MAINTENANCE SUPERVISOR

The dynamic growth of a small packaging firm has created the need for the above position.

Reporting to the Plant Engineer, duties will include set up of equipment, trouble shooting, adjustments, repairs, preventive maintenance and general maintenance duties.

High speed packaging equipment experience is desirable and academic qualifications that directly support the above functions would be an asset.

This position will be of interest only to "Shirt Sleeve" type individual who is self-motivated and will actively participate themselves in getting the job done. This is an excellent opportunity to become associated with an organization embarking on an ambitious programme of growth.

If you are the person we have described, please phone
