Patent Rossing Machine

Why you should use this Rosser. . . .

It will do double the work of any other.
It is the only machine made that will peel Cedar Shingle Blocks.
It will peel dirty blocks without taking the edge off the knives as they cut from the clean bark or block out.
It is a self-feeder, and very easy to operate.
It requires less power than a face wheel.
All iron and steel, very simple and durable.
It will ross knotty and uneven timber without waste.
It occupies about the same space as an ordinary planer.
You can have a chance to try a machine before buying it.

... MANUFACTURED BY ...

Dauntless Shingle and Heading Machine

... WILL make more Shingles per day than any self-acting machine with vertical saw in existence, and more Shingles from the same quantity of timber.

THE FRAME

... Is of Iron throughout, very heavy and rigid, strongly bolted and braced.

THE CARRIAGE

... Is very light and strong, made of forged Cast Steel Plate, running on steel ways or tracks. Will take in a block 18 inches wide and 19 inches long, adjustable for 16-inch or 18-inch shingles.

— CAPACITY FROM 25,000 TO 50,000 PER DAY —

[COPY.]

HASTINGS, Dec. 3, 1894

F. J. DRAKE, Esq., Belleville.

Dear Sir,—We have waited two years before giving you our idea of your machinery. This we did to thoroughly test it, and can now say we know what it can do.

Your Saw Mill is equal, or nearly equal, to any we have seen of much heavier make, and far in advance of any light rig in the market. The capacity per day is fully up to your guarantee, 40 M per day. We have tested with eight men.

The Shingle Mill cannot be beaten for any kind of timber. Ours being in a manner a custom mill, we have good, bad and indifferent timber, but for all it does the work satisfactorily.

You may use this in any way you please, or refer to us at any time.

Yours truly,

(Sgd.) W. J. & H. W. FOWLDS.

(F. J. DRAKE)
