Niagara Power in Toronto.

Niagara Pewer in Toronte.

Toronto, Nov. 20.—Yesterday afte:
noon in presence of a party of officials of the Electrical Development
Oo., the Toronto Electric Light Co.,
and the Toronto Street Railway Co.
the switch was "cut in" and the Niagara electric current passed into the
transformers. Both lines were operated with equal success. It is expected that in two or three days 10,000
to 15,000 horsepower will be in the
city for distribution by the Toronto
Electric Light Co., and that the Toronto Railway Co. will receive a supply for emergency needs.

RESIGN FROM THE WORRY CLUB.

Life is a rush, but we can't all get there together. In consequence, we worry—Can't help it because nerves are weak, vitality is burnt up and there's no staying power left. Cut out the worry part, and Build Up! Let Ferrozone help you. It's a most strengthening nutritive tonic. Fills the blood with iron, supplies building material for worn out organs, genmateria, for worn out organs, generates the sort of vitality that makes you want to do things. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stagea, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional ity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous eyrfaces of the system, thereby destroying the foundation of the disease, and giving the patient atrength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Send for list of testimonials.

MODES IN BABYLAND

NOTHING TOO EXPENSIVE FOR THE UP TO DATE LAYETTE.

Simplicity Is the Keynote of the Smartest Garments - Materials Are of the Finest Quality-Trimmings of Lace and Dainty Hand Work.

Nothing is too expensive nowadays for "their majesties from Babyland," and the daintiest clothes that skilled designers can contrive are scarcely fine enough for their wear.

At the most exclusive places where a specialty is made of layettes for those babies "born with a silver spoon" -since no others can pay the prices asked - one is impressed with the dainty simplicity that rules in make and garniture. Materials are of the finest quality-well cut and put to

gether with the daintiest of hand work -but very little trimming is seen, and what is employed is in tiny babyish designs wrought as delicately as frostwork on a window pane. This deli-cate stitchery is what makes the little garments so costly, and the woman clever with her needle can fashion equally pretty wear for only the cost of the material.

For ceremonious wear when baby is on parade the robe illustrated is an excellent example of the best baby modes. Of sheer linen, with real va lenciennes let into the material and dainty touches of embroidery at intervals to help out the design, nothing could be more charming. The bottom is edged with a frill of the valenciennes surmounted by the insertion, and bows of soft ribbon ornament the

shoulders. O The first baby caps are very pretty, made of fine handkerchief linen daintily embroidered and edged with lace. These are worn over a little silk lining, wadded or plain, according to the tempera-ture, and can be readily fashioned from fine French handkerchiefs if one does not care to buy them outright. The cap illustrated is a very new design and

FOR CEREMONIOUS WEAR

can be had in several different materials-in handkerchief linen, made over pale blue or pink china silk, the color repeated in the feather stitching and piping that edge the front. The same idea is shown in caps built of white silk of handsome quality. About the face there is a full lingerie ruche, and the strings of soft satin ribbon are adjusted by fastenings under tiny rosettes, so that they can be easily removed for renewal or laundering pur-

ITCHING PAINFUL SORES ON HANDS

Suffered for a Long Time Without Relief — Had Three Doctors and Derived No Benefit - One Doctor Was Afraid to Touch Them-Soreness Disappeared and Hands Now Smooth After Application of

CUTICURA SOAP AND CUTICURA OINTMENT

"For a long time I suffered with sores on the hands which were itching, painful, and disagreeable. I had three doctors and derived no benefit from any of them. One doctor said he was afraid to touch my hands, so you must know how bad they were; another said I never could be cured; and the third said the sores were caused by the dipping of my hands in water in the dye-house where I work. I saw in the papers about the wonderful cures of the Cuticura Remedies and procured some of the Cuticura Soap and Cuticura Ointment. In three days after the application of the Cuticura Ointment my hands began to peel and were better. The soreness disappeared, and they are now smooth and clean, and I am still working in the dye-house.

"I strongly recommend Cuticura Soap and Cuticura Ointment to any one with sore hands, and I hope that this letter will be the means of helping other sufferers. Very truly yours, Mrs. A. E. Maurer, 2340 State St., Chicago, Ill., July 1, 1905."

Orangeville, Nov. 20.—Yesterday afternoon three constables undertook to arrest Bob Cook, a notorious character, and widely known as "Fighting Bob."

Bob."

He was to appear at Grand Valley three weeks ago for creating a disturbance at the fall fair, but refuse 1 to comply with the summons, and a warrant was issued for his arrest. Two warrant was issued for his arrest. Two garnishee papers were also out against him, and as he was passing through this town with his threshing outfit, Builliff James Morrison served these papers, whereupon Cook at once trampled them into the mud and rode on. Chief Speers was notified, and together with High Constable Hughes and Night Constable Halbert attempted to arrest him. Cook immediately showed signs of fight. The constables were apparently getting the best of the tussle, when Cook managed to draw a large knife from his overcout and slashed Constable Halbert, inflicting a terrible wound in his 1st. and slashed Constable Halbert, inflicting a terrible wound in his 1st arm. Having one arm disabled, Cook made a pass at Constable Hughes' neck, but fortunately missed. Failing in this he resorted to the throwing of stones, and did effective work on Constable Hughes, who was also the recipient of a few well aimed kicks. The constables finally returned up town, being powerless to defend themselves further, as all were unarmed. Clook then continued his journey,

and was seen last evening as he was boarding a westbound train. He is credited with the threat he would never be taken alive.
Police all along the line have been

notified and it is understood the town will offer a reward for his capture.

THE DRAWBACK.

To mount the dizzy auto
And chase it down the line
And over dogs and apple carts
Is doubtless very fine,
But I opine
It isn't quite so pleasant

To lie upon your back

And gaze aloft and wonder where
The works are out of whack.

To amble up the boulevard To amble up the boulevard A minute to the mile And make the neighbors jealous Is swell and lovely style, But it must rile A temper, though by nature sweet, To be obliged to stop Before a large and laughing crowd That heard the puncture pop.

To throw the speed gause open And cut the startled a'r Is very lovely business. A banisher of care, But it's to swear When just around the corner A few rods down the line The village constable appears And calls you for a fine.

To jog along to business
At slow and steady gait
Is fine when you are certain
You will not get down late,
But, oh, hard fate
To have the wheels quit buzzing
And after some delay
To get a team of horses
To haul the thing away!

Length of History,

The Sea Horse.

This fish is found in the Atlantic ocean around the coast of Spain, the south of France, in the Mediterranean and in the Indian ocean. Sea horses are very small and have been found often curled up in oyster shells. The head is much like that of a horse, and the rings around the body and tail re semble those of some caterpillars. The habits of these fishes are singular and interesting. They swim with a waving motion, and frequently wind their tails around the weeds and rushes. They have fins to sustain them in the water, and even in the air. They live on worms, fishes, eggs and substances found in the bottom of the sea.

WEAK HEART SYSTEM WAS RUN DOWN

When the heart is healthy and performing its fuctions naturally, it should beat regu-larly seventy-two times a minute without causing its owner the slightest inconveni-ence or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm. The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, Sault Ste. Marie, West, Out., says: "I have been troubled for four or five years with weakness, and run down system. My feet were always cold and I felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued their use until I had taken twelve boxes and I am now well."
