THE

WHITE SEWING MACHINE

—IS THE—

BEST MACHINE TO BUY

There is no exaggeration in the following statements:—

EXTREMELY SIMPLE.—No eye to thread but the eye of the needle.

LIGHT RUNNING.—It can be run with a single thread of spool cotton in place of the leathern belt.

You can thread the shuttle with your eyes shut.

You can set the needle without looking at it.

When once started, it will wind the Bobbin like a spool, without a hand to it.

The belt is put on by simply laying it against the wheel, under a spring; it adjusts itself.

The most convenient machine for those with sight, or for the blind; used in the Asylum for the Blind, Brantford.

A great variety of convenient attachments with the White.

Be sure you see the White before purchasing any machine.

Head Office—108 King St. West.

BRANCH OFFICES:

332 and 328 Yonge Street.

The Leading "One Price" Dry Goods, Carpet and Clothing House,

128-132 King St. East

TORONTO.

SPECIALISTS.

NASAL RESPIRATION.

We should always breathe through the nostrils, as breathing through the mouth tends to weaken the lungs and produce sore throat and Bronchitis. Any one suffering from Laryngitis, Bronchitis, Asthma, Catarrh, Consumption or Catarrhal deafness should at once consult the Surgeons of the International Throat and Lung Institute, who make a specialty of the above diseases, and who use the Spirometer, invented by Dr. M. Souviele, of Paris, ex aide chirurgien of the French army, the only instrument in which medicated air can be conveyed to the lungs through the nasal passages. Consultations without charge. Physicians and sufferers invited to try the Spirometer free.

James Menzies, 44, Terauley St., Toronto, says:—I was taken very ill last March and consulted our regular physician who gave me up to die of Consumption. I was very weak and greatly emaciated, expectorating large quantities of matter pronounced to be my lungs. As a last resort I resolved to try Dr. M. Souviele's Spirometer and treatment. I have improved perceptibly every day since, and now I am as well as I ever was.

JAMES MENZIES.

OTTAWA, June 6th, 1883.

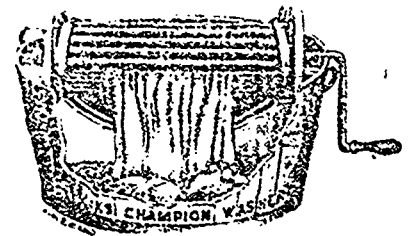

Dr. M. SOUVIELLE & Co.,
 Dear Sir, — With pleasure I permit you to use my name as one of your many references. I am really much better from the use of your Spirometer and treatment, as I wrote you in my last letter I am not completely cured yet, but that is, I am satisfied, my own fault, for not having followed strictly your directions. If I had, I have not the least doubt but I would by this time have been radically cured — however I am still improving since I wrote you last.

Respectfully Yours,

N. LARACHELLE,
 Deputy Secretary of State, Ottawa.

Write, enclosing stamp for list of questions and copy of "International News," published monthly, which will give you full information and reliable references.
