

The Weekly Monitor.

WEDNESDAY, JULY 25th, 1888.

The coming presidential election is now the grand topic of interest in the republic over the border.

The Democrats have pledged themselves to support reform, which will make important changes in the fiscal policy of our government.

The Republicans, on the other hand, still hold loyalty to the policy that they have been identified with for so many years.

It is a curious fact that the policy of high protection, holding to this platform complete them to formulate some proposed method whereby the enormous surplus in the treasury may be lessened and prevented from increasing.

At one of their conventions it was proposed, to do this mainly by reducing certain internal revenues, notably on whiskey and tobacco.

This mode of reduction is strenuously objected to, naturally, by many leading Republicans, consequently there is another compromise.

It will be a close and honest contest undoubtedly, but many well informed persons think the chances of the Republicans party the best.

Reform touches war manufacturing corporations, both wealthy and influential, and there can be little doubt that the great majority of them will work for the party that upholds the time-honored fall.

President Cleveland's administration of government has been characterized by sound judgment and honest principle, and it has won for him many friends among the Republicans party.

He has shown himself to be fearless and possessed of administrative ability of a high order. This naturally will be to his favor, and perhaps if the tariff question were not so pronounced, his chances for a second term would be more promising.

As matters stand at present, they are far less hopeful. The respective parties of each party are girded on their armor and are busily at work.

There, as everywhere else, is a deadly strife, and each party has its own set of political characters investigated in every way, and won to them as they have been guilty of sins of commission or omission in their past life.

Lynn's eye reports will serve out every detail, and with a pen dipped in bitter gall will blazon it to the world.

Many sin, long since repented, forgiven, and maybe nearly forgotten, has been thus dragged forth from the supposed safe keeping of the past, and has confronted antipathetic politicians, much to their injury and shame.

If a man really desires to find out what a miserable specimen of his genus he really is, he has only to run for some political office. It is a poor commentary upon our civilization that such practices exist, but they do, and it is almost a wonder that respectable men can be found to enter the political arena.

The experiment is being tried of stocking the waters of the Pacific along the California coast with sea urchins. A number of full grown specimens of this much sought after shell fish, together with a large quantity of urchins and a hatching apparatus, were recently transported across the continent from the nearest point on the Atlantic coast with gratifying success.

It appears the waters of the Pacific where the crustaceans have been placed to be about the same temperature as the Atlantic of the Massachusetts coast, and the result of the experiment is looked forward to hopefully.

Two aged men have met their death recently by being struck by a falling tree on public crossings on the W. & A. R. Both of these accidents might have been prevented, in all probability, had a guard been placed at the crossing, while the shunting was being performed, and it should be the duty of the manager to order that such a guard should be placed whenever shunting is necessary to be done at public crossings.

We beg to repeat our notice to our readers, that all those who have received publications in connection with the Monroe, and do not wish to continue, may by postal card that they do not wish to continue.

Mr. Dickey's majority in the Cumberland election was 764.

We have received a copy of the Address delivered to the Diocesan Synod by His Lordship, Bishop Courtney.

Shafner & Dixon will sell the balance of their Haying Tools at cost for cash.

It is rumored that delegates from the Australian colonies are on their way to Canada to consult with the Dominion government with reference to the proposed Pacific cable.

Mr. Thos. Englewood, the lessee of the Bridgetown Hotel, has opened a new entrance on Queen Street to his stables. The new building being put up by Messrs. Pinmore Bros., closing up the entrance on Grand Street.

Our reporter was misinformed in regard to the arrest of Perry Sims (colored) reported in our last issue. It appears he had not been actually arrested, it was merely an attempt to make him pay up a balance of 47 cents claimed by a dealer, which he (Sims) said he did not owe, and it had nothing to do with the Scott Act violation at all.

