**DR. JOHN F.  
THOMPSON**  
FOR  
BOARD OF EDUCATION

A man with experience in educational affairs. Twelve years' teaching experience in Public Schools, Night Schools and College Institutes in Toronto. He believes all School Trustees should be elected at the same time, whether for one or two years; that the Board of Education should shoulder its own financial responsibilities and collect its own taxes.

ALD. SAM RYDING

is distinctly the people's candidate. He has made a study of the public wants of Ward 7 and does not begrudge any time spent for his constituents. He asks for his re-election, confident that his friends will respond as they have done on many previous occasions.

BOOTLEGGERS FINED.

On a charge of "selling" whiskey without a license Donald Walker and Patrick McCormack were fined \$300 and costs or three months in jail in the police court yesterday by Col. Denison. The military police gave McCormack \$2 for a bottle of the liquor and a plainclothesman gave Walker a marked quarter for a flask.

the By-law

Voting on By-law to authorize a certain agreement made between the Hydro-Electric Power Commission of Ontario and the Municipal Corporation of the City of Toronto and other Municipal Corporations, for the construction, equipment, and operation of an Electric Railway under "The Hydro-Electric Railway Act, 1914," and amendments thereto, submitted to the Council of the City of Toronto.

JANUARY 1ST, 1916

Let Us Reason!

Why are the corporations spending thousands of dollars to defeat the present by-law? Why have they tried to deceive the electorate by uttering and reiterating such absurdities as the following:

"You will have to spend \$4,000,000!"  
"You will have only one vote in thirty-one."  
"You will lose control of all your streets."

The facts have been established:

Toronto will merely guarantee that part of the work to be carried on within the limits of this city.

The construction and operation of the road will be in the control of the Hydro-Electric Commission.

Toronto will not lose control of any of its streets. We have the written assurances of Sir Adam Beck that no such arrangement is contemplated.

will not cost the city one dollar. It will, in fact, carry itself and show a profit. With the cheapest power in the world, a cent-a-mile passenger rate ought to be seen on the people's road. The \$13,000,000 for construction will be brought in from the United States, and the work will be for our boys when they return from the front after settling the European disturber of the peace. Those who hope for a prosperous and growing Toronto will vote for the bylaw, and for the return of

WM. FARNUM AT STRAND.

For the first half of next week another great William Fox production will be presented at the Strand Theatre. This will be "The Plunderer," with William Farnum in the leading role. This photo play is a drama of love, of the lure of gold, and of deadly hatred. It is full of action of the most robust and red-blooded type. It is superbly staged, the mining camp scenes being the last word in realism. And William Farnum has one of those tremendously virile parts in which he is unrivaled.

FOR ALDERMAN

"I stand behind every dollar  
that has been spent on account of  
the war," said Controller Thompson  
on nomination day.

Toronto holds a high position  
among the cities of the empire  
for patriotism and generosity.  
The war must be won, and  
Thompson is not the man to see  
the city backward in doing every-  
thing to hasten victory.

**SPENCE**

For Controller

Doing this will secure loyal,  
earnest, effective support for  
every wise municipal project, as  
well as determined opposition to  
every attempt to promote inter-  
ests of any special clique or class  
or faction at the expense of the  
general public good.

Twelve years of consistent and  
energetic activity along this line  
has made a record that speaks for  
itself in results accomplished.  
Controller Spence's share in the  
Hydro-Electric success, the great  
waterfront development plan,  
progressive legislation for parks  
acquisition, many other public  
improvements, and the blocking  
of many selfish schemes are re-  
spectfully recalled in this request  
for continuance of a confidence  
very highly valued.
