DARDANELLES

Turk Reply Less Violent—Smyrna Called to Surrender.

London Cable.—The British Admiralty has issued nothing to-day concerning the progress of the bombardment of the Dardanelles forts. Reports from Tenedos say that the Turkish artillery in the Dardanelles grows weaker daily, and that the last bombardment by the allied warships badly damaged the forts of Chanak, Kalesi. Two big cruisers spent the night in the straits protecting the vessels engaged in mine-sweeping.

A cablegram from United States Ambassador Morgenthau at Constantinople, dated yesterday, stated that the British Admiral commanding the allied fleet in front of Smyrna gave the Turkish garrison twenty-four hours to surrender under threat of bombardment.

TWO DROWNED

Port Hope Canoeists Met Watery Grave.

Port Hope Despatch—The canoe has made an early start on its 1915 levy of death tolls, and this afternoon two young men of this town found watery graves in Lake Ontario. They were Ralph Wilson, son of F. W. Wilson, proprietor of the Guide, and Horace Smith, son of Town Councillor George A. Smith. Wilson was 18 years of age and Smith a little younger. The boys left town about 4 o'clock heading out from land, and a short time later a stiff breeze sprang up and the lake was lashed into a fairly rough sea. Friends became alarmed, and Capt. McMann and the lifeboat crew, as well as the lifeboat crew from Cobourg, were called out to search for the young men, but no trace was found of them, and it is believed that they perished.

CANADIANS IN BRITISH DRIVE

Fought On Flank in Victory at
Neuve Chapelle.

Gen. Alderson Speaks Highly of
His Command.

London Cable.—Information has been received here to the effect that one battalion of Canadian Infantry assisted in the capture of Neuve Chapelle, fighting, with great bravery on one flank of the advancing troops.

The fourth battalion, including the 36th Peel Regiment of Toronto, has been under exceptionally heavy shell fire, but has escaped lightly. Up to two days ago not a man had been killed, and only a few had been wounded. There is very little sickness among the Canadian troops.

A Toronto officer, writing from the trenches, says: "The Germans and Canadians cheer each other. The Canadians sing the 'Fatherland' and the Germans sing songs in English. The trenches are only forty yards apart." Speaking of the men, he says they are brave, but cautious, and their discipline is splendid.

There have been a number of casualties in the Ontario brigade during the last two days. Another batch of wounded arrived at Southampton today. The French people are treating the Canadians with the utmost kindness.

MESSAGE FROM GEN. ALDERSON.

Ottawa Report.—The following cable from Sir George H. Percy, Acting High Commissioner for Canada, has been received by the Government:

"Just received letter from General Alderson (commander of the Canadian division), in which he makes the following statement: 'Our men have now been in trenches for over a week, and I am very glad to be able to say that they are doing quite remarkably well. I knew they would do well, but they have done much better than I expected, and all has gone with less trouble than I anticipated. All artillery, infantry, engineers, medical people, supply, etc., have settled into their places, and work in a way that makes me both pleased and proud.'"

Sir Robert Borden read the message in the House of Commons this afternoon.

CANADIAN HORSE

Two Troops Arrive at Canterbury
at Once.

London Cable.—The ancient town of Canterbury to-day witnessed a remarkable meeting between two branches of Canada's mounted troops.

The Fort Garry Horse, which came to England with the first Canadian contingent as infantry, has now been converted into a cavalry corps, as originally intended, and having come along from Tidworth is now located at the barracks here, under Col. R. W. Patterson.

Canterbury has also welcomed the Mounted Rifles from Toronto, which came along with that portion of the second contingent reaching here this week. This mounted section, under Major McColl, reached Canterbury almost at the same time as the Fort Garry Horse arrived in the famous city.

Both sections have been warmly welcomed by British cavalry, for which Canterbury has long been one of the most important depots. The health of both corps is excellent. Things with the Canadians at Shorncliffe are settling down rapidly. To-day's weather is springlike. A party of new arrivals from Canada today gave their British comrades initiation into the mystery of baseball.

TWELVE SUBS

Are Missing, and Germany May
Abandon Scheme.

London Cable.—A despatch to the Daily Express from the Hague says:

"A report has been sent from Cuxhaven to the Admiralty at Berlin that twelve submarines have failed to report at their base, eight of them being among Germany's newest boats."

