Trade in shipping cattle is dull. The main reasons for this are scarcity of oce in space, poor quality of cattle, coming on the market, and dulness of trade on the British markets. Many drovers lost money, having paid too much for their cattle in the country. It would be an object lesson if some of the farmers would come and see their cattle sold. Seven people out of ten are said to have Piles. Not one man in a million need have them and—we are proving it every day at our own expense. We send a sample package of the wonderful Pyramid File Cure to any person absolutely free.

We don't do this as a matter of the safe time than any other period the car demand for cattle was brisk and an active trade was done, notwithstanding the fact that unusually high prices were demanded for fancy Easter beeves. We don't do this as a matter of amusement or philanthropy, but because it is to our interest to do so. We know that the sufferer from piles, tor-Ale for a dollar a drop, know that the sufferer from piles, tormented and driven almost crazy by this wretched trouble, will find such immediate relief that he will go at once to his druggist and buy a box and couldn't be purer than We know that we have got the greatest remedy in the world for piles, and we are ready and willing to stand or fall by the verdlet of those who make the trial. We have been doing this for some years now and we never yet have had occasion to regret it.

And the remedy at the drug store is exactly the same as the sample we send out. As, for instance, here is a man who got such immediate relief The renewed strength in hogs was due principally to the small supply offered and the keen competition among local dealers for supplies, as the big packing concerns were not operating to any extent.
