

the use of stimulants to spur up a tired worn-out nervous system is becoming common in these days of competition and exhausting business pursuits. The woman, tired out by a day's shopping and "just ready to fly" finds immediate relief in a hot cup of tea. A man seeks his cigar for solace after a hard day's work. Dr. Pierce's Favorite Prescription, nearly forty years ago, prepared a tonic for the use of weak women. He carefully eliminated any harmful or injurious substances, from its composition, excluding alcohol and narcotic drugs, and only incorporated such drugs as his long experience had proved to be useful in relieving woman's ills. Its success was immediate and remarkable, and it stands to-day as the foremost remedy for diseases of women. Dr. Pierce's Favorite Prescription. It strikes at the root of the trouble, stops weakening drains, relieves pelvic congestion and inflammation and gives tone and vigor to the organs.

"I want to tell you of the great improvement in my health since taking your Favorite Prescription," says Mrs. J. S. Jones of Forest, N. C. "When I began its use I was a physical wreck and had despaired of ever having good health again. Could not sit up all day. I noted a great improvement before the first bottle was all used. Was suffering with almost every pain that a woman is subject to. Had inflammation of ovaries, painful and suppressed periods, and other symptoms of female disease. After taking six bottles of Favorite Prescription, I felt like a new person. Can ride horseback and take all kinds of exercise and not feel tired."

For constipation, the true scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure. No other pill can compare with them.

**KNOW YOURSELF.**  
Read all about yourself, your system, the physiology of life, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1008 pages. Send to Dr. R. V. Pierce, Buffalo, N. Y., 50 cents in one-cent stamps for cloth-bound copy, or for paper-covered book 31 stamps.

**Napoleon's Ideal Woman.**  
In response to a question asked by a lady the great Napoleon replied: "My ideal woman is not the beautiful featured society belle, whose physician tries in vain to keep her in repair, nor the fragile butterfly of fashion, who gilds the tortures of disease with a forced smile. No. My ideal is a woman who has accepted her being as a sacred trust and who obeys the laws of nature for the preservation of her body and soul. Do you know, my involuntarily bends in homage when I meet the matron who reaches middle age in complete preservation? That woman is rendered beautiful by perfect health, and the stalwart children by her side are her reward. That's my ideal woman."

## "IT'S ONLY A COLD, A TRIFLING COUGH"

Thousands have said this when they caught cold. They have neglected to cure the cold. Thousands have died of Consumptive grave through neglect. Never neglect a cough or cold. It can have but one result. It leaves the throat or lungs, or both, affected.

## Dr. Wood's Norway Pine Syrup

is the medicine you need. It strikes at the very foundation of all throat or lung complaints, relieving or curing Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, and preventing Pneumonia and Consumption.

It has stood the test for many years, and is now more generally used than ever. It contains all the lung healing virtues of the pine tree combined with Wild Cherry Bark and other potent remedies. It stimulates the weakened bronchial organs, allays irritation and subdues inflammation, soothes and heals the irritated parts, loosens the phlegm and mucus, and aids nature to easily dislodge the morbid accumulations. It is humbugged into accepting an imitation of Dr. Wood's Norway Pine Syrup. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cts.

Mr. Julian J. LeBlanc, Belle Cote, N.S., writes: "I was troubled with a bad cold, sore cough, which assumed such an attitude as to keep me confined to my house. I tried several remedies advertised, but they were of no avail. As a last resort I tried Dr. Wood's Norway Pine Syrup and our bottle cured me completely."

## THE NEW MILLINERY.

Decided Crowns and Ostrich Plumes Galore—Small Turbans.

Autumn millinery creations show very decided crowns and rather broad, flaring brims. The fancy for wearing the hat well forward, tipped over the brow, remains popular, and when the hair is properly arranged—high at the back so as to support the hat without the addition of a cachepeigne—the effect is smart and generally becoming. For wear with the tailor costume and walking dress the small turban severely trimmed will be good style, but the large hat will be the correct mode for occasions when very dressy toilets are displayed.

A conspicuous note in the autumn models is the lavish use of plumes. The new shapes require some softening, and no other trimming gives this effect like the graceful ostrich feather, which, by the way, has this season taken all kinds of twists and turns. An effective arrangement is to have the plumes round and roll over on the hat.

**The Walking Hat Again.**  
There is a suggestion of the long ago favorite walking hat in a new model of glossy black beaver felt. A soft drape of black silk encircles the high crown and directly in front is placed a square buckle of dull silver studded with brilliants. Falling over the left side and back are two black ostrich plumes, the tips resting on the hair. This smart hat is a charming accompaniment to the tailor costume. An effective note may be achieved by using plumes in the deep American Beauty shade instead of those of black, and an equally modish arrangement is to have the hat of white beaver with black trimmings.