The naval council will meet to-day or to-morrow under the presidency of Emperor William, to discuss whether or not it would be better to abandon the submarine war."

BRITISH HOLD GROUND THEY TOOK LATELY

Big Gain at Neuve Chapelle Maintained Despite Heavy Counter-Attacks.

CALAIS RAID

Germans Are Preparing for Another Dash to the Channel Coast.

Paris Cable.—The victory won by the British troops north of La Basse, where they captured the village of Neuve Chapelle yesterday appears from additional details of affairs received to-day to have been the greatest single advance which the British have made since the fighting entered upon its present stage.

In addition to the capture of Neuve Chapelle itself, the British offensive resulted in the occupation of German trenches over a front of 2,500 metres, the attack reaching its furthest point one and a quarter miles beyond the village. Thus the British troops advanced nearly two miles on a line about that distance wide.

To-day the British are holding their gains, despite a number of German counter-attacks.

It is believed that the improvement in the British position brought about by the victory is of great importance, and, if pressed further, might compel the Germans to evacuate La Basse and perhaps other points which make their line so strong at present. Equally important was the success achieved by British airmen in destroying the railway junctions at Menin and the German main lines of communication, and there destruction will delay the arrival of new contingents of troops, which are reported to be again concentrating in Belgium for another attempt to break through to Calais and Boulogne. According to Dutch reports, these troops have brought with them a large number of boats for the purpose of the canals and rivers, and for the first time in months they include cavalry units.

There has been some fighting in Champagne, but on the whole the French seem to be satisfied for the present with the progress they have made in that region.

GERMANY USING ELEPHANTS.

A Copenhagen despatch says Germany has mobilized the elephants in Hagenbeck's menagerie, and has sent them to Valenciennes for work in heavy hauling. Dr. Koenig, the Austrian explorer, is using for war services 57 dogs which were presented by the Greenland authorities to the Fitcher Antarctic expedition.

PADEREWSKI AIDS POLES.

Ignace Paderewski, who is here trying to establish a committee for the relief of distress in Poland, said to-day that 17,000,000 Poles are now suffering from the horrors of war. Official statistics show, according to Paderewski, that 120 towns and 400 villages in Poland have been destroyed, and the losses of the residents and these places are estimated at \$1,200,000,000. Ten millions of people, he says are without food or shelter.

The committee at Lausanne is already distributing assistance, including \$50,000 received from American Poles.

PRINCE OF WALES "FEARLESS."

The Fiazio quotes a letter from the Prince of Wales in France, which says:

"We had a visit from the Prince of Wales right on the firing line. He goes everywhere, fearing nothing. The troops admire his courage immensely."

WON'T INTERN

Eitel Friedrich's Captain Would
Continue Cruise.

Newport News, Va., Despatch—Commander Thierichens, of the German Auxiliary cruiser Prinz Eitel Friedrich, agreed late to-day to deliver in writing to the American Government, through the collector of the port here, his explanation and reasons for sinking in the South Atlantic Ocean the American sailing ship Wm. P. Frye. He also agreed, after Collector of Customs Hamilton had collected the Prinz Eitel and submitted neutrality requirements of the Washington Government, to communicate an estimate of the time required to repair his ship, at the same time stating that it was his desire not to intern his vessel, but to proceed as soon as repairs made her seaworthy.

To the request of the Washington Government that he land here the crews of captured and sunken vessels and such passengers as could comply with immigration regulations, the German commander gave assent. The crew of the American ship Frye was landed late in the afternoon, and arrangements were made for taking off later to-night the crews of British, French and Russian ships sunk in the south sea. The Eitel Friedrich herself steamed into Newport News shipbuilding yard and went into dry dock, where experts began an examination of her condition.

Held on board are about 75 third-class passengers of the French liner Florida, refused admission by immigration inspectors on the ground of illegitimacy. Consuls of these passengers will arrange as soon as possible for their departure to Ellis Island, N. Y., and for deportation.

HAMILTON NEXT

Grand Orange Lodge Meets There
Next Year.

