

As soon as we came home we told Jean Cœur with
 same belt of Wampum we received not to come any
 more unless we were to make any settlement on
 our land

gave us a Belt of Wampum to speak to the
 French and order them to break down their
 house at Jagara & not to come any more among
 us nor to make any settlements on our Land
 & also to break down the house he made at
 Jagara on which he made answer that a
 Belt of Wampum as a Token that his
 Excel^t Gov^r Burnet was but a Servant of
 the King of England & of Gov^r of Canada
 of the King of France and that he would
 acquaint his Master the Gov^r of Canada with
 the Proposition they delivered him and of
 the contents of our Proposition should be
 sent to the Regent of France and if he
 commanded that the house should be demoli-
 shed it should forthwith be done

Brother Corlaer & Quider

You told us this Summer if we did not
 perform what we had promised to his Excel^t Gov^r
 we thought that the answer from France
 would come sooner to you than to us for we
 know the Kings of England & France have
 a Correspondence

Brother Corlaer & Quider

We have long since Complained to you
 that the French Ind^s called the Waganhas
 annoyed us in our hunting. And now they are
 become as our Brethren & come to trade at
 this place and We are now entirely Recon-
 ciled with those Ind^s since they are entered
 into the Covenant Chain with us. You are not
 pleased that the French have a house at Jagara
 what they do is for their Interest as our Bre-
 thren do among us, and we will not suffer the
 French to keep our Land

Brother Corlaer & Quider

We were Desired two years ago by his Excel^t
 Gov^r Burnet to let the French know that
 might come among us again that we disapproved
 of their coming into our Country & Living on
 our Land at Jagara or any where else We have
 have given Jean Cœur the French Interpreter
 Notice to take away that house at Jagara &
 to come no more into our Country We the
 Sachims of the five Nations being forty two
 in Number do now make our Complaint untill
 that Jean Cœur will not take away that house
 till he has orders for so doing from the
 Gov^r of Canada give a Belt of Wampum

We think it our Duty to acquaint you
 that we are going to Boston to treat of some
 publick Affairs, and that it was concluded
 by us and the other Sachims before we came
 from home to Desire you to appoint three
 of your number to go with us to be present
 at the Treaties. which are to be held at Boston
 and we have appointed Col^d John Schuyler
 to go along with us and it would likewise
 be convenient that Lawrence should go

Answer made by the Com^{rs} to the
 foregoing Propositions.

We are concerned that on your Return
 from the last Meeting that his Excel^t Gov^r
 Burnet the Gov^r of Virginia and Pensyl^a had
 with you here, some of your Sachims
 died, We must Submit to Divine Providence
 according to your ancient Custom the Deaths
 of those Sachims are Condol'd, We are well,
 pleased
