## GREATER HAMILTON'S MOST RELIABLE NEWSPAPER

## FOR AN EARLY VOTE VISITED SAN OF THE RATEPAYERS.

Preparations to Submit the By-law.

Question Will be Settled This Evening.

#### Street Railway Matter Stands Over.

The Council to-night will deal with what is undoubtedly one of the most important matters that have confronted Hamilton since it became a city- the power question. That the recom tion of the committee to submit the form of contract to the people will receive the endorsation of a majority of the aldermen appears almost certain, although the Council will be divided on the ques tion of closing a contract at once with the commission. The Hydro-Electric enthusiasts during the past few days have been making frantic efforts to win over one or two aldermen which have taken a strong stand against plunging the city into a gigantic gamble. It is expected Conservative aldermen, with the exception probably of two or three who refused to be stampeded by Boss Milne and the machine, will stand solid for jumping into the power scheme at once. It was expected that the street railway matter would also be taken up to-night, but the city officials were un able to get the proposed agreement into shape for a meeting of the conference committee last night, and the question will have to stand over until next week. Likely a special meeting will be called

Although Mayor Stewart declared to-day that it was no sure thing which way the vote on the power proposition would go to night, preparations are being made to rush the by-law to the people in the event of the Council to-night deciding that a by-law shall be submitted. A special meeting of the Finance Committee has been called to approve of the polling booths. The City Clerk is one of those who think it is just wasting a thousand dollars to submit the by-law again, because he thinks the people will carry it with a larger majority than before. Although Mayor Stewart declared to-

Mr. J. J. This was followed by a tour of inspection of the buildings that have been erected since his Excellency's last visit. He' expressed his pleasure at the work done on the Daughters' of the Empire shack. From there the party was taken to the Crerar Hall, and were met by Mrs. Crerar, who introduced his Excellency to the patients. And No Militia Corps Will be Sent to Quebec.

Tories at Ottawa Refuse to Vote the Money.

(Special Despatch to the Times.) Ottawa, Ont., May 29.—The militia camps of Canada are to be cancelled, and there will be no militia corps. It is probable there will be no militia corps sent to Quebec for the rural corps. It is probable there will be no militia corps sent to Quebec for the celebration in July. This is due to the refusal of the Opposition to vote supplies for this or any other purpose. Preliminary expenditure is required for the camps, which makes the holding of them impossible unless money is voted for that.

Mayor Stewart is saying these days. Why doesn't he try to keep cool? Why doesn't Fowler, of wine, women and graft notoriety, clear his own skirts of these foul charges? Surely they can't be true.

Dan Reed will be at Mount Hope on Saturday night full of hope, no doubt. But nothing stronger.

If I recollect correctly, John Milne was also a hireling of the Whitney Govern-ment, with all expenses paid.

The Times has none but the public The Times has none but the public good in view in this power matter. We hate to see the city tied up for thirty years with the prospect of losing thousands upon thousands of dollars. But if the people must have it, we can only say that we are sorry, because we believe it will be to their great loss. But we don't think they will nave it.

Don't forget, you Crown Point people, that Whitney bonused the Salvation Army to help them bring out immigrants, and that he has a staff of men over in Britain, steering immigrants to Ontario instead of the Northwest.

### JOHNNY MILNE THE INNOCENT

Tries to Load Times With Tory Literature.

He Does Not Know All, Even About Stoves.

Whitney and the Canadian Labor Situation.

The Times is in receipt of a letter from Mr. John Milne, President of the Conservative Association, in reference to the reply of Allan Studholme to some remarks made by Mr. Milne at a Tory ward meeting. The Times does not print the letter for two reasons. The first is that this paper did not report what Mr. Milne said at the Tory ward meeting, nor did it report Mr. Studholme's reply, and is prepared to let those worthies fight it out themselves. The other reason is that Mr. Milne's letter is intended as a Tory boost, and the Times is not boosting

either Whitney and his crew of promise breakers or the Borden-Foster combination and their obstructionist following. A third reason may be mentioned. Mr Milne says he knows of no Hamilton

agents over in England persuading me-chanics and others to come here instead of going to the Northwest. Not only so, but the Canadian Manufacturers' As. so, but the Canadian Manufacturers' Association, of which we presume Mr. Milne is a member, opened offices in Great Britain for the special purpose of enticing British mechanics to come here, and help swell the labor market, so that they could control that labor, and prevent an increase of wages, although prices of everything the workingmen had to buy were on the jump. In view of these facts, Mr. Milne's solicitude for the workingman may be taken for what it is worth—nothing.

The boys were sighted off Cedar Point in a sail boat. No trace of them has been found. It is thought their boats capsized.

The storm swept Erie and Ottawa counties, doing heavy damage to grapes and peaches. In Sandusky a section of a city block was unroofed, and the interiors of four business houses flooded.

Dundas, May 29.-A good sized and orderly audience gathered in the Town Hall last night at the meeting called by R. A. Thompson to discuss Provincial issues. A fair percentage of the audience were ladies. President Clark. of the Dundas Liberal Association, occupied the chair, and Paling's orchestra ontributed music for the occasion. The platform was tastily decorated with flowers. Mr. Thompson was the first speaker, and was given a very warm reception. He first explained his views regarding holding joint meetings, as had been done in the last campaign. He did not think it British fair play to deprive any candidate of the privilege of freely and publicly discussing the questions of the day, but Mr. Wilson, the Conser-

and publicly discussing the questions of the day, but Mr. Wilson, the Conservative candidate, fiatly refused to meet any other candidate in public excepting himself, his reason given being that in case of three candidates speaking the would be sandwiched in between the other two, much to his own desadvantage. He (Mr. Thompson) could see no force in this argument, and contended that he himself would stand to suffer as much in that respect as Mr. Wilson would. Mr. Thompson also referred to the fact that some personalities were being made to do duty at some of Mr. Wilson's meetings.

In taking up the questions of the day he first referred very briefly to the automobile legistation, and then took up the school book question. Whitney supporters, he said, were eager to tell people that the set of school books that uning Liberal rule cost over a dollar could now be had for less than half a dollar, but he said they were very careful to hide the real cause of this decrease in price-from the public. The real reason of the fall in price was that the Government had given notice than in 18 months the present books would be superceded by a new series, the result being that a great rush was at once made to dispose the present books would be superceded by a new series, the result being that a great rush was at once made to dispose of stocks on hand, hence the tumble in prices. Mr. Cooper (a Tory), of Toronto, an expert in school book matters, has reported that if the new series of books to be issued are up to the standard they will cost as much, or perhaps more than, the old series did. The only hope the Government has of holding the price down to the old-time figures was an at-tempt being made to have the whole Do-(Continued on page 9.)
