

CUPS OFFERED FOR BETTERING SCHOOL GROUNDS

WITH the object of encouraging more interest in the planting and improvement of rural school grounds, the Canadian Horticultural Council has arranged to hold a competition, which will be confined to the rural schools of the Dominion. Nine silver cups have been secured, each having a value of \$25, for award, one in each province, to the rural schools accomplishing the greatest degree of beautification of the grounds during the year. The cup will be placed in possession of the school winning in any one year. It will become the permanent property of the school winning it three times, not necessarily in succession. With each cup the council will also give an award of merit certificate, which may be framed and kept by the school as a permanent record.

There is neither fee nor obligation upon a school entering the competition, with the exception that the school will be required to provide a photograph of the school grounds with the letter advising of the intention to enter the competition.

TO CONTINUE YEARLY

While there is no obligation upon the school or on persons in a district in entering the competition it is deemed best to have the matter in the hands of some more or less permanent body such as the Trustee Board, Women's Institute or other organization that may be deemed best so that the improvement may be continued from year to year and therefore attain a greater degree of success.

JUDGING

The Provincial Department of Education is being asked to arrange for the regular school inspectors to do the judging, the final award in each province to be made by the following committee which has charge of the competition in New Brunswick: Chairman, A. C. Gorham, director of elementary agricultural education, Sussex, acting with A. G. Turvey, provincial horticulturist, Fredericton. Trustees, teachers, other persons or organizations interested in this rural school competition should communicate at the earliest possible date with A. C. Gorham, chairman of the committee, who will be glad to supply further details and instructions regarding the competition.

Mrs. Vroom closed her brief address by quoting the words of the Scottish poet: "Better lo'd ye cannot be— Will ye no come usae again."

As she rose to respond the honored guest modestly thanked the Regent for her kind words of welcome and for the wonderful hospitality that had been shown her in her travels in Canada. "We leave Saint John on Friday," Lady Allenby said, "and we shall carry an everlasting memory of your beautiful country, and though we have been told repeatedly during our travels that we came at the wrong time of year, I may say that we have loved even your snow."

FOR Stomach Acid PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

BETTER THAN SODA
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.