**Fashionable Colors.**  
All shades of brown are fashionable, but the newest hue is termed les feuilles mortes, or dead leaves. When lighted up with a touch of red, blue or green it suggests rich autumn foliage. Gray, too, is much in evidence and in many odd combinations. One hat of dark purple felt bent into artistic shape had a huge red rose with a bit of foliage adjusted against the crown near the front, while two other roses of the same size and color were arranged at the back against the flaring brim. This model was intended to accompany a dressy gown of purple cloth in which the note of red was repeated in the embroidered trimmings.

**Tucked Taffeta Hats.**  
Tucked and corded taffeta is used to fashion some of the smartest street hats of the season. The tricorn and French sailor are the shapes in highest favor. Wings, quills and ribbon are the trimmings employed. A hat of unusual style is made of dark red taffeta, cross tucked and over a tricorn shape. A soft fold of the silk encircles the crown, and at the left side, against the flaring brim, there are two large dark red wings that are tipped with black, while on top of the hat at the left side there is another red wing—Delineator.

### New Veil Pins.

A fad in jewelry which has already become very popular is veil pins, says an exchange. Now that the veils are so much more elaborate it is necessary to pin them on to the brim of the hat very carefully. To do this becomingly three of these new veil pins should be used, one on each side of the hat and one in the back to hold the ends together. They are made like the old fashioned belt pins—a gold or silver bar, with a stone in the center. A very pretty set of these veil pins was given as a birthday present not long since and was very much admired. The pins were made of dull gold, with three good sized amethysts set in each pin, and when worn with a violet hat and violet lace and chiffon veil they were most effective. The pins will be found a great aid to neatness.

### Variety in Sweaters.

Sweaters are now so universally worn that they require as much description as a waist. The days when one sweater differed from another only in the knitted stitch are past and gone, and a modern sweater shows nearly as many variations as the modish blouse, remarks a fashion exchange. A girl may possess a sweater in any desired neck outline or length, untrimmed or leather trimmed and exhibiting long or short sleeves. There comes the Norfolk sweater, made like a jacket with a V neck, the sailor one fitted in the back and showing the usual accessories the bolero, collarless and ending just below the waist line, and the ordinary blouse form with a square neck, standing collar and wristlets of contrasting color.

### For Fruits, Nuts, Etc.

Among the handsome conceits this year are filigree silver boats for fruit, nuts, small cakes and boudoirs. There

are also glass receptacles for holding water which can be placed inside of the silver boat and then filled with small, short stemmed blossoms.—Table Talk.

**Chocolate Cake and Cream.**  
A dainty little notion is to serve stiff whipped cream not on chocolate cake, but with it.

## Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts."

for some time; head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Riville, Mastr, Que.

Dear Mrs. Pinkham:—  
"I suffered for four years with female troubles—inflammation of the stomach and fallopian tubes which caused me violent pain and often tortures, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried many doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I feel like a new person. My health is now perfect, and I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

### Italian Vendetta.

Everybody remembers Musolino, the almost world-famous brigand of Calabria, where earthquake shocks have recently wrought such widespread devastation. The tragedy of the "Gentleman Brigand" is still fresh in the minds of many of the inhabitants of the places where he had his haunts; but neither his fate nor the deaths of many of his victims have been sufficient to close the tragedy of his career, and the newspapers of New Jersey, U.S.A. are just now filled with the details of an adventure which shows how the love of vengeance still rules the characters of the men of Southern Italy. The victim of the present affair is Domenico Musolino, a cousin of the notorious Giuseppe Musolino, and though he has escaped with his life, the implacable laws of the vendetta, which from time immemorial have recognized no obstacles of time or distance, are still being enforced against him, and he is doomed to carry his life in his hand. It was on the morning of the 8th Sept., that an Italian slipped out of the market crowd in Jersey City, and plunging a stiletto into the neck of Domenico Musolino within half an inch of the jugular vein, dodged rapidly back into the crowd and escaped, leaving the object of the attack to be carried to the City Hospital, where he now lies. This was the fourth attempt to kill Domenico within a year, and though the men who have carried the vendetta to far America have been frustrated in their desire for vengeance, the Italian community in New Jersey believe that Domenico has been marked for death by the friends of Vincenzo Zoccol, who was shot dead seven years ago in Calabria.

We don't need money and prominence to help others. All we need to do is to do a kind act, say a kind word at the right time.

Present adversity is easier to bear than past prosperity.

## HEGEMAN ON THE RACK.

Examination Not Concluded In Insurance Inquiry When Adjourning Came—Valuable Figures.

New York, N. Y., Nov. 11.—Closing the sessions of the week yesterday the Armstrong committee of insurance investigation has received a mass of tall and figures, which, while apparently of little interest to the laity, is declared to be of inestimable value to the committee. The greater part of the week has been devoted to the Metropolitan Life Insurance Co., the examinations of President Hegeman and James M. Craig, the actuary of the company, being of a technical nature. When adjournment was taken yesterday the committee had not finished the examination of President Hegeman.

