EXPORT BUTTER AND CHEESE

EXPORT SUTTER AND OMEESE Montreal, Sat. June 37th.—We have experienced an extremely active demand for cheese from the United Kingdom during the past week, and as a consequence we are again ending the week with practice of the contract of

firming up the country markets, and at all points ouyers were apparently anxious for cheese and prices ruled all the way from 15% to 12.15c. The latter prices ruled at two or three of the Eastern Ontario markets, whilst the Western Ontario markets sold at about 15%. It is doubtful if the British demand will be maintained at this high level, as receipts week, and this is a Bully 50,000 boxes this week, and this is a Bully 50,000 boxes this week, and this is a Bully 50,000 boxes this season of the year or at any time in fact unless a portion of the goods is being bought for speculative purposes. There does not seem to be any buying of this bought for speculative purposes. There does not seem to be any buying of this kind going on as all the goods bought are being shipped out immediately, the shipment for this week being actually a few thousand more than were received, and further prices are too high for specu-lative purposes, and in this connection the local operators are not likely to forget the experience of last season,

The trade in butter from the export tandpoint has experienced a set-back due standpoint has experienced a set-back due to the sharp advance in prices last week which evidently carried the goods beyond the reach of the British importer. Prices are coming back now and most of this week's purchases will cost nearer 25c in the country and even at this range there does not seem any immediate prospect of the demand from the other side coming on

MONTREAL PRODUCE TRADE

Montreal, Sat., June 27th.—BUTTER. rices for butter have ruled steady Prices for butter have ruled steady at the recent advance, although there does not seem to have been as much zip to the demand. Dealers look upon present prices as too high and bound to recede and are consequently buying only from hand to mouth. Quotations range from 26 to 20% for choice creamery in prints and 25% to 24c in solids.

EGGs.—Receipts are falling off somewhat, and as there is only a fair demand prices are inclined to be easy. We quote selects, which are comparatively scarce at 18½c to 19c. No. 1 stock at 15½c to 16c and No.

CHEESE.—There is a good demand from the local trade at 12% to 13c. Finest old cheese is getting scarcer and commands
