Lee Would Merge Railway Unions

St. Louis, Aug. 7.—W. G. Lee, grand president of the Order of Railroad Trainmen, declared tonight that there is a possibility of the different orders of railroad employees merging into one general organization. The individual orders, he said, are working out for common purpose of getting increased wages and improved working conditions.

Harris Not Man Who Killed Enos

Chatham, Aug. 8.—In communications received by the local police from Detroit it is stated that the negro Harris who killed Sheriff Dull at Munroe, denies being the Frank Jackson who is charged with the killing of Jake Enos.

SNUBS TERRITORIALS

County Associations Say There Is Too Much Red-Tape.

London, Aug. 6.—The continued snubs which have been inflicted on the Sussex Territorial Association by the army council have had a serious and unexpected result.

Capt. W. Serjison, formerly of the Scots Guards, who is a large Mid-Sussex land owner, has publicly declined to remain a member of the association.

He states that the army council shows no confidence in the recommendations of territorial associations, although it is obvious that local men, many of great experience, would not put forward excessive or extravagant schemes, seeing that they themselves are heavy taxpayers.

No discretion, he adds, is allowed to county associations. Even the question of hiring a drill hall has had to be submitted to the army council, and regimental views have been routinely overruled by the war office officials. Before a roof could be repaired it had to be sanctioned in London.

Until the army council entirely change their attitude, Capt. Serjison declares, the county associations are practically useless—and worse, as time and money are wasted all round. It would be simpler, he says, for the army council to get them abolished.

POWER BURNED OUT.

Three Rivers, Que., Aug. 6.—The electric power transformer house of the

President Lee has been in conference with 150 delegates representing all roads of the Illinois Central.

While the sessions are secret, it is known that the trainmen and conductors are planning to ask for increased wages. The conductors want to work on the mileage basis. The result of the present deliberations will be forwarded to the different lodges for approval before the railroads will be approached.

INCITING TO MURDER

Egyptian Home Ruler Is Committed for Trial.

Cairo, Aug. 7.—Sheikh el Abdul Aziz Shawish was sent for trial on the indictment of being joint author with El Ghayate of the book of seditious poems recently published by the latter.

The chief counts are incitement to murder, an apology for Dhimghar murder of Sir Curzon Wylie, and attack on the Khedive.

El Ghayate and two other natives have likewise been committed for trial. El Ghayate has been traced to Constantinople where he will probably be arrested.

The question of the complicity of Mohammed Bey Farid will be considered later.

STRIKE AT TEHERAN

Troops Ordered Out to Disarm the Nationalists.

Teheran, Persia, Aug. 8.—A serious engagement took place here yesterday in which there were many casualties. A Government proclamation ordering the Nationalists to disarm within 48 hours, was ignored, and it was decided to adopt measures to suppress the strike.

The German minister vainly interceded with the Nationalists, who took up the position in the northern part of the city, under the leadership of Sattar Khan, the constitutionalist, and Bakir Khan.

Troops were ordered out by the Government authorities and they marched with rapid firing guns to begin the attack. Brisk fighting continued throughout the whole afternoon, and the position of the insurgents was captured by assault at 9 o'clock at night. Sattar Khan was wounded, and many of the others were made prisoners.

The number killed and wounded has not yet been estimated.

GIANT CRUISER LAUNCHED

Britain Has Largest, Fastest and Most Powerful of the Class.

London, Aug. 7.—The armored cruiser Lion, the largest, fastest and most powerful cruiser in the world, was launched at the dockyards at Devonport this evening. The keel of the giant cruiser was laid Nov. 23.

Though the usual secrecy in regard to design was at first maintained, it is known that the cruiser, upon its 100 feet of deck will carry eight guns of 13 1/2-inch calibre, throwing projectiles of 1,250 pounds. They will be mounted in four barbettes, all on the centre line of the ship. The cruiser will have a displacement when completed of 26,350 tons, and will be driven by turbine engines of 70,000 horsepower, giving her an expected speed of 28 knots.

