An act passed at the last session of the Ontario Legislature makes it obligatory on all hotel-keepers to provide fire escapes for their buildings. The act comes in force on November 1st, and all hotel-keepers would do well to observe its provisions and save consequent damage and the risk of a heavy fine, should an accident happen through the non-observance of this law.

THE CHEESE MARKETS.

Special to **REPORTER.**

BROCKVILLE, Nov. 27.—Since our last report there has been a continued strong enquiry for strictly fine goods, especially September make, for which there is an unusually strong market. It has been generally reported by our factory men should make a careful note of this, and govern themselves so as to produce only strictly fine goods, for which there is always a good market. There is plenty of room for improvement in this direction—improvement which is imperative if we would continue to hold our present good position in the cheese markets of the world. Cables, private and public, have been continually referring to the whole position has a healthy look. This of course makes the gentlemen interested in the industry feel cheerful.
