Armstrong's Patent Mechanical Filter

Warranted to purify 500 gallons of Water in 24 hours.

It is a well authenticated fact that a great proportion of the diseases incident to this Country, viz; Fevers, Agues, &c., are caused by the impurity of the water, and it has therefore become an object of importance to the public to discover a means of purifying it in sufficient quantities for ordinary household purposes. This is now done by the Patent Mechanical Filter, which at the same time unites rapidity, simplicity, and economy, and by means of it water can be purified in any quantity, with very little trouble. During the last year, since their introduction into the United States, they have been adopted into the Navy, both national and commercial, and are fast becoming general as an article of household use.

ITS ADVANTAGES ARE

- 1st. Smallness of compass, cheapness and simplicity of construction, whereby it is not liable to get out of order.
 - 2d. The rapidity with which it works, purifying 500 times as much water in a given time, as any filter of the ordinary construction.
 - 3d. As it does not operate chemically, water for washing and all other household purposes, as well as for drinking, can be purified by it. It will also be found particularly adapted for Wine & Spirit Merchants; &c.
- Price \$3 each, in complete order for use. Families in distant parts of the country can have Filters forwarded, carefully packed, by addressing the Agent by post, with a remittance.

REDUCTION IN THE PRICE OF TAILORING !!!

THE Subscriber, wishing to extend his business, takes this method of informing the public that he has made a very great reduction in his prices, amounting on some articles to one third less than formerly.

But in consideration of this great reduction, he intends in future to exact payment on delivery from all, without distinction of persons, as the time spent in collecting small debts might be more profitably employed; from this rule he will not deviate.

Those who patronise him may rest assured that no pains will be spared to have his work done in a style that will bear comparison with any in the Province.

The price of Cutting is also reduced. SAMUEL McCURDY.

J. WINER'S COMPOUND SYRUP OF HOREHOUND AND ELECCAMPANE.

FOR the speedy and effectual cure of Coughs, Colds, Asthma, Spitting of blood, whooping Cough, Croup or Hives, Consumption, Pleurisy, hoarseness, pains and soreness of the breast and lungs. Bronchitis, a disease that is sweeping hundreds to a premature grave, under the fictitious name of consumption, can be cured by this medicine. The usual symptoms of this disease (Bronchitis) are cough, soreness of the lungs or throat, hoarseness, difficulty of breathing, asthma, hectic fever, a spitting up of phlegm or matter, and sometimes blood. It is nothing more than an inflammation in the fine skin which lines the inside of the whole of the wind tubes or air vessels which run through every part of the lungs.

The peculiar virtues of this compound have for a long time attracted the attention of the medical profession and public; and a lively interest has recently been directed to the development of their active powers and pulmonary qualities, which the proprietor is now able to gratify, and presents this medicine to the public with full confidence of its being the most safe and valuable remedy ever discovered and adapted to all diseases of the lungs, when any of the functions do not perform their natural or healthy action.

It is universally believed that God in his Providence has not afflicted his children with pain and disease, without at the same time giving them something in the garden of nature that will not only mitigate, but in many cases entirely relieve them. With these views strongly impressed on our minds, every one should feel a great desire to investigate to the utmost of his power, the great arena of nature, and to draw from that source that instruction which the wisdom of man has failed to attain.

In presenting this article to the public, the proprietor was influenced by the hope that a medicine prepared with much care and strict regard to the chemical properties of its several ingredients, should take the place of thousands of irresponsible nostrums of the day, with which this country is deluged.

The use of one bottle of the Syrup will be sufficient to convince the most sceptical of its beneficial effects.

Directions accompanying each bottle, with the signature of the proprietor, without which none are genuine.
