LET HIM FINISH. Sir Wilfrid Laurier still begs the

privilege of finishing his work. His government has given speculators only about 2,500 square miles of western timber. There is a little more. Let him finish the There are more farm lands, and

katchewan. Let the government finish the division. The grazing lands are not all gob

bled up by irrevocable lessees. Let that be finished . Only five ascertained purchases o

land for government railways from middlemen at 100 to 200 per cent rake off have been reported. Let this good work go on. The cost of the Transcontinenta

has only been multiplied by three. Surely that is not the finish. Mr Merwin, of 187 per cent. rake off fame, has sold only \$750,000 worth of goods to the Marine De-

partmen Lat him finish. Mr T L Wilson's companies have obtained only \$800,000 or \$900,000 on the contracts which the Royal Commission so beautifully denounce

ed. It must not end there. The Canadian Fog Signal Company has come in for only about \$600 000, with profits up to 1,000 per cent. Why stop at that?

Only two "Arctic" expeditions and one "Montcelm" outfit have been paid for. These things must not be pipped in the bud.

At last accounts onl. 13 of those astonishing Walberg couracts were in progress. That is an unlucky number and should be irreressed.

Sarely there are more Wagners and Nixone, Presions and Leaches,

to be promoted and rewarded. Only 78 members of paliament have been appointed to office by Sir Wilf id. That industry is capable

of expansion. Only one Quebec Bige and one Laurier Tower have fallen. Tust is not enough.

Aching Joints

Mr Borden is closing an active week with a great meeting in Monreal, following magnificent mee'ngs at St John, Fredericton, Quebec

The Opposition Leader has commanded the earnest attention of magnificent audiences in three proinces, and is beginning next week a series of Ontario meetings. His reception by French Canadian gatherings in Quebeo gives promise of great gains in the coming election.

The Liberal Platform of '93

Read in the light of the record of the Liberal government during the past twelve years the platform on which it was voted into power by the people of Canada looks like a poor joke. The present government has been repeatedly twitted on the floor of the house with having broken every plank in that platform, and Mr that the only planks of any platform that the present government has adopted were those taken from the 41,656,405 Halifax platform of the Conservative 8 211,834 party framed a year ago.

In 1893 the Liberal party met in convention at Ottawa under the leadership of Sir Wilfrid Laurier and declared its policy containing ten planks. The first was as follows: "Denunciation of the principle of protection as radically unsound and unjust to the masses of the people." 2,456,019 Presuming that Sir Wilfrid and his

party were not mere opportunists and political adventurers who were ready to asseverate anything in order to gain power, what have they done to make good this declaration of political principles? The tariff is as high or higher than it was in 1896 9,421,382 notwithstanding that Sir Wilfrid and his followers believed the principle 7,009,900 to be radically unsound and unjust to the masses of the people. Notwithstanding the alleged injustice the present government has done nothing but rake in all the money it could by customs duties and lavish it among its grafting friends and wherver it thought that expenditure, no matter bow otherwise useless, might

benefit the Liberal party politically. The second plank provided for the promotion of a reciprocity treaty with the United States and closer trade relations with that country Taken in conjunction with the first plank this meant nothing more nor less than commercial union with the United States. During the past twelve years nothing has been done along those lines for the simple reason that the country would not stand for it even if Sir Wilfrid Laurier had been able to negotiate such which got 250,000 acres in the Sasprocity the United States has ever evinced a desire to go in for was the jag-bandled article which would provide for making a dumping ground of Canada for their manufacturers and bar out as many as possible of

The present government has not only refused, with possibly one exception, to allow equiry by special committees of the ouse into matters of public expenditure, but when matters were being has been the rule to refuse to allow witnesses to answer questions which would throw light on doubtful transactions. In the case of the Hodgins harges a special committee was appointed, but, before it had gone very far, Major Hodgins withdrew incidental revelations in connection with the construction of this government road had commenced to assume an ugly character.
