that they make will be down dale and not uphill, as at the present

in the course of yesterday afternoon by the British army after the morn-

ing gains. In local fighting more prisoners were taken. British headquar-

ters reports that since July 1 the total number of unwounded prisoners

made by the British is 10,968, comprising 189 officers and 10,779 of other ranks. The guns brought in include 54 light and heavy pieces and 30

trench howitzers. Sixty-six machine guns were also captured. Besides all

these a great many cannon of various calibres are still lying intact on

the captured ground, or have been smashed by the heavy bombardment.

Taken by itself the British tactical operation has already become an im-

of the war it may be said that the ability of the Russians, tho confronted

from the front southwest of Lutsk to beyond the Lipa or the Luga River, is

of first rate military importance. Great as the reinforcements brought to

this front by the enemy are, he will have to find still more men to maintain

his hold on Kovel. But the Luga lines are practically the last defensive position between the Russians and the Bug, and they merely cover

Vladimir-Volynski. The recession of the Teuton lines to the Lipa exposes

those along the Stokhod River to a flank attack from the south and a re-

tirement from the Stokhod would probably doom Kovel junction. The

Vladimir-Volynski and Sokal, it promises to become still more desperate

by reason of the new Russian advance on Kirlibaba and the plains of

troops for the Carpathians, for it would then become too gravely weak ened and the Russians could strike and break its centre in front of

Tarnopol, creating a debacle. So the Germans will have to find the men

to save Hungary. So far as the present contest has gone the Germans

have shown more concern about Kovel and the Austro-German com-

munications with Berlin, than they have shown about the natural Austrian

communications with Budapest and Vienna, so that by this time part of these communications has been cut at Kolomea and Delatyn. This de-

velopment would naturally force the Austrians to retreat with the Ger-

should the Russians pursue their southward march, droves of refugees

would flee to Budapest and Vienna and a great outery would go up to

Germany for help. In her crying need for men, Germany must vitally

weaken some portion of the front, not improbably the Balkans, to get

men enough for a concentration south of the Carpathians. Then will come

HAMILTON, Tuseday, July 18.—Recruiting should receive a big stimulus here as a result of the glowing reports that members of the staff of the Sportsmen's Battalion left during their week-and leave as absence Splandid OTTAWA, July 17.—About 250 men employed by P. Lyall & Sons on the reconstruction of the parliament buildings went on strike today and as a tesult the work of demolishing the ruins is seriously handicapped. The men who worked on the "dump" have been receiving 25 cents per hour, as specified in the government fair wage scale, but claim that other contractors.

Sportsmen's Battalion left during their week-end leave of absence. Splendid quarters have been secured by the Tigers, and the men are well settled and content with their surroundings. The weather has been very hot and straw hats were provided for the officers, non-committioned officers and men, and these worked wonders.

The efficiency of the unit is increasing rapidly, and already Lt.-Col. It. R. Moodie has been complimented by the inspecting officers for the remarkable advances that the Tigers

the moment for further allied blows in other theatres. It may then be that the great offensive from Saloniki will begin.

On the French front operations have been quiet. The Russian contingent showed its mettle by repulsing a German attack on a trench in the Champagne by going out to meet the enemy in a counter-attack. More ground was gained at Fleury, north of Verdun, by the French and two German attacks in the region of Ham, in-Lorraine, were repulsed.

The Italians encountered a strong Austrian offensive in the Posina Valley and checked and broke it by counter-attacks in which the bayonet was brought into play.

Alan Associated Press Cable. LONDON, Tuesday morning, July 18.-R. McNeill caused great amusement in the house last evening when he asked the premier if he could prevent the dumping of superfluous politicians on this country. The questioner ferred to Joe Martin, who had just taken a seat on his return from Can-ada. Mr. Martin asked the prime minister if he would take steps to insure the continuance and permanence of the present relations between the domin-ions and the United Kingdom, such relations consisting of the union of hearts in imperial matters and absolute self-government in matters affect-

ing the dominions only. Donald MacMaster, Canadian member for Chertsey, said: "Before the prime minister answers the question, I would like to ask wheof the council. ther he is aware of any circumstance that puts the happy relationship between the mother country and the colnies in any peril whatever?"

