THE ONTARIO ASSOCIATION.

At a commistee meeting, held in the Rossin House in the 10th inst., the following resolutions were on the loun inet, the convenig techniques were passed:—

That all Association matches shall be what are commonly considered all day matches, unless a two days' match be decided upon; that the international match with the United States be played at Philadelphia somewhere from the 10th to the 18th of September; that the third series of matches be played off on or before August the 7th as follows:—

Chatham v. St. Catharines, at St. Catharines.

Guelph v. Winners of Barrie and Cobourg, at Toronto.

whitby v. Newmarket, at Toronto. Hamilton v. Winners of Toronto and Carltons, at Ottawa, a bye. Ottaws, a bye.

In the former series:—Newmarket defeated the Fanderers (Toronto), Guelph defeated Brantford, hatham defeated St. Marys, Otbourg and Barrier as drawn, Toronto v. Carltons was undecided, and t. Catharines had a bye.

A PIGEON SHOOT AT WOODEINE TRACK.

The handicap match for the possession of the silver cup, presented by Mesers. R. Wilson, president, and J. James, vice-president, of the Toronto Gum Club, came off at the Woodbine track on Saturday atternoon. There were twelve entries, and some splendid sho ting was witnessed. Seven of the contestants succeeded in killing nine out of ten pigeons, and Mr. Goes killed ten, but one fell out of bounds. An old and well-known Toronto sportsman "Dr." W. Smith, was present, and considering his advanced age, made some good shooting. The match, of which the score is appended below, drew out a large number of spectators.

OFF TO THE STATES. OFF TO THE STATES.

Seventeen members of the Toronto Lacrosse Club lett for New York on Saturday afternoon to play a series of exhibition matches on Staten Island, where they will be the guests of Mr. Erastus Wiman, formerly of this city, who generously bears the expenses of the entire trip. The party was made up of Messre, James Hughes, C. E. Robinson, W. T. Arthurs, W. D. Rose, C. H. Nelson, Wm. M. Fisher, Walter Bonnell, D. Henderson, C. P. Orr, Carlton Davies, W. Donaldson, Lyman Dwight, F. Martin, J. Logan, R. H. Mitchell, J. Massey, and W. C. Matthews. Wiman's desire is to introduce our national game into the States, and with this object in view has arranged for games with Boston, Brooklyn, and other clubs.

Lacrosse, says the Melbourne correspondent of the London Sporteman, under date of May 11th, is becoming very popular with the youth of Victoria, and the opening matches of the season have been played. South Melbourne easily beat the Mel-bourne Club, by scoring five goals to nothing. Fitz-roy and Carlton played a draw, no goal being scored by either.

BROOKLYN V. SHAMROCKS, MONTRIAL, July 10.—About 1, 500 people witnessed the international lacrosse match this morning between a twelve from Brooklyn and the Shaunrock team. The play was very tame, it being evident from the opening that the home team was playing simply an exhibition game. The Shaunrock took the first and third games, the Brooklyn the second and fourth and the Shaunrocks was the deciding.

contemplation the offering of a large professional race in England. The last English papers talked of another match, o be rowed within three months, between Robert Vatson Boyd and William Elliott, of Blyth. A four hundred dollar purse, split into \$250 for first and \$150 for second, is offered for a professional shell race at Bay City, Mich., on July 24th. Hanlan says he now feels thoroughly himself again. He has been spending a few days with Mr. John Davis at Windsor, and he says it did him a world of good.

Five or six crack single-scullers is a good many for a single club to turn out, but the Toronto Row-ing Club expect to have as many in their club race on Saturday and to enter at least three for the Association regarta.

The Peterboro' Review advises a local sculler, one Drury, who collided with and upset a pair-oared shell in which Mesers. G. C. Rogers and A. J. Beicher were seated, to sell his shell to the British Admiralty to be used by them as a ram.

The exportation of horses to England from Canada seems almost entirely to have ceased, and yet good hunters will command more than twice the price there that they will here. At Albert Gaterecently, nine from one stable were sold at an average of \$954 each.

The picked Canadian riflemen sent to England seem to have as much difficulty in overcoming local rifle teams there as the picked Canadian cricketers do in competing with ordinary English and Scotch local clubs. Canada's real sphere of athletic superiority is in rowing and lacrosse, where she can conquer all the world outside—N. Y. Sun.

This is the way they do it in Australia. Some of the leading members of the South Australian Jockey Club have determined that the Adelaide Cup shall be the principal event of South Australian, and have resolved to give 2,000 sovz. next year. Fancy \$16,000 for a single race in a colony! Why, there's scarcely that amount of money given in purses in the whole of Ontario in a year.

After the win of Mr. G. L. Corillard's ch. f. Spinaway has now won five races without a defeat, but in point of the number of victories ahe is beaten by Mr. D. Swigert's Kentucky crack two-year-old Hindoo, by Virgil out of Florine, who has scored seven consecutive wins and has never known defeas. As a result of this state of things, considerable anxiety is manifested to ascertain which is the best horse, and with a view of bringing them tog other, the Coney Island Jockey Club announce a special stake, to which they will add \$2,000, for a race between the two early in September—Hindoo at 110 pounds and Spinaway at 107 pounds—at three-quarters of a mile. Hindoo having never carried more than 105 lbs: the admirers of Spinaway fancy she can beat him, and if they should come together the chances are greatly in favour of the filly having the call in the betting.

