MESSES. THE DOMINION SECURITIES CORPORATION, LIMITED

GENTLEMEN,—We have examined the books of the Dominion Iron and Steel Company, Limited, for the three years ending May 31st, 1909, and find that the profits of the Company for that period, before charging interest and discount on bonds and loans, were as follows:—

For Year Ending May 31st, 1907 \$2,027,452.00 For Year Ending May 31st, 1908. 2,710,488.14
For Year Ending May 31st, 1909 2,189,908.84
Total 86,927,848.98

In arriving at these profits the Sinking Fund instalments and other provisions for or in lieu of depreciation and exhaustion of minerals have been deducted, the total for the three years being \$1,073,510.81, which is in our opinion indequate. The profits of \$6,927,848.98 include the sum of \$1,870,314.33 derived from bounties on pig iron and steel ingots which under the terms of the Act of Parliament establishing them are on a decreasing scale and terminate or ingots which under the terms of the Act of Parliament establishing them are on a decreasing scale and terminate or ingots which are payable at a uniform rate until December 31st, 1910; and also \$1,067,322.60 from bounties on wire rods which are payable at a uniform rate until December 31st, 1910; and also \$1,067,322.60 from bounties on wire rods, but excluding the terminating the granting Act is repealed by Parliament. Including the bounties on wire rods, but excluding the terminating bounties on pig iron and steel ingots, the profits for the three years were as follows:

For Year Ending May Sist, 1907 \$1,722,304.43

The costs of production have in the past shown a steady reduction, more than keeping pace with the reduction in bounties. The Current Assets of the Company on May 31st, 1909, were \$3,617,008.65, and the Liabilities other than Mortgage Bonds \$629,706.86.
