MAMMOTH SHEET.

THE very liberal patronage bestowed on the Saturday News, since its commencement in July last, and a desire to meet that patronage by corresponding exertion, have induced us this week to multish a Double Number—being the largest sheet swenginted to Philadelphia for any pergone, and the largest literary paper over printed in the United States. To these of our friends ed in the United States. To these of our friends who are practical printers, it need not be mentioned that this undertaking has involved serious mechanical difficulties. The largest—or cheef the largest presses in Philadelphia is used for our ordinary impression—but this would ecommodate only a single page of the mammoth sheet, and we were obliged, therefore, to work four forms at different periods. The care used in preparing the paper—in removing and folding the sheets, &c. can only be estimated by those who have seen the experiment made; and, added to the necessarily, increased amount of added to the necessarily increased amount of composition, presswork, &c., these supplemen. composition, presswork, etc., these supplemen-tary expenses have made an aggregate cost, which would have deterred many from engaging in the outerprize. A gain of two thousand new subscribers will not repay the actual cost of this food a number.

subscribers will not repay the actual cost of this single number.

We flatter ourselves that, besides its extraordinary size, this number presents attractions that entitle it to some attention. It contains the whole of Prisadship's Offering for 1837, the London copy of which costs \$4, and has 364 closely printed pages of letter press. Distinguished as the present age, and particularly our owngoughty, has been for cheap reprints, we believe this surpasses any former instance. For four cents subscribers to the Saturday News receive, in addition to their ordinary supply of

lieve this surpasses any former instance. For four cests subscribers to the Saturday News receive, in addition to their ordinary supply of Miscellaneous matter, an English annual, the largest put received for the coming season; and they receive it, moreover, in a form that, from its coverly, gives it additional value.

Of the general observator of the Saturday News we need not speak. That has now become se well known as to require no comment. We may take occasion to say, however, that in enterprise and resources we yield to no other publishers in this city or elsewhere, and we are determined that our paper whall not be curpassed. We have embred the field prepared for realous competition, and we are determined that our paper whall not be curpassed.
