

Three giants among the great ones in pianoforte music

When you piano men secure Hofmann's, or Godowsky's, or Scharwenka's endorsement of a certain make of piano, you advertise it. That should give you some conception of the market for records which these masters of the pianoforte not merely endorsed but made.

The same with Bonci—with Ysaye, Destinn, Casals, Fremstad, Seagle, Garden, Ferrari-Fontana, Claussen, Nielsen, Parlow, Slezak, Zenatello and scores of others.

What you intend to do about it is the next thing.

We know what we are ready to do, any time you say.
