o'clock on summer mornings some thirty or forty head of cattle parade the principal thoroughfares making morn hideous with their bellowing. As they only cease about nine at night, six hours in the summer is the utmost limit of anything like tranquil repose which is granted to you. The fathers of the corporation do nothing to stop the performance of the

The Church Journal doubts the reality of certain literary entities who turn out stuff" by the cartload: "Is it written at all, or merely spun out of hashed dictionary? Is Sylvanus Cobb, for instance, the name of a man with a brain, or the name of a nachine that grinds out stories? Is there an 'Oliver Optic really alive, in a house, eating breakfasts and dining humanly, or is that the name of a handmill with a crank, which small boy turns till the stories drop out honor of England should be vindicated

St. Louis'is very much excited over a new sensation in the shape of a "tre-mendous successful" female thief, who was "born to wealth and finely educat-ed," The journals overflow with her elegant exploits in kleptomania. They are in perfect eestaces on the subject. The lady's name is Agnes. If she had high mission, that of being pioneer of civilization all over the globe? Do the English people think that mission which, so nobly commenced by our forefathers, has been energetically carried forward not been a rich man's daughter, she would have been dignified with no higher title than shop lifter; as it is, he is called a "brilliant example of perverted intellect."

An investigation of the abuses alleged to have been practised on the packet ship Charles H. Marshall, on the vessel's last voyage from Liverpool, is making by the Commissioner of Emigration. The evidence thus far indiversely and the present day is accomplished, and that really the time has come for them to "Rest and be thankful? No! a thousand times No? England does not believe her mission is accomplished, nor, to see the mean to allow other less worthy hands to take up her unfinished. ness existed among the crew after the death of Captain Marshall during the passage, and that the sailors amused themselves by practising grotesque cruelties upon a number of Polish Jews on board, some of the other passengers

On the trial of a horse case in Saco. Maine, recently, one of the parties, who was a'so a witness, Grace by name, not being so clear in his testimony as the judge thought desirable, was asked to scribe the animal more minutely.-Why, judge, all you Saco fellers know that air loss. 'Twas the Bill Little-field hoss that Al Hodgkins used to drive." was the "minute," clear and ready reply, in a patronising tone. The 'Saco feller' on the bench smiled quietly; the rest smiled audibly till the sheriff called "order in the court!"

the aurora borealis, says: "Here we lean over the verge of the infinite, longing to grasp its mysteries—lost in the profundities of immensity." Previous to this his friends intended to run him to the scene of operations through country districts where soldiers have not been for Congress upon the temperance ticket, but now the project has been abandoned. because they say that a man who would lear over the verge of the infinite" in order to grasp the aurora borealis in the middle of the night, must get into con ditions which unfit him for the dutie

A letter from Bucharest reports curious atmospheric phenomenon which occurred there on the 25th July, at a quarter past 9 in the evening. The heat during the day was stifling. The sky was cloudless, In the evening every volunteers into one grand army of defence has thus become a comparatively easy task. England has undoubtedly were crowded. The ladies were mostly lressed in white low-necked robes. To wards 9 o'clock a small cloud appeared on the horizon, and a quarter of an hour afterwards rain began to fall, when, to of her army during late years, and the the horror of everybody, it was found consist of black worms of the size of an ordinary fly. All the streets were strewn with these curious animals.

Hunter's Point, Long Island, was ter-aninated by the decision of the State Superintendent that it was illegal to insist on the presence of children at the reading of the scripture in the schools, and, in fact, that the Bible could not be where objection was raised. A revival of the dispute is, however, threatened by the recent action of the Long Island City Board of Education, which has decided that the pupile schools shall open at 8.45 a. m. hereafter, and that the Bible shall be read in the opening exercises, but that the children whose parents have sectarian objections shall not be required to present themselves mitil 9 o'clock, at which time the read-

