**CAMP COMFORT IN THE CITY**

A man naturally gets into a woollen shirt and sweater when camping. Why? Because he feels cooler, easier, freer and more comfortable.

Linen or cotton underwear, zephyr shirts, etc., are just as unhealthy and uncomfortable in the city as they would be in camp. They get wet with perspiration and remain chilly, clammy and damp for a long time. They smother the skin and give a feeling of oppressive heat in warm weather.

Now wool is the natural clothing for a human body. It is worn at camp for its ease and comfort. When damp it does not chill, dries very quickly — allows the skin to breathe, thus keeping the body cool and fit.

Apply this condition to your daily life at home or in the office by wearing *Woollen Gauze Underwear*, a fine *Wool Taffeta* or *Wool Cambric Shirt* and smart flannel or homespun suit. You are following nature's way and your body at once responds. You can work better, with greater comfort and you feel the heat less.

Jaeger Pure Wool Garments are produced with this one idea in view. Send for Illustrated Catalogue or better still, come in and see the goods at our stores, where every courtesy and attention await you.