North Bay Despatch—The Grand Orange Lodge of Ontario West closed its annual session here to-day with the election of the following officers: Grand Master, J. J. Williams, Woodstock; Deputy Grand Master, H. C. Hocken, Toronto; Junior Deputy Grand Master, J. I. Hartt, M.P.P., Orillia; Grand Chaplain, Rev. H. D. Peacock, Paquette; Grand Secretary, Wm. Fitzgerald, Toronto; Grand Treasurer, J. F. Harper, Hamilton; Grand Director of Ceremonies, W. T. Fox, Guelph; Grand Lecturer, John A. Ferguson, Clarksburg; Grand Auditor, W. H. Taylor, Aurora, A. A. Gray, Toronto; Deputy Grand Secretary, Wm. Cook, Meaford. The Grand Lodge will meet next year in Hamilton.

The majority of the members left for their homes to-night. A few will take a trip up the T. & N. O. as far as Cochrane.

Grants were voted to the French missions, to the Church of England, Presbyterian, Methodist and Baptist Churches, as well as to the Salvation Army.

FLYING CORPS WANTS CANUCKS

Imperial War Office Asks Ottawa
for Men.

Meningitis Feared Again in Toronto Camp.

Toronto, Despatch—Recruiting for the Royal Flying Corps is to be undertaken by the Canadian militia officers in response to a request just received from the Imperial War Office. The communication received at Ottawa and forwarded to divisional headquarters asks for the names of any British subjects who are qualified aviators, or air mechanics who are willing to enlist for Imperial service. Special inducements in the way of pay and expenses are offered, \$2.00 per day being offered to any qualified aviator and in addition any officer or man holding the Royal Aero Club or American Club certificate will be given a grant of \$375 to cover the cost of his certificate and other expenses. Recruits for this special service will be sent to England immediately on enlistment. It is felt that while the number of qualified Canadian aviators is limited, there are more in the United States who are of British birth, and who would be able to qualify for the Royal Flying Corps.

MENINGITIS AGAIN FEARED.

The camp medical authorities fear that once again the dangerous spinal meningitis germ has gained access to the exhibition grounds. This time the suspected being a member of the 4th C. M. R. It will not be known until this morning definitely whether the case is meningitis or merely a bad form of grippe. No chances were taken of having another epidemic in camp, however, and all the men in the exhibition grounds, this time were immediately sent off to the isolation quarters on Strachan avenue, 23 in all leaving camp. It is considered probable that if the suspected man had the disease he has brought it in from the city, as the camp was considered to be quite free from carriers.

The remaining carriers at the old General Hospital have had their fourth examination for cultures and if none is found they may be returned to the Exhibition to-day.

Still another death, among the soldiers suffering from meningitis, has occurred, Private William Talbot, who joined the second expeditionary force with the quota from the 48th Highlanders, succumbing to the disease yesterday afternoon.

Of the other soldiers with spinal meningitis only Pte. Taylor was reported last night as in a serious condition. Of the others Ptes. Pakenham and McMillan were in the best shape and Sergt. Wilkinson and Pte. Houghton were doing well. Pte. Speers of the third Canadian expeditionary force, was only in a fair condition.

Arrangements whereby members of the Divisional Signallers may supplement their training so as to be able to read wireless messages were being made at camp yesterday afternoon, when Capt. Dunn, divisional signaller, had his men place a set of wireless aerials in position above the Administration Building, in which are the camp headquarters.

TIN PLATE ADVANCES.

Pittsburg Despatch—Independent tin plate manufacturers in the Pittsburg district yesterday announced an advance in the price of tin plate equal to \$3 a ton. The announcement followed that recently made by the American Sheet and Tin Plate Company of the same increase in price, which brings the market up to \$2.50 per base box. The advance is effective at once. Tin plate mills in this district, it is estimated, are operating at fully ninety per cent. of capacity.

15 MONTHS FOR MANSLAUGHTER.

Owen Sound Despatch—Robert Knolls, of Griersville, was sentenced to 15 months in the Central Prison to-day for manslaughter, for the shooting of Joseph Perry last Halloween. The jury brought in a verdict of guilty with a recommendation to mercy. Perry, with several other youths, was engaged in Halloween pranks on the date mentioned, and had been annoying Knolls, who finally took a 22-calibre rifle and fired four shots in the dark, in the air, and in the direction of the marauding party. One of the bullets struck Perry and penetrated the brain, causing death.
