Declarations of other facilities producing chemicals which can be used for chemical weapons purposes ^{3/}

^{1/} The view was expressed that declaration of location should be made in the context of declarations that production have ceased.

^{2/} The view was expressed that as regards elimination of chemical weapons production facilities such an obligation was not necessary.

^{3/} Some delegations stressed that overall declarations should encompass not only production facilities with a production for chemical weapons purposes but also other facilities producing chemicals which can be used for chemical weapons purposes. It is understood that for the time being the paragraphs under the heading "Declarations of chemical weapons production facilities and plans for their elimination" refers only to production facilities with a production for chemical weapons purposes. A separate heading "Declarations of other facilities producing chemicals which can be used for chemical weapons purposes" has been inserted to indicate that the question of declaration of such facilities will need to be worked on.
