

The young fellow who wears our Clothes, knows that his appearance is above Criticism.

THE hot spell has cleared out a pile of two-piece Suits, but there are still some good ones left at \$10.00, \$12.00, \$15.00 and \$18.00.

You know, boys, this is an all Clothing Store, where your needs are looked after from A to Z, in a way that's sure to please you.

Store open through the week till 6 - Saturday nights till 10 p.m.

OAK HALL, Clothiers Cor. Yonge and Adelaide Sts. J. C. COOMBS, Mgr.

seem to have carried the same weight, during the last few weeks, as representatives of the company, after examining a number of sites in the Maritime Provinces, have since been actively engaged in looking over a number of sites in Ontario, with a view to establishing the refinery near to which information available here as to whether a final selection of a site has been made, but the location in Ontario.

Can Canada take the word of the International Nickel Co. after the exposures that have been made? And is the Board of the International Nickel Co. to come into Canada and exploit our nickel in view of the facts that have been presented? We would not allow the International Nickel Co. to come into Canada for one moment until it clears its skirts and announces who are the German owners of its shares. We believe they have already attempted this under the able guidance of Hon. Frank Cochrane and Hon. Wallace Neill. But it will not do to publish about it and what has been said at Washington in congress and elsewhere. You cannot convince President Wilson of the United States of the integrity of the International Nickel Co. in the production of armor plate for the navy of the United States. And his stand toward the armor plate trust is the strength of the influence of the International Nickel Trust because of its methods and because it is pro-German, has its branches in England and France and all the big metal interests of the United States and Germany linked up with it. If the World were to cease its campaign against International Nickel tomorrow they would go on making promises like what they made to Sir Robert Borden last session when they said they were going to build a factory on the coast of Nova Scotia, where they had access to sea water! Sea water is a fine thing to have in the refining of nickel! Ontario has lots of brine in the salt wells of Huron and Essex and other counties in this province.

If the governments at Ottawa and Toronto want information as to the ramifications of the International Nickel Co. and the metal trusts that have headquarters in New York and their real direction in Germany and highly paid agents in Canada, they ought to read the will of some prominent Canadians—and they have recently been permitted to read one of them—and they might get some light on the subject. And how the power privileges up in northern Ontario have been turned into the hands of these German-Americans and the metal kings of Germany by the 'aid and comfort' of Canadian ministers of the crown!

BISHOP SWEENEY ISSUES LETTER TO THE CLERGY
In regard to the observance of Aug. 4, which will be observed in commemoration of the second anniversary of the declaration of war, the Bishop of Toronto has issued a special letter to the clergy of the diocese of Toronto, in which he asks for a religious observance of the day. The letter in part is as follows: "I request that that date be set apart and regarded and observed by arranging services in all the churches of the diocese, for special intercession and humiliation for all church people. Also request that all churches shall be kept open for private intercessions, and that where, in country parts, such proposals shall not be practicable on Aug. 4, the Sunday following (Aug. 5) shall be observed as such day. The measure of success that under God has recently attended the forces of the allies should be a stimulation to us as a nation and a people to deeper reverence to God for victory in the cause of righteousness, to which our empire is so splendidly giving itself."

FINE PROTECTION GIVEN TO MERCHANT SHIPPING
Seventy-One Lost or Badly Damaged Out of Twenty-One Thousand.
LONDON, July 25.—(8.25 p.m.)—In a report to the admiralty, reviewing the operations of the Dover patrol since December, 1915, and recommending numerous officers for meritorious conduct, Vice-Admiral Sir Reginald Bacon, commander of the patrol, says that in six months more than 21,000 merchant ships, apart from men-of-war and auxiliaries, passed through the patrol lines. Of these, only 21 were lost or seriously damaged by enemy vessels. "But, to effect this security to merchant shipping," says the admiral, "I request that over four per cent of our patrol vessels have been sunk, and the lives of 77 officers and men lost to the nation." The admiral further notes that the most serious attacks in the protection of the flank of all sea transports to and from the British army in France, and that this vast transport has been so thoroughly safeguarded that not a single life has been lost during the sea passage.

LONDON, ONT., STORM RESULTS IN HAVOC
LONDON, Ont., July 25.—Nearly four weeks of extreme heat and drought terminated this afternoon with a thunderstorm of extreme violence which raged for two hours with the business districts at its centre. Torrential rains fell accompanied by hail, while a score of buildings, including dwellings and churches, were struck and damaged and set afire.