Her superiority over her predecessor in the cruising battleship class is shown by the comparison of her 70,000 horsepower with the earlier maximum of 45,000.

DIES TO SAVE CHILD.

Deposited N. Y., Aug. 7.—W. R. Michaels, publisher of the Chicago Staats Zeitung, was drowned at Okauch Lake, a few miles from here, Saturday afternoon. His body was recovered three hours later. He was out in a boat with his little 8-year-old daughter, who lost her hat and reaching out for it fell overboard. The father jumped out after her, caught her, and held her above the water until his strength failed. Parties in boats nearby rescued the child, but the father sank and was drowned.

FARM AND URBAN VALUES OF CENSUS OF 1911

They Will Be Enumerated Under the Date of June 1 Next Year.

[Special to The Advertiser.]

Ottawa, Aug. 8.—The farm and urban values of the census of 1911 will be enumerated under the date of June 1. They will include the real estate and live stock values of each enumeration district at that date, of the live stock and nursery stock sold in 1910, of the dairy products consumed at home, sent to factories or sold, and of the animals slaughtered on the farm in the same year, together with values of other products of the farm.

Land and Buildings. Farm implements and machinery owned by every person in the enumeration district will be recorded separately for values in 1911, and the rent of land and buildings will also be recorded if leased in that year.

Land and buildings, small fruits and vegetables separately for 1910; but values of horses, milch cows, other household or meat cattle, sheep, swine, poultry and hives of bees, will be taken separately for 1911, at the date of the census.

The values of live stock and nursery stock sold in 1910 will include horses, milch cows, other household or meat cattle, sheep, swine, poultry and hives of bees, and of nursery stock, which means fruit and ornamental trees, gardens and flower beds.

Dairy Products. Dairy products consumed on the farm and sent to factories or sold, real products of the year 1910. They include the values of milk, cream, home-made butter and home-made cheese.

Animals slaughtered on the farm in 1910 will be recorded for the values of horned and neat cattle, sheep, swine and poultry. Horses are not included in these values, as in our country their meats are not used for food.

The values of other products of the farm include those of maple sugar and wax for 1910, and wool, maple sugar and maple syrup for 1911.

The enumeration of hired labor on the farm refers to the year 1910. It will give the total number of men, women and children, which means the number for all men who work for hire on the farm, and the total amount paid for hire, including allowance for board. The payment should be reckoned for the full time of service, and should include the value of board. The inquiry relating to earnings for domestic service is asked for in Schedule No. 1.

In addition to the foregoing inquiries of values, a question is asked for the value of all lands and buildings owned by the farmer, including mines owned in Canada in 1911, which are outside of the enumerator's district.

FIGHTING FOREST FIRES

Three Types of the Destructive Monster of the Northern Woods.

Ottawa, Aug. 8.—The problem of protecting the forests of our country from fires is receiving considerable attention from associations of private owners, associations of lumber companies, forest wardens and the Government.

There are three classes of forest fires: Surface fires, which burn the surface layer of leaves, dry grass, brush and small trees; ground fires, burning the forest floor, and the vegetable mold; and crown fires, which accompany surface fires and burn the crowns of the trees.

Surface fires are the most common, and most destructive, of the three. They are caused by lightning, by carelessness, by smoking, and by the use of matches. They burn slowly, but with intense heat, and are exceedingly difficult to extinguish. They have been known to burn all winter, creeping along under a deep layer of snow.

Ground fires usually destroy all trees, killing the tissues of the roots, and the trees die and are blown down. They burn slowly, but with intense heat, and are exceedingly difficult to extinguish. They have been known to burn all winter, creeping along under a deep layer of snow.

As the value of lumber and of the forests increased, and the necessity of protecting them from fires as far as possible becomes appreciated, the owners and the different organizations controlling the forests are using every means of securing them against destruction by a thorough patrol system, organized fire-fighting squads with tools and equipment for extinguishing fires located at accessible points, by constant watching the public against the careless use of fire, and by every other available means.

IN INTEREST OF TEETH.