CHICAGO, July 10.—Preparations are making for a pedestrian tournament here some time during September next. The principal feature will be a trial of endurance between man and beast in the form of a go-as-you-please for 156 consecutive hours. Entries are open to all on payment of \$50. The number of horses is limited to six, and they muss be ridden. Two changes of riders will be allowed. The ring will be laid with two tracks of nine laps to the mile for the men, and eight laps for the animals. The prize aggregate \$4.000, to be distributed as follows:—First, \$2,000; second, \$1,000; third, \$500; fourth, \$250; fifth, \$100: sixth, \$100. A temporary building will probably be erected for the purpose of the tournament. George Hazard, of England, Dobler, and Guyon are already named as competitors.

the measure will cover three-fourths of the country. Numerously signed petitions against the passage of the bill, including the signatures of advanced Liberals, have been sent all over the country.

THE BILL A NECESSITY. A London correspondent of an Edinburgh paper has heard the Government has received information from Ireland that unless the Compensation for Disturbance in Ireland bill is passed public tranquility will be endangered. It is said a number of peers are anxious to substitute for the bill a measure extending the Ulster tenant right system to the distressed districts. OBJECTIONS TO THE MEASURE.

of the bill believe if its true character was understood by the people of England, it would never be allowed to pass, and that all that is required is a little time to enable them fully to expose it. They say the natural inference will be, it is only inended to apply to a few districts where there is extreme distress, and to a few landlords of a very hard type, whose powers of eviction every good man should desire to check. The fact that the scheduled districts comprise over eleven million acres of land, while there are only twenty million acres in the whole country, shows the bill is far more sweeping than might be supposed from the statement of Mr. Forster, Chief Secretary for Ireland. Although only seventeen counties are named in the schedule, other counties may be partially brought within its operation for the poor law unions in many instances overlap the adjoining counties. The

The land agitation is still kept up, and branches of the Land League are being branches of the Land League are being formed in every town in the West of Ireland. The tone of the speakers at meetings is suggestive of lurking mischlef, which will have to be closely watched. It plainly indicates a political purpose, beyond the mere acquisition of land, and to which tributory. One of the outrages recently

committed in Galway was by a party of men who were observed marching along the road by the police, but were too strong to be safely interfered with, and in fact defied the small force of Constabulary to stop them. The people are taught to ex-pect that with the removal of landlordism, which they are labouring to effect, the last stronghold of British power, and the bulwark of British connection will be re-moved. WHERE THE GOVERNMENT MISSED IT. A decided policy would have secured the unanimous support of the Home Rulers and made the Ministry independent of the aristocratic element in the Liberal ranks, while their half measures have only resulted in creating a double hostility. The Parnellite party claim that the immediate interests of small tenants in the west of Ireland should not be sacrificed to the prospective advantage even of ficed to the prospective advantage even of the whole tenantry. They will, therefore, oppose the progress of Mr. Forster's bill in Committee, and probably inaugurate a wholesale system of obstruction in order to bring the Government to a deadlook.

A Dublin despatch says the opponents MR. GLADSTONE'S POWER CRUMBLING. The events of the last few days have considerably shaken Mr. Gladstone's Government, and will doubtless encourage s further attack from all who are discon tented. Owing to the abstention of the thirty-one Irish members on Friday morning, the Government only carried Mr. Forster's bill in to committee by the narrow majority of 56. Should the Parnellite members carry out their threat of going against the measure at a future stage, the Ministry may be defeated, as over one hundred Liberal members abstained from voting for a second reading of the measure reflection may prevent the Irish members from carrying out their threat, as no minister is likely to succeed Mr. Gladstone who would grant as large concessions to Ireland as he would.

A SERIOUS BLOW TO THE MINISTRY. The defection of the Marquis of Lansdowne, Under Secretary for Iudia, and of Lord Listowel, one of the Lords-in-waiting, is a serious blow to the Ministry, and will give new courage to the malcontents in the Liberal ranks, thereby increasing the difficulty of holding the Government majority together. The wristocratic Liberals severely, while the class whom it is intended to restrain, namely, the ironhanded, who have used the utmost pressure to extract rents, can afford to wait until the fetter which the Act puts upon them is removed. They will then go to work with vengeance upon the defaulters.

The wristocratic Liberals look with distrust on Mr. Gladstone, Mr.

A Polish periodical which numbers among its contributors some of the most eminent exiles who owe their banishment from their native country to their participation in the insurrection of 1863-4, has just published some interesting statistics connected with the merciless repression of that movement by the Czar's lieutenants. From these data, which appear to have been compiled very carefully and dispassionately, we gather that within the space of two years eighty-three thousand four hundred and thirty-four Poles were condemned to perpetual expatriation, and transported to Siberia or to other outlying provinces of the Russian Empire. Above ten thousand more contrived to effect their escape to foreign countries, but the greater number of these suffered the loss of their entire property, confiscated by the State, and have abandoned all hope of ever returning to their native land. Three hundred and sixty patriots were hanged in cold blood by their captors. Pecuniary mulcts to the amount of eighty-two million roubles were levied upon the "Vistula Provincés," and two thousand seven hundred estates were sequestrated, the majority of them being subsequently conferred by the Czar upon Russian noblemen fortunate enough to merit his special favour.