The St. John Globe says: "Mrs. Mary A. Needham, wife of the late W. H. Needham, Q. C., at one time representative of this city, died in Halifax on the 17th July. She has been living with her daughter, Mrs. M. H. Fay. Mrs. Needham was widely known in New Brunswick, and was highly esteemed for her kindness and gentleness. Old friends will bear with sorrow of her death."

Parker F. Beugh, of Prince Albert, sold to R. W. Elliott, of Spa Springs, a short time ago a yearling colt sired by Black Pilot, for \$100. This colt is remarkably well built, stands fourteen weeks since tipped the beam at 675 lbs. Mr. Beugh has one of the best brood mares to be found in the County and has raised and sold a number of Black Pilots. He is now raising another that bids fair to rank with best of Black Pilot's descendants.—Com.

Mr. J. P. Beckwith, who is one of the most trusted employees of the W. & A. R. E., has been incapacitated from work for some time, owing to an affection of his back which prevents him from standing or walking any length of time without much pain. He is a native of this town, and has been in it for many years, and has been living for the past several years where he and his family have been staying with his mother-in-law, Mrs. Abner Troop, of this town. On Saturday last Dr. J. E. Moore, of Kentville, and Dr. F. Primrose, of this town, performed a surgical operation upon one leg, which is expected to greatly relieve if not cure Mr. B.'s difficulty. We trust this may prove to be the case.

Choice Vinegar in bottles, Celery, Pineapple and Fure Mall, double strength for sale by Shafner & Dixon. Give it a trial, and be satisfied as to the quality.

Local and Other Matter.

New potatoes are in the market. Only 30 cents a peck.

Warren.—Three tons of Good Washed Wool, at Randolph's.

There was a total eclipse of the moon on Sunday night, and likewise of the eclipses.

Last week 336 passengers were landed at Annapolis from Annapolis to New Brunswick and back.

The large quantity of rain that has fallen recently has retarded haying operations very much.

A more named Belle Hamlin, treated a half-mile in 1.000 ft. on the Driving Park, on Tuesday last week. No such time has ever been made before.

The Maritime Teachers' Association closed its session in St. John on the 19th inst. The meetings were most interesting and were addressed by many prominent educationalists and public men.

The "Missing Link" has got another set back, we learn from the Halifax Herald that the Western Counties Railway Company have not been altogether successful in issuing their new debenture loan.

During the shipping season of '87, there were shipped from Bridgetown station about 7000 barrels of apples, as compared with 15,000 during the season of '88-'87. This will give an idea of the difference in the crop of this season. It is feared the crop will be even smaller.

Our old friend Mr. Hector McLean, who has been in Halifax, N.S., for some time past, engaged with several other gentlemen in outlining the question of a new bridge over the harbor, and completed the contract, greatly to the satisfaction of all concerned. In our next we will publish an extract from the reference thereto from a local paper.

We regret to state that Mr. John Primrose, who had been in Halifax, N.S., for some time past, engaged with several other gentlemen in outlining the question of a new bridge over the harbor, and completed the contract, greatly to the satisfaction of all concerned. In our next we will publish an extract from the reference thereto from a local paper.

Advances in Sugar.—There has been quite a revolution in sugar both in the American and Canadian markets lately. Prices have advanced from 10c. to 15c. per lb. Prices have been advanced by the Rotterdam here to 75c. for granulated, and 80c. cents in 64c. for Phillips. Molasses is a very firm with prospects of higher prices.

The Grand Central, Messrs. Knowles & Reynolds, publishers of St. John, N.S., has a handy guide for travellers, who desire local information about hotels, steamers, hotels. In that respect it is a marvel of completion. It also contains a good deal of other information for travellers, and all is presented in a lively and an entertaining manner.

Thousands upon thousands of young fish, believed to be salmon, were washed along the shores of the Miramichi near Newcastle last week. They are believed to be part of 1,250,000 of fry placed in the Northwest from the Miramichi hatchery last week ago. The theory is that they died soon after being planted, and were brought down by the tide. The Atlantic says that there are those who believe that the hatchery is of no practical value.
