LOCAL AGENTS WANTED!

An Agent wanted for each Town and County in the United States.

Parties desiring to act as agents must accompany their application by a letter of recommendation as to character and responsibility from and signed by the Editor of a newspaper published in the town or county for which agent proposes to act. The agency is to sell the bonds of the Industrial Exhibition Company.

BONDS \$20 EACH.

The Industrial Exhibition Company will furnish agents with Circulars, etc., etc.

Each newspaper published in the town where agent is located will, as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes and objects of the Company. Such advertisement will continue in such papers as long as agency is successfully conducted.

The Industrial Exhibition Company is the first to adopt the plan so long in use by the European governments of issuing bonds when the principal is made secure and not risked, but where there is a chance for a large premium, an investment of \$20 is sure to return to the investor \$21—one dollar more than cost—and the holder of a \$20 bond may obtain a premium either of \$50, \$100, \$200, \$400, \$1,000, \$3,000, \$5,000, \$10,000, \$25,000 or \$100,000. The interest, which is ordinarily distributed to all the bond-holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his investment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in the above named premiums, which are simply the distribution of interest on the whole loan.

Each bond participates in four drawings each year, until it has drawn a premium, when it is surrendered, the premium paid, and the bond cancelled.

The Industrial Exhibition Company, under a special charter, granted by the State of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great privileges.

Every American who understands the purposes of this Company will, of a necessity, feel a pride in aiding it to a successful termination.

Each individual who buys a bond becomes an owner and an interested party, and when he views the structure erected with his money can say, "I aided to erect in our country the most magnificent building the world has ever seen, a palace which, in truth, represents the industry, energy and mechanical genius of the American people."

The manufacturers and the inventors of America are peculiarly interested in the success of this enterprise, for the reason that it is to be their home, where all their inventions and manufactures can be exhibited and sold.

The building will contain 3,329,000 square feet of space.

Purchasers desiring bonds before an agency is established where they reside, will communicate direct with this office, from where they can be supplied.

Parties desiring to act as agents or to purchase bonds will address