YORK COUNTY

TOWNSHIP ASSURED OF WATER SUPPLY

Practically All the Arrangements Have Been Completed.

TO AFFIX SIGNATURES

Mayor Church and Reeve Griffiths to Give Scheme Asproval.

After a long time spent in negotiations between the city and the Township of York, practically all the arrangements for the supply of water by W. Monkman, J. Paton, H. Tebo, the city to the township have been completed. This was the gratifying statement made by Reeve Griffith at yesterday's meeting of the commoil and it only remains for Mayor Church and the reeve of the township to affix their signatures to make the agreement ef-fective. This will be done on the part of the township on Thursday and the

The scheme, which is one of the The scheme, which is one of the most important ever entered into by York township, provides for the supply of water by the city at the rate of 20 cents per 1000 gallons, the township to put down the mains and charge up the cost of installing the smaller services from the big mains to the houses on the property owners as the houses on the property owners as in the city. Engineer Frank Barber was yesterday given instructions to go ahead at once with the preliminary work and acting in conjunction the council, the suburbs north, east, and west of the city will be laid off in districts as in Eglinton, Oakwood, Weston road, Humber Bay, Runny-mede and Swansea. There will be no immediate water supply put down in the Todmorden and East Toronto districts, the city claiming that there can be no further extensions in that direc-

tion for some time.

The scheme will probably run up into a million dollars when it is all completed, althoung definite statement has been made. Work will start this fall and will provide employment during the winter months.

WORK ON THE "GAP" PROCEEDING QUICKLY

Everything Will Be in Running Order by Exhibition Opening.

Things are beginning to move on upper Yonge street, and it is stated authoritatively that the connection beween the Toronto Street Railway and the C. P. A gang of men were yesterday set to work by the Toronto Street, Railway management, at Price street, straightening out the line at that point and paving the way for the extension that point is the color of the c urther north. It looks as if the city will be ready to take up its share of the work. It was stated by a member of the engineering staff last night that the street railway Co. has everything in its yards ready to rush the work to Farnham. Instead of tearing up the concrete under the C. P. R. subway, the ties and rails may be laid on top and the grade of Yonge street raised. The transportation companies are characteristic content of the content c The transportation companies are objecting to the depth of the subway, and an effort will be made to get the and an effort will be made to get the city to reduce it by two feet. The plans just accepted by the street railway show a "Y" on Woodlawn avenue west, the care backing up to the Metropolitan depot on the crest of the

ANXIOUS REGARDING WORK WHEN WAR IS OVER

The question as to the prospects of securing their former positions on returning to Canada when the war is over is one which is disturbing the Toronto to Jackson's Point minds of a number of Canadian munition workers in the Birmingham dis-trict of England, whose homes are in Earlscourt. The following letter has reached The World from a worker in Birmingham:
"We thought it our duty to write you

on the subject of Canadian munition workers in England, who left their homes to do their bit for King and country. When the war is over, which will be a sure victory for the British, we should like to know what will be done for us on our return. We think this is a question for the gentlemen who represent us in parliament. This this is a question for the gentlemen who represent us in parliament. This matter is being studied at present in Britain, and we wonder if it is being studied in Ontario. As we think it more than likely that we will be sent back in mid-winter, we trust we shall not have to shovel snow."

INDIANS MAY NOT FISH.

Seneca Indians have now been denied by the supreme court the right to fish and hunt without regard to state laws on the 4,000,000-acre estate in western New York, which their tribesmen ceded to the United States Government in 1797, on condition that they and their heirs always should be allowed fishing and hunting privileges.