Toronto, Aug. 8.—To promote and encourage the care of teeth and mouth, and to educate the public in the proper use of tooth brushes, tooth powder, and pastes, and other mouth preparations, is the purpose of a Toronto organization that has just been incorporated by the Provincial Government. It is to be known as the Oral Hygiene Association. The concern is without share capital.

Baby Is In Danger

All through the warm months, in spite of all care that may be taken in regard to his food, stomach and bowel troubles are more than apt to attack. There's nothing that will so quickly stop fermentation in stomach and bowels and relieve colic, cramps, cholera, infantum, etc., as **STRONG'S CARMINATIVE**. Having it at hand for infant use may be worth all an infant's life is worth. 25 Cents.

In addition to the foregoing inquiries of values, a question is asked for the value of all lands and buildings owned by the farmer, including mines owned in Canada in 1911, which are outside of the enumerator's district.

REV. FATHER LADOUCEUR DIED IN CHATHAM

Formerly in Charge of St. Mary's Church in London.

Rev. Father Ladouceur, rector of St. Peter's Church, at Prairie Siding, Ont., died Saturday afternoon in St. Joseph's Hospital, Chatham, after an illness of only a few days' duration. Father Ladouceur was well known in this city, and shortly after his ordination some twelve years ago, was stationed at St. Peter's Cathedral here.

During the illness of the late Rev. Father Trasher, then pastor of the old St. Mary's Church, on Hill street, Father Ladouceur had charge of that parish, and made many friends among his people. The funeral mass will be sung Wednesday morning at his church at Prairie Siding, and interment will be made Wednesday at his old home at Stoney Point.

CATHOLICS WILL HELP STRICKEN BROTHERS

Appeal Made in Diocese of London for Campbellton Sufferers.

His Lordship Bishop Fallon has ordered a collection taken up in the entire diocese of London in aid of the stricken residents of Campbellton, N. B., where thousands of whom were rendered homeless by a conflagration which destroyed the entire town a few weeks ago.

Already a large sum has been received, and it is expected that the total amount of this diocese will amount to over \$2,000.

Campbellton is in the diocese of His Lordship Bishop Barry, who was in this city at the time of the consecration of Bishop Fallon in April.

The letter sent out by Bishop Fallon to be read by the clergy of the diocese to the different congregations is as follows:

Dear Rev. Sir: A great disaster has fallen upon the Catholic parish of Campbellton, N. B., by which the church, presbytery, hospital, school and convent have been wiped out of existence. And as the homes of the people were destroyed in the same conflagration, it will be impossible to meet the needs of religion without help from outside sources.

His Lordship Bishop Barry authorized an appeal to our Catholic charity. Sympathy with our brothers in distress prompts us to come quickly to their aid. You will therefore, explain the case to your parishioners on the Sunday following the receipt of this letter, and on the next Sunday you will take up a collection to help in the reconstruction of the church and other Catholic institutions in Campbellton.

The returns will be sent to the chancellor of this diocese and then forwarded to the Right Rev. Bishop Barry. I appeal to your own personal generosity as well as that of your devoted people. What is given in such a cause will come back to us a hundred fold. I remain, dear reverend father, yours faithfully in X to,

M. F. FALLON, Bishop of London.

LIFE'S CLOSED CHAMBERS

Sermon by Rev. J. F. Johnstone in St. Andrew's Church.

Rev. J. F. Johnstone, of Hartford, Conn., who for the last few weeks has been at St. Andrew's Church in the absence of Rev. Dr. Ross, concluded his series of sermons last night with a sermon on "Life's Closed Chambers," from the text: "For unto life is Christ, and to die is gain."

The speaker likened our lives to a big house, and said that Christ wants admission to every room in it. He is the Master of the whole edifice. Many allow Him only to enter into some rooms; some take Him into their rear, and exclude Him from the rest of their business, social, political, moral and other lives. We can only exclude Him, however, for the time that we are alive.

"The time is coming," said the speaker, "when He will enter the house and you cannot resist. He will then go into every room and hold up its furnishings and ask you what these things are doing in His house. He will condemn you. The only way to escape condemnation is to open every room in the house to Him, and live close to Him all through life."

