GERMANY'S PLOT LAID BARE.

WASHINGTON, To-Day.

The following is a copy of Zimmerman's instructions sent to Bernstorff: "Berlin, Jan. 19th, 1917 .- On the first of February we intend to begin submarine warfare unrestricted. In spite of this it is our intention to endeavour to keep neutral the United States of America. If this attempt is not suc- is the subject to-day of the keenest cessful, we propose an alliance on the following basis with Mexico. £ 20 REWARD FOR SIGHTING SUBMARINE.

LONDON, To-Day. Americans and others crossing the Atlantic can make a hundred dollars by sighting a submarine. Sir C. F. Yarrow, a Glasgow shipbuilder, writes to the Times that in order to encour age everyone to keep a sharp look out, he has offered a reward of twenty pounds up to an expenditure of £10, 000 to anyone aboard commercial ves-sels who draws the captain's attention to an enemy submarine. The reward will be paid on the certificate of the captain giving the name of the person who first draws attention to the submarine. Application should be forwarded through the owners to Sir Thomas L. AMERICA TAKING ACTION.

WASHINGTON, To-Day. Spurred by the increasing menace from Germany, the House leaders to-day planned to seek action before night on the bill authorizing the Predent to arm ships, and to rush it to the Senate, where an agreement exists not to pass a similar measure before to-morrow. Opposition dwindled rapidly as the members of Congress earned of the German plot to involve Mexico and Japan in a war with th United States. The House Bill, which ontains no authorization for resident to use other instrumentaliies in defence of neutral rights and would prohibit Government insurance or ships carrying ammunition, migh ate Bill, which includes the other innsurance prohibition for ammunition ships. The administration plan is to substitute the Senate Bill for the House Bill and try to force the lower House Bill and try to force the lower body to accept the change. Senator Lafollette's attitude is the principal cause of uncertainty over the Bill's fate. He started a filibuster when an effort was made to bring up the measure at 1 o'clock this morning after a long night on the Revenue Bill, and finally desisted when it was agreed to put off action until to-morrow. He has not indicated whether he intends to filibuster then. It is, as I have said, always a mistake to use powder upon a surfac which is not absolutely clean. This is true for several reasons. First, such a skin is apt to later exhibit clogged pores; second, powder spread over a surface which is not clean or one which is dusty, loses its quality f numity and takes on the color the surface beneath it, thus giving dingy look to the whole countenance

There was a Time, Not so Many Years Ago, When Little was Said About "Food Values"

Gradually, however, scientists began finding out that many common ills were directly traceable to the excessive use of certain "foods" which are deprived of a large portion of the mineral salts of phosphorus, iron, calcium, etc.-food elements absolutely essential to life.

These facts led, some twenty years ago, to the making of GRAPE-NUTS, a food rich in these mineral elements. This splendid food, made from whole wheat and barley, supplies perfectly the wonderful "food values" of these grains lacking in the ordinary dietary.

GRAPE-NUTS is most delicious! Eaten with cream, as it usually is, it is an ideally balanced food, and should be served daily.

"There's a Reason" for

Grape-Nuts

Food prices may soar, but there has been no change in price, quality, or size of package of Grape-Nuts. This is also true of Postum, Instant Postum and Post Toasties, also made by the manufacturers of Grape-
