The Rt Hon Arthur Meighen, P.C. K.C. M.P.

26th January 1925

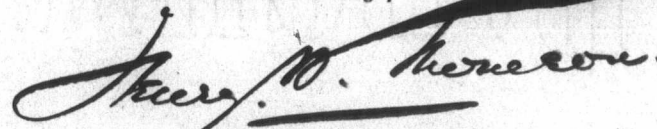

not know as he does not seem to be filling any particular niche in the "Times," but he is sitting very close to Mackenzie King and Larkin. The general idea seems to be that he wishes to be made Chairman of the Pacific Cable Board at a highly remunerative salary, but exactly what good he will do in this position is not visible to the naked eye.

I understand our mutual friend Loring Christie is now in Canada and I have no doubt you will see him. He is a very fine fellow and Canada lost a valuable man in connection with foreign affairs, but I sincerely hope it has been to Christie's personal gain.

If there is anything I can do to be of assistance, please let me know and I am always willing to try.

With kindest regards,

Yours sincerely,

Henry B. Thomson