### Press Puffers on the Stand.

Just before adjournment Mr. Hegeman was excused, and Joseph Howard, Jr., a writer, who has been employed by the Mutual Life, identified vouchers that he had signed for money received for writing advertisements and reading notices for the company Mr. Howard afforded much amusement by his declaration that his only regret was that he could not sign more of these vouchers. His sole complaint was that he was not paid enough for his work. This, too, was the complaint on the witness stand of Chas. Smith, who also does writing for the Mutual Life and receives \$8,000 a year for it.

### A Dirty Trick.

Mr. Howard said he had been employed 30 or 40 years by the Mutual Life, but the vouchers went back only to 1899. There were ten of these vouchers, aggregating \$16,625. Mr. Howard denied that he had ever sent out despatches by wire, and was emphatic in his assertion that he had never written a line about insurance for any paper on which he was employed, and characterizing such an act as a "dirty trick."

### ALLIANCE DISAPPOINTED.

Nothing Accomplished During Year In Way of New Sunday Laws.

Toronto, Nov. 11.—About fifty members of the Ontario Lord's Day Alliance convention were present at the meeting yesterday in the Y. M. C. A. lecture room.

A lengthy review of the year was given by President J. K. Macdonald, who said that the fact that nothing had been accomplished during the year in the way of legislation was a serious disappointment.

A resolution was passed urging the Provincial Government to legislate upon the subject of Sunday rest by enacting legislation which shall, by title and preamble, clearly show its object to be of a civil character, shall restrict to the other six days employment upon electric railways, as being not unreasonably within the province, and shall provide for enforcement by enabling the Attorney-General, on behalf of those whose rights are protected, to secure an injunction against the corporation operating the railway and such other means within the provincial authority as the Government may think necessary.

It was also agreed that the Ontario legislation, in addition to advancing upon legislative lines by the province, should unite with the Dominion Alliance in securing Dominion legislation. In the afternoon the officers were elected.

### Dominion W. C. T. U.

Hamilton, Nov. 11.—The delegates to the convention of the Dominion W. C. T. U., which opened in First Methodist Church yesterday morning, are all gathered up over the Mormon question, and they passed this resolution: "In view of the startling revelations with regard to the rapid inroads of Mormonism, with all its degrading tendencies, and the young nation particularly in the Northwest Territories, resolved that the Dominion W. C. T. U., memorialize the highest court of appeal in all ecclesiastical bodies in Canada, that at the earliest possible opportunity they be authorized to investigate this matter and take what immediate steps they in their wisdom see fit to effectively prohibit this revolting state of affairs." The delegates also decided to write to Hon. Frank Oliver, Minister of the Interior, on the question, calling his attention to the fact that despite the Canadian prohibition of polygamy, facts in their possession led them to believe that the prohibition was not regarded.

### "Soo" Water Power.

Buffalo, Nov. 11.—At yesterday's meeting of the International Waterways Commission, Chairman Ernest stated, after hearing arguments for a couple of hours, that the commission would not favor granting permits for the use of more than 19,500 cubic feet of water at the Soo, and that amount would have to satisfy all the interests concerned. He reiterated the determination of the commission to preserve the interest of navigation regardless of consequence to any person or corporation.

### Australian Immigration Bill.

London, Nov. 11.—(C.A.P.)—Two immigration bills have been introduced by the Australian Premier, one to facilitate the Japanese by dropping the European language test, the other to render Australia open to all labor immigrants, provided the Minister for External Affairs has scrutinized every contract before the laborer lands, and is satisfied no attempt is made to interfere in a strike or undercut the Australian labor condition.

### Could Indict Manager Fleming.

Toronto Nov. 11.—General Manager Fleming of the Street Railway, is liable for criminal prosecution for the death of Cyrus Rockwood, the bicyclist who was run down by a car at the corner of Queen and McCaul streets some weeks ago. This was the opinion given by Corporation Counsel Fullerton at yesterday's meeting of the board of control.

### New York's Water Supply.

New York, Nov. 11.—The plans for obtaining water from the Catskill region for Greater New York at an expense of over \$150,000,000 have been accepted for consideration by the state.

### MUNICIPAL OWNERSHIP.

Andrew Carnegie Says the People Want It and Should Get It.

New York, Nov. 11.—Andrew Carnegie, upon disembarking yesterday from the steamer Baltic, said:

"I do not believe in the Socialist's idea of municipal ownership. All Great Britain's water, tram and sewage works are under public ownership. The line seems clear to me. The increase in value made by an increase in population should belong to the city. Now municipal ownership is a certainty as sure as I am alive. Scotland and England are ahead of us in ownership of public property. A city should not give away a franchise that belongs to the people, but whether a city should offer it as a lease for a time is another affair. The leases given should be for as short a time as possible. The shorter the better. The ownership should always remain with the city. The people seemingly want municipal ownership and should get it."

### NO POISON IN CHAMBERLAIN'S COUGH REMEDY.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had, and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.