English Newspapers have frequently commented on the frequency of cases of wife beating and other kinds of brutal treatment at the hands of jealous or intemperate husbands, and have in too intemperate husbands, and have in too many instances good grounds to protest against the lonient punishment awarded to the cowardly brutes, by insensible magistrates. Nothing but Draconian severity will preyent the recurrence of such outrages; but even hanging will be to murder as the criminal contract of the murder as the criminal contract of the murder as the criminal contract of the manuscript of the meanest ways of showing spite and ill-will, is that of injuring the poor dumb animals belonging to some one against whom a grudge is entertained. The practice is becoming altogether to common in Canada. The latest contract of the meanest ways of showing spite and ill-will, is that of injuring the poor dumb animals belonging to some one against whom a grudge is entertained. such outrages; but even hanging will not stop wife murder, as the criminal records in the late London papers unpleasantly demonstrate. A miner named Lace was hanged at Tauntou jail on the 27th, for having kicked his wife to death while maddened by jealousy. On the same day a London chimney sweeper concluded an almost constant quarrel with his wife by striking her on the head with a sharp edged shovel, causing death in a short time. The wretch has itted to undergo trial for the

anderson, an English authority in grain tatistics, estimates that this year's heat crop in England is greatly under He he average as regards acreage. He ays the yield will be twenty-four ushels to the acre, or six bushels below he average; quality inferior; condition ood; and weight three pounds per ushel below the average. He estimates

or the mass of consumers, to whom the he prospects in spite of the general adance in wages are anything but acouraging during the coming winter. The trial of Dr. Scheeppe will form the of the most romantic cases of alleged urder ever heard before the United tates Courts. The facts are briefly tese: In 1860 Dr. Paul Scheepe, a bung German physician became the accepted lover of Miss Maria M. Steinecke, wealthy woman, much his senior. She as taken suddenly ill one evening and led the next morning. Of course she as attended by Dr. Scheeppe, but this reumstance was thought nothing of ntil what followed some time afterwards. will, in which Miss Steinecke divided was the island together with the reformation. Persons who were present or property between certain charitable stitutions and her friends, was admited to probate, whereupon Dr. Scheppe resented another will giving all the es-

ate to him. The circumstances of Miss eineck's death were then recalled, and e was immediately arrested upon the harge that he had poisoned his patient nd was tried, convicted, and sentenced o pe hanged in December, 1869. The timony against him was wholly cirumstantial, and the case turned principally upon the evidence of Dr. Aiken, a so-called chemical expert. Two days before the time fixed for the execution to take place Scheeppe was granted a new trial, which is now approaching its con-clusion. The poisoning case has been thoroughly upset by the defence, and the prosecuting counsel have virtually withdrawn from the care. Dr. Scheeppe will assuredly be acquitted, after three years of close imprisonment. One effect the trial will undoubtedly have upon the public mind, and that is to throw grave doubts on the the testimony of medical

a note to the Journal of Chemistry, Dr. Stearns, surgeon at the U. S. HOW TO DRIVE BATS AWAY WITHOUT

We know of three methods :- First the old French plan; this is followed chiefly by men who make it a special business. They take a deep tub with a little water on the bottom, and a little elevation in the middle like an island, 27,500 elevation in the middle like an island, on which is only a place for one rat to sit upon. The top is covered, and has a large balanced valve, opening downward; on the middle of this valve, a piece of fried pork or cheese is placed, and when a rat walks on it to contain the Ottawa Parliament. A meeting was held on the 25th ult., at St. Narbert, when both candidates were present.

Mr. George Klyne, M.P.P. was appointed Chairman.

Riel first addressed the meeting. a piece of fried pork or cheese is placed, and when a rat walks on it to get the cheese, the valve goes down, drops the cheese, the valve goes down, drops the rat into the water, and moves back in position. A road is made from a rathole to the top of the tub, by means of a piece of board rubbed with cheese, so as to make the walk attractive for the rats. In the course of a single night some ten, twenty, or even more rats may The Population of the Dominion aking the Census of 1871, is as they would be found most all alive in the morning quietly swimming round; but the provision of the little kindness saves the trouble of killing them, for their 285,777 egotistic instinct for self-preservation causes them to fight for the exclusive possession of the island; on which in the morning the strongest rat is found in solitary possession; all the others being killed and drowned around him.—Second, the New York plan, invented by one of our friends. The floor, near the rat hole is covered with a thin layer of a moist caustic potassa. When the rats walk on this it makes their feet sore; these they lick with their tongues, which
