THE WAR LOAN

Three years ago Dominion of Canada bonds sold to yield only 4% on the amount invested. It is interesting to know how the loan now issued at 96 would work out

Five Years From Now

when the loan would still have fifteen years to run.

It would sell at 100 to yield 5%
" " 105% " 4 1/2%
" " 111% " 4%

The investor on this basis would have had 5.40% on his money for five years and could sell, if desired, at a profit of \$40, or \$93.75, or \$152.50 per \$1,000, as the case might be.

We shall be glad to forward your application and look after all your interests free of charge to you.

INCIDENT FOR TEST CASE

Refusal to Permit Armed Vessels to Enter Port Is Protested.

LONDON, March 13.—The experience of the defensively armed British steamer Princess Melita, which was forced by the Dutch Government to leave the Hook of Holland because of her armament, has raised an issue which it is believed will assume the nature of a test case. It is stated that the British Government will insist upon defensively armed ships being permitted to enter Dutch ports. Negotiations regarding the retention of ships in Dutch harbors is still proceeding. The British Government is unbending in its determination not to acquiesce in the policy of the Dutch in keeping their ships in their harbors because of the German threat. It is reached under which Holland can procure guarantees from both belligerents for a safe route for her vessels.