PLENTY OF PULPWOOD IN QUEBEC PROVINCE

The American Market Need Not Fear a Shortage.

[Associated Press Dispatch.]

Washington, Aug. 8.—Despite the policy of the Government of the Province of Quebec prohibiting the exportation of pulpwood cut on crown lands, subsequent to May 10, 1910, there need be no apprehension of a pulpwood shortage that province for the American market, according to a report from Gethard Willich, United States consul-general at Quebec.

"Competent authorities," reports Mr. Willich, "that only at 15 per cent of all the pulpwood cut in this province was cut on crown lands. This percentage, while not considerable, was sufficient to prevent the sale of large quantities of such wood cut on private lands, which has accumulated in large quantities. Despite the new policy of the Government, the market for pulpwood has been poor."

The report further states that the second largest article of export from Quebec in 1909 was wood pulp, representing a value of nearly a million dollars. The value in 1909 was \$849,549, an increase in two years of over 100 per cent. The exports of the product to Great Britain in 1909 amounted to \$847,176; to France, \$82,213, and to the United States, \$19,000; a decrease from \$489,000 in 1908.

GETTING READY FOR HARVESTERS' TRIPS

Demand Upon Eastern Canada Will Not Be As Great As In Former Years.

Montreal, Aug. 8.—This morning a number of the officials of the C. P. R. held a meeting at the Windsor station offices for the purpose of making arrangements for handling the usual rush of harvesters for the West.

Yesterday a number of telegrams were received by the company from their agents in the west, giving par-

PREMIER COUNSELS PRAIRIE CHILDREN

Over a Thousand Cheer His Appearance in North Battleford

South Battleford, Sask., Aug. 7.—(Special).—Following a day of travel, in which he addressed gatherings at Davidson, Hanley, Dundurn, Langham, and North Battleford, Sir Wilfrid Laurier spent today resting at the residence of Senator Prince here. The Premier has been showered with congratulatory telegrams from all parts of Canada on his escape from injury in the wreck of his special train on Friday night.

Several addresses were made to the Premier at various points on his journey. At North Battleford, the Premier was met by a large number of people, and he expressed his appreciation of the presence in the homes of many little folk.

Speaking at Langham, he congratulated the people on the number of children in the gathering. "Coming from Quebec," he said, smiling, "I am better able to appreciate the presence in the homes of many little folk."

The reception at Battleford at night included a torchlight procession, accompanied by bands. Brief addresses were made by the Premier, Hon. Mr. Graham and Messrs. Pender and MacDonald. Sir Wilfrid will be joined tomorrow at Lloydminster by the Hon. Frank Oliver, who has just returned from a trip to the Yukon, and Provincial Minister St. Laurent. This is the old capital of the Northwest Territories, and the party visited the former Government House, picturesquely situated overlooking Battle River.

In the afternoon the Premier addressed a mass meeting of school children convened by the various local clergymen. Over a thousand young people and an equal number of adults crowded the stand and cheered Sir Wilfrid's appearance. The Rev. A. Little, a Presbyterian minister, presided, and the local clergy of all denominations took part. The unique audience was briefly addressed by Hon. Mr. Graham and Mr. MacDonald.

Sir Wilfrid counselled the children to honor and obey their parents, to be honest and true, to fight fair in life, and study the history of their own country. "I am not at all satisfied with my visit to the west in one way," observed the Premier. "My stay is too short to satisfy me; I am already hoping for and planning another visit."

CASTLE CARTER IS POPULAR JUST NOW

Thirty-Three Guests Are Now Quarantined in Middlesex Jail.

Governor Carter has now 33 guests at his summer hotel at the foot of Dundas street, and the women being included in the number.

All trades are represented, while some men have solved the problem of living without work. Two of the latest have been brought in from Lucan, where they were found wandering about the streets by Constable Alex. Reich, who introduced them to Magistrate C. W. Hawshawe, where Mr. Reich provided each with an order for meals and berths for 21 days, a fine of \$10.00 ap
