touching their reaction or work—and that such men and women had in large measure developed their own striking personalities through intimate intercourse with the unusual characters whom great writers had found to be worth writing about. These people, by reading fiction, had put their hands on the motives of men, while others depending for their knowledge of life and of men and women, on their own experience, and remained "all the way to the world's great dreamers." It is noted that Theodore Roosevelt usually read mystery stories and romances of the west while he was touring the country; that Senator Keweenaw of Pennsylvania prides himself on reading "all" of the detective and mystery stories published in England and the United States; and a well known railroad president makes it a rule to read one modern novel a week. President Wilson reads many novels of the day, not only for entertainment but to keep posted on the trend of modern thought.

No Paisley shawl has been worn since

1850, when the beautiful shawls went out of fashion and none is likely ever to leave the looms again. The shawl had its origin in the ambition of the Paisley weavers to produce on the loom the amazingly elaborate patterns wrought by the needle of the Cashmere shawls that had been sent home from the east by Scottish officers and traders, and they surpassed their models.

AUCTIONS

WEBBER

THE UMBRELLA.

Nowadays, when the possession of an umbrella is considered as necessary as owning a hat, it may not strike the everyday mind that there was once a time when an umbrella was a luxury. In France when they were first introduced, it was considered very effeminate for a man to carry one.

As a shade from the sun the umbrella is a thing especially useful to the sculptors and painters of Egypt, and Sir Gardiner Wilkinson has engraved a picture of an Egyptian prince in the robes of his chariot through upper Egypt to Thebes, wherein the car is furnished with a kind of umbrella fixed to a tall staff rising from the centre, and in arrangement closely resembling the chaise umbrells of the present time. The discovery of the ancient Egyptian umbrellas at Nineveh show that the umbrella or parasol was generally carried over the king in times of peace and in war-times.

From the very limited use of the parasol in Asia and Africa it passed into Greece and Rome as a luxury. The skidion, or day shade of the Greeks, was carried over the head of the chief of Bacchus and the daughters of the aliens of Athens were required to bear parasols over the heads of the maidens of the city at the great festival of the Panathenes.

Defoe, it will be remembered, makes Robinson Crusoe describe that he had seen umbrellas employed in the Brazil as a thing especially useful to the rain like a pent house, and kept off the sun so effectively that I could walk out in the hottest weather with greater advantage than I could before in the cool.

The umbrella was used in England as a luxurious sunshade early in the seventeenth century. Ben Jonson mentions it in a comedy produced in 1616. The eighteenth century had half elapsed before the umbrella had even begun to be used in England by both sexes as it is now.

Much of the clamor which was raised against the general use of umbrellas originated with the hackney coachmen, who, of course, regarded the rain like a pent house, and kept off the sun so effectively that I could walk out in the hottest weather with greater advantage than I could before in the cool.
