The choicest words from Webster's Dictionary would be inadequate to describe the beautiful lines of Christmas Cards and Calendars we have ready for the coming season.

OUR QUICK-SELLING LINES OF

FIVE CENT AND TEN CENT CALENDARS

have never been approached by any other publisher. The demand keeps us working overtime just now, but any orders **you** place with our agents in Canada will have attention without any waiting.

The engravings shown here, give but a faint idea of the attractiveness of these dainty calendars. They are cut out shapes, embossed, mostly 3 drop, and have the look of a 25-cent article.

Get hold of our sample books and see just what we're talking about.
