The County of Halton entire horse show and ploughing match came off on Fridar lats at Milkon. The day being fine there was a good turn out both of horse and ploughmen. More than ordinary interest was taken in the ploughing match on account of there being some imported ploughs in the County, which were to be brought into competition with our Canadian ploughs. I might mention that the imported ploughs were from Scotland, manufactured by Geo. Sellar & Son, Houlty, Aberdeemihre. Before giving the prize list a word of explanation will be necessary in order to understand it. Some years ago the Sorteary of the County Scotlay, Mr. W.

THE EAST MONTREAL ELECTION PETITION.—A Parliamentary committee hesbeen struck to consider the petition against the return of Sir G. E. Cartier for Montreal East at the last election. For convenience, and to save loss of time, the only issue brought forward by the petitioners is as to the legality of the election, considering the manner in which it was held by the Returning Officer. That election was held under the new law, which was passed for the purpose of preventing disturbance and frauds at elections. In order to accomplish this, the city was divided into sections, and the one in which each voter was to record his vote was determined by the initial letter of his name. There was no polling in the Centre division, since there was no opposition, and the provisions of the new law were carried out in the Western division; but in Montreal East, for some reason or other, the new law was entirely disregarded. This irregularity was publicly commented on at the time, but was nevertheless persistently acted upon. We are not aware whether any reason was ever rendered for this non-compliance with the law; but we should think there is little doubt that it will invalidate the election. If such should prove to be the case, we may see another election in Montreal East almost simultaneously with that in the Western division of the city. This, of course, is on the supposition that it is possible for a parliamentary committee to come to an honest decision in the case of such a man.—Witness.

There are twenty-one thousand deaf and dumb persons in Great Britain, and it is suggested by a warm advocat of their cause that in any proposed scheme of national clucation they ought no longer to be neglected. In France most of the schools for them are assisted by the State, and are under the protection of the Minister of the Interior.

Rev. Mr. Punshon in Montreal.—
An immense congregation assembled on Sabbath evening in the Wesleyan Church to hear the Rev. Morley Punshon the celebrated English clergyman, preach. His voice and appearance are not very remarkable; his action graceful and emphatic. The same gentleman lectured, on Monday evening to a crowded church, on Daniel in Babylon.