WAR SUMMARY
THE DAY'S EVENTS REVIEWED
(Continued From Page 1.)

the driving of the Germans from trenches north of Verdandovillers. On the Verdun front cannonading prevailed in the regions of Fleury and La Laufee.

In Volhynia, if one should judge from the admission in the German official communication of yesterday, the Russians are again breaking thru the Teutonic lines. The exact spot is not given by the enemy, and as usual he announces the reverse in a minimizing manner. But it looks as if the Russian troops have fully established their individual and collective superiority over the enemy and that they will keep on pressing him hard. For several weeks they have been winning steadily, pressing back the lines of the Austro-Germans and fighting invincibly. The result of these successes has naturally been the giving of an elan to them, so that they need little encouragement to attack the enemy established in the most difficult positions. On the Tonic side, with each reverse and retreat, comes a corresponding depression and sense of inferiority. The Hungarian semi-official admission of inferior munitionment to the Russians appears designed to prepare the public mind for a coming disaster.

In the Carpathians matters appear to be going badly for the Austrians. So far the Germans have been able to spare no troops to conform to the Russian initiative and to defend Hungary. Latest news from there shows that an attack of Hungarian or Austrian infantry made against a force of Russian Cossacks was a complete failure.

The latest information from the Russian forces on the Volhynian front, by way of Petrograd, is that they are crossing the River Sloveks, to which the enemy had retired after his recent reverse, and that the crossing is not being impeded by the fire of the Teuton batteries. They took yesterday morning 1000 prisoners, four cannon and five machine guns in this region. The Sloveks River is west of the Bzr and one of its confluent.

Word from the Caucasus also shows that the Russians, in their offensive towards Erzincan, are closely pressing the Turks. These are fleeing like rabbits and they are abandoning cannon, rifles and munitions. The Russians have gained control of the heights commanding Erzincan, an important Turkish base of operations. The fall of that town is considered certain in the near future.

FORESTRY UNIT IS PROVING POPULAR

Has Signed Up Almost Seven Hundred Men in Four Weeks.
RECRUITING AT DEPOT
Twenty-Eight Attested in One of Hottest Days in the Year.
Taking into consideration the fact that yesterday was one of the hottest days of the year, recruiting results may be considered very satisfactory. Out of 46 who offered themselves, 28 were accepted, this making the percentage of acceptances about 60. The 28th Forestry Battalion again led with 10 recruits. The 204th and No. 1 Construction Battalions each secured 2, while the following units increased their strength by one recruit: 18th, 208th, 67th, 69th and 70th Battalions. The Forestry Battalion is proving extremely popular with Toronto men, as the large number of recruits secured each day indicates. For two days in succession this battalion has obtained 10 recruits, and this success which is attending their efforts.

Col. Smyth in Toronto.
The first message as to the real strength of the 28th Battalion reached the city yesterday with the arrival of Lt.-Col. W. R. Smyth, commanding officer, who has just completed a tour of the western provinces, and who reports that his unit is receiving encouragement all thru the west. Col. Smyth puts the strength of the unit at slightly over 650, this representing the recruits actually signed on during the first four weeks of its organization. The colonel also reports that two provinces, Alberta and British Columbia, each offered to raise a full company for the 28th, supplying officers and men. The offer has been accepted, which means that Ontario will not be expected to raise the full 500 men which were first allotted to her. Ten military police, a Bantam and a groom, are wanted for Niagara Camp at once. Returned soldiers or rejected men are eligible. Another infantry unit has entered the recruiting list in Toronto, the latest being the 19th Battalion, the Irish Rangers, of Montreal. Capt. Stewart of the battalion arrived in the city yesterday to conduct a recruiting campaign. The 19th was authorized at the beginning of the year and has reached a strength of over 800, but, as recruiting is almost at a standstill in Montreal, the field was widened to include the whole of Ontario in an effort to get the required 300 men.

COLD STORAGE COMPANY NEGLIGENCE, SAYS JURY
Verdict is Reached at Third Sitting of Inquest on Body of Basil Krimack.
At the third sitting of the inquest on the body of Basil Krimack, 123 Portland street, at the morgue last night, the jury returned a verdict finding that the Public Cold Storage and Warehouse Company was negligent in not taking proper precautions to protect the safety of its employees. Krimack was employed by the company loading ice on cars. To load the cars it is necessary for the men to drag the ice along the top of a railroad car with a pair of tongs to an opening in the roof.

