

tus with the inventory ; and a written report of the results of such investigation, signed by the two officers, (the outgoing and the incoming) shall be transmitted respectively to the Committee of Management and to the Medical Board.

10. In cases of emergency, in the absence of the visiting Physicians or Surgeons, the Resident Officer shall, except in cases requiring capital operations, act for them in regard to treatment, and shall, if the case require it, immediately summon the Physician or Surgeon in attendance or, if he cannot be found, some other of the Physicians or Surgeons, according to the nature of the case.

11. He shall have, subject to the By-laws relating thereto, the power of admitting patients, and shall be responsible for such admissions. He shall assign each patient to the proper ward and bed, and affix a card, having the name, age, sex, religion and disease of the patient, to the head of the bed. He shall have the power to remove a patient from one bed to another or from one ward to another when he deems it necessary ; and, with the concurrence of the attending Physician, to discharge patients, if discipline requires it; reporting such cases to the Committee of Management and to the Medical Board.

12. The Resident Medical Officer shall also compound, make up and dispense all the medicines required for the institution, and keep replenished the stores in dispensary.

13. He shall also keep all accounts relative to the patients.

14. In all cases of capital operation, the Resident
