strategic positions of ourselves and our allies are such that whereas a decisive victory for our arms in May be ordered at 47 Colborne St., Brantford decisive victory for our arms in France probably would be fatal to the