ALMOST SUFFOCATED BY SULPHUR FUMES
T. J. Kelly, inspector at the plant of the Swift Canadian Company, Limited, narrowly escaped suffocation yesterday afternoon. Unknown to any of the employees he became locked in a room where sulphur fumes were being forced. He was fortunate in attracting attention by breaking a window, but not before he had inhaled a considerable amount of the fumes. After being released, he was attended by Dr. G. H. Gardner, who had him removed to his home at 25 Lakeview avenue, where he is progressing favorably.

Children Hate Medicine - Give Them Nature's Food-Laxative
To keep children well and growing, constipation must be kept away. The way to feed children for health is to give them a little bran each day.
Kellogg's Bran (COOKED)
But you must give them bran that is palatable—bran they will eat. Kellogg's Bran. You can serve it from the package with cran and sugar or mix with cream. A twenty-cent package will last one week for six weeks.
Good grocers sell it.
The Kellogg Food Company, Battle Creek, Mich.

Be sure to get the genuine SANITARIUM KELLOGG COOKED BRAN. There are substitutes and imitations. Refuse them.

BE SURE TO GET THE GENUINE SANITARIUM KELLOGG COOKED BRAN.

YORK COUNTY AND SUBURBS

NORTH TORONTO MARKET OPENED FOR BUSINESS
Several Hundred on Hand Yesterday When Mayor Church Declared Building Ready.
The opening of the new North Toronto market, located for the present in the old C.P.R. station at the tracks on upper Yonge street, yesterday was a notable event in that district, and brought together a big crowd of men and women from the northern part of the city and county. Between two and three hundred were on hand at 10 o'clock when Mayor Church declared the building formally opened, at the same time expressing the belief that a bigger and brighter era was dawning for the northern part of the city. The acquisition of the Metropolitan and the extension of the railway to the limits of the city would revolutionize things in that section. He predicted a great future for the new market.

Old C. P. R. Station on Yonge Street, Remodeled, Provides Splendid Accommodation.

WEEDS ARE NUISANCE IN OUTSKIRTS OF CITY
Residents in Moore Park and North Rosedale Are Complaining.
Residents in Moore Park and the northern part of Rosedale are incensed at the negligence of the city authorities in allowing great masses of sweet clover and other weeds flourish on the vacant lots and side streets. In some places they have attained a height of seven or eight feet and are so thick as to prevent passage thru them. North Toronto on many of the streets the same conditions prevail and some of the sub-divisions out in the county are overgrown with the weed. The actual farmers living alongside these sub-divisions find it impossible to keep their farms clean under the conditions and threaten legal action. On many of the county roads this year as well no effort has been made to cut the weeds and thistles, and these with the sweet clover present an unsightly appearance. Last fall several grass fires which assumed dangerous proportions came from this cause.

BUSINESS KILLED BY NON-DELIVERY
A case of considerable hardship was reported to Chairman J. R. MacNicol and members of the executive committee of the citizens' express and freight campaign men of the Oakwood district by J. T. Butler, grocer, 1034 West St. Clair avenue. Mr. Butler complained that he has practically lost a fine business in the sale of eggs, owing to the refusal of the express companies to deliver to his place of business. Stores in the Oakwood district state that they are compelled to purchase their supplies thru wholesale houses in the city at much increased prices.

INJURED BY MOTOR TRUCK
Shortly after 5 o'clock yesterday afternoon, Ronald Knight, aged 11 years, 104 Boon avenue, was run over by a motor truck on Dufferin street, sustaining severe injuries to his neck and hand and slight wounds in the right leg. Dr. Gordon W. McCormack removed first aid and the boy was conveyed to the Hospital for Sick Children. He is the eldest son of Pte. W. Knight of the Bantams Battalion, Canadian overseas contingent.

INSTALL PIPE ORGAN
A handsome new pipe organ is at present being installed in St. Leo's R. C. Church, Church street, Mimico, of which Rev. George E. Doherty is pastor. The organ fund is being subscribed by the congregation, which is spread over a widely scattered district.

CONFERRED DEGREES
Parkview Rebecca Lodge, No. 186, visited Ravina Rebecca Lodge, No. 124, at Colvin Hall last night, when degrees were conferred on several members. After the meeting a social was given. B. G. Byram rendering several solos.
